Production Wine Analysis Bruce W. Zoecklein, 2012-12-06 This text is designed to acquaint the reader with the commonly used procedures of juice and wine analysis as they are generally practiced in the industry and as they are taught in the Department of Enology at California State University Fresno It is assumed that the reader has a basic preparation in the fields of chemistry and microbiology In developing material for this text the authors have emphasized analyses as they would be carried out in a production laboratory Realizing that different laboratories have different analytical capabilities personnel as well as equipment we have in many instances provided several different approaches to the same analysis Throughout this book we have attempted to give special attention to practical considerations and the importance of these analyses in the total spectrum of winery operations We hope the book's format will satisfy the interests of laboratory personnel as well as winemakers The process of making wine involves a series of concerns for the

winemaker and staff of a winery The first concerns are viticultural Upon arrival of the fruit its quality is assessed grapes are processed and fermentation is begun Almost immediately and in many instances simultaneously chemical and microbiological stability of the young and or aging wine become important Finally problems do occur on occasion and a number of what may be considered remedial techniques can be employed to produce an acceptable product

A Sense of Place Steven Kolpan, 2013-02-01 In A Sense of Place renowned wine expert and writer Steven Kolpan tells the story of how Francis Ford Coppola brought California's most distinguished and historic vineyard back to life Gustave Niebaum's Inglenook Estate started in 1879 was one of the Napa Valley's first established vineyards and the birthplace of its premium wine industry Generations after Niebaum's death the vineyard was sold to Heublein the wine and spirits monolith who broke up the land and changed the Inglenook brand from a premium connoisseur wine to a mass market jug wine In 1975 Francis Coppola bought the Niebaum residence and the surrounding estate Along with the original estate's reputation he also brought back some of its original workers including Rafael Rodriguez who in his late seventies now serves as the vineyard manager and historian Coppola overcame naysayers red tape and financial turmoil to reestablish the winery as a defender of quality producing wine under four different labels including the revered wine Rubicon In 1995 Coppola purchased the Inglenook Chateau and its adjacent vineyards fulfilling his dream of reuniting the original Napa Valley estate Kolpan's luscious flavorful narrative is worth enjoying now and keeping for later

Wine Analysis and Production Bruce Zoecklein, Kenneth C. Fugelsang, Barry H. Gump, Fred S. Nury, 2013-11-09 Winemaking as a form of food preservation is as old as civilization Wine has been an integral component of people's daily diet since its discovery and has also played an important role in the development of society religion and culture We are currently drinking the best wines ever produced We are able to do this because of our increased understanding of grape growing biochemistry and microbiology of fermentation our use of advanced technology in production and our ability to measure the various major and minor components that comprise this fascinating beverage Historically winemakers succeeded with slow but gradual improvements brought about by combinations of folklore observation and luck However they also had monumental failures resulting in the necessity to dispose of wine or convert it into distilled spirits or vinegar It was assumed that even the most marginally drinkable wines could be marketed This is not the case for modern producers The costs of grapes the technology used in production oak barrels corks bottling equipment etc have increased dramatically and continue to rise Consumers are now accustomed to supplies of inexpensive and high quality varietals and blends they continue to demand better Modern winemakers now rely on basic science and xvi
