Tainted Legacy:

The Spell Cast by Remains Patricia Ross, 2006-05-23 First published in 2006 Examining the constituting mechanism of the American wilderness myth in Modern American literature Patricia Ross probes the various purposes for which wilderness is constructed Considering the work of Hemingway Faulkner and Cather she states that the idea of wilderness is just that an idea and not a real entity or something that deserves to be wasted in the chasm of deconstruction Discovering how literature can help us to understand how we can exert causative control of the myths we create about ourselves this book is an important contribution to the field

Canada's Residential Schools: The Legacy Truth and Reconciliation Commission of Canada, 2015-12-09 Between 1867 and 2000 the Canadian government sent over 150 000 Aboriginal children to residential schools across the country Government officials and missionaries agreed that in order to civilize and Christianize Aboriginal children it was necessary to separate them from their parents and their home communities For children life in these schools was lonely and alien Discipline was harsh and daily life was highly regimented Aboriginal languages and cultures were denigrated and suppressed Education and technical training too often gave way to the drudgery of doing the chores necessary to make the schools self sustaining Child neglect was institutionalized and the lack of supervision created situations where students were prey to sexual and physical abusers Legal action by the schools former students led to the creation of the Truth and Reconciliation Commission of Canada in 2008 The product of over six years of research the Commission's final report outlines the history and legacy of the schools and charts a pathway towards reconciliation Canada's Residential Schools The Legacy describes what Canada must do to overcome the schools tragic legacy and move towards reconciliation with the country's first peoples For over 125 years Aboriginal children suffered abuse and neglect in residential schools run by the Canadian government and by churches They were taken from their families and communities and confined in large frightening institutions where they were cut off from their culture and punished for speaking their own language Infectious diseases claimed the lives of many students and those who survived lived in harsh and alienating conditions There was little compassion and little education in most of Canada's residential schools Although Canada has formally apologized for the residential school system and has compensated its Survivors the damaging legacy of the schools continues to this day This volume examines the long shadow that the residential schools have cast over the lives of Aboriginal Canadians who are more likely to live in poverty more likely to be in ill health and die sooner more likely to have their children taken from them and more likely to be imprisoned than other Canadians The disappearance of many Indigenous languages and the erosion of cultural traditions and languages also have their roots in residential schools

The End of an Era?
Robert Mugabe and a Conflicting Legacy Munyaradzi, Mawere,Marongwe, Ngonidzashe,2018-11-17 Arguably one of the most polarising figures in modern times has been Robert Gabriel Mugabe the former President of the Republic of Zimbabwe The mere mentioning of his name raises a lot of debate and often times vicious if not irreconcilable differences both in Zimbabwe and beyond In an article titled Lessons of Zimbabwe Mahmood Mamdani succinctly captures the polarity thus It is hard to think of a figure more reviled in the West than Robert Mugabe and his land reform measures however harsh have

won him considerable popularity not just in Zimbabwe but throughout southern Africa. This together with his recent stylised ouster speaks volumes to his conflicted legacy. The divided opinion on Mugabe's legacy can broadly be represented first by those who consider him as a champion of African liberation, a Pan Africanist, an unmatched revolutionary and an avid anti-imperialist who literally spoke the truth to Western imperialists. On the other end of the spectrum are those who seemingly paying scant regard to the predicament of millions of black Zimbabweans brutally dispossessed of their land and human dignity since the Rhodesian days, have differentially characterised Mugabe as a rabid black fascist, an anti-white racist, an oppressor and a dictator. Drawing on all these opinions and characterisations, the chapters ensconced in this volume critically reflect on the personality, leadership style and contributions of Robert Mugabe during his time in office from 1980 to November 2017. The volume is timely in view of the current contested transition in Zimbabwe and with regard to the ongoing consultations on the Land Question in neighbouring South Africa. It is a handy and richly documented text for students and practitioners in political science, African studies, economics, policy studies, development studies and global studies.
