Robert W. Tomlinson

Tactics Of The Crescent Moon Militant Muslim Combat Methods:

Tactics of the Crescent Moon H. J. Poole, 2004 *Tactics of the Crescent Moon* shows for the first time in any detail how Muslim militants fight at short range. From the vast quantities of intelligence available its author extracts the small unit tactical trends. While the enemy's combat method may seem amateurish they are nonetheless very effective in a 4th generation warfare environment. Those methods have already forced the Israeli Army out of Southern Lebanon and the Soviet Army out of Afghanistan. To make matters worse they may be improving. In the book's forward Maj Gen Ray L. Smith warns that the current crop of irregulars have flexible and adaptable training techniques and tactical methods. This book will help the reader to counter them. *Prayers for the Assassin* Robert Ferrigno, 2008 SEATTLE 204 The Space Needle lies crumpled. Veiled women hurry through the streets. Alcohol is outlawed replaced by Jihad Cola and mosques dot the skyline. New York and Washington D C are nuclear wastelands. At the edge of the empire Islamic and Christian forces fight for control and rebels plot to regain free will. *The Palgrave Handbook of Languages and Conflict* Michael Kelly, Hilary Footitt, Myriam Salama-Carr, 2019-02-18 This Handbook maps the contours of an exciting and burgeoning interdisciplinary field concerned with the role of language and languages in situations of conflict. It explores conceptual approaches, sources of information that are available and the institutions and actors that mediate language encounters. It examines case studies of the role that languages have played in specific conflicts from colonial times through to the Middle East and Africa today. The contributors provide vibrant evidence to challenge the monolingual assumptions that have affected traditional views of war and conflict. They show that languages are woven into every aspect of the making of war and peace and demonstrate how language shapes public policy and military strategy setting frameworks and expectations. The Handbook's 22 chapters powerfully illustrate how the encounter between languages is integral to almost all conflicts to every phase of military operations and to the lived experiences of those on the ground who meet work and fight with speakers of other languages. This comprehensive work will appeal to scholars from across the disciplines of linguistics, translation studies, history and international relations and provide fresh insights for a broad range of practitioners interested in understanding the role and implications of foreign languages in war. *Operational Culture for the Warfighter* Barak A. Salmoni, Paula Holmes-Eber, 2008 This textbook is designed to help Marines link concepts of culture to the realities of planning and executing military operations around the world. p 2 *Military Review*, 2011-07 *Al-Qaeda in Afghanistan: Nation-building and combating Al-Qaeda's ideology* Matthew Bugeja, 2014-09-01 This book explores the threats posed by al Qaeda in Afghanistan and examines the Western narrative of whether it is necessary to eliminate the militant threat in order to stabilize the country. It is argued that Al Qaeda's ideology has now become stronger than its ability to threaten international security that its aim to become an agent of change within the Muslim world has come to outweigh the threat attributed to it as a conventional kinetic and terrorist entity. The current instability within Afghanistan is not due to al Qaeda's physical presence there but rather an amalgamation of

factors It will be argued that the U S led invasion in 2001 has contributed to Al Qaeda s weakening there but it has not contributed to stabilize Afghanistan itself The instability in Afghanistan will require a strong long term commitment by the international community while the fight against Al Qaeda will require more focus on combating its ideology and less on military action

Al-Qa'ida's Doctrine for Insurgency 'Abd Al-'Aziz Al-Muqrin,2009 A window into Al Qa ida s strategic thinking **Professional Journal of the United States Army** ,2007 **Infantry** ,2008 *Covering the Shi`a* Robert W. Tomlinson,2018-11-15 Often demonized by the Western media and press Hezbollah s origins are rooted in activities of the Lebanese Shi a in the late 1970s and early 80s *Covering the Shi a* English Press Representation of the Lebanese Shi a 1975 1985 chronicles how the English language press and media represented the most consequential group in Lebanon to Western audiences during the critical period of 1975 1985 Focusing on three of the most prominent English language newspapers at that time the book outlines how the Western media frequently disregarded the Shi i civil rights movement in Lebanon Conflating that movement with other Arab independence campaigns the Western media missed key aspects and the dynamics at work in the Lebanese Shi i community Additionally in failing to understand and report the nature of the transnational networks that supported the Shi i community in Lebanon the resultant news narrative reported in the English language media was at odds with the narratives harbored by the Lebanese Shi a themselves In order to gain an understanding of the operations of Lebanese Hezbollah today and the current media coverage of the organization this book offers insights on the origins of Shi a resistance and how one can evaluate the group today
