## **Tattoo Bodies Art And Exchange In The Pacific And The West Objects Histories:**

**Tattoo** Nicholas Thomas, Anna Cole, Bronwen Douglas, 2005-04-29 The popularity of tattoos today is a revival of a practice begun in the late eighteenth century when Westerners first made contact with the native peoples of the Pacific The term tattoo entered Europe with the publication of Captain Cook's voyages in the 1770s and Pacific tattoos became fashionable in the West as sailors whalers and explorers brought home tattoos from Tahiti the Marquesas New Zealand and Polynesia In recent years these early contacts have been revived as native tattooists from Oceania have begun tattooing non Polynesians in Europe the USA and elsewhere Tattoo is both a fascinating book about these early Oceanic European exchanges that also documents developments up to the present day and the first to look at the history of tattooing in Oceania itself Documenting these complex cultural interactions in the first part of the book the authors move from issues of encounter representation and exchange to the interventions of missionaries and the colonial state in local tattoo practices Highly illustrated with many previously unseen images for example the original voyage sketches of the first Russian circumnavigation of 1803-6 this is a fascinating account of early tattooing and cultural exchange in Oceania and will appeal to the wide audience interested in the history of tattooing

**Empire, Barbarism, and Civilisation** Harriet Guest, 2007-12-20 The artist William Hodges accompanied Captain Cook on his second voyage to the South Pacific in 1772-5 His extraordinarily vivid images read against the fascinating journals of Cook and his companions reveal as much about European cultures and historiography as about the peoples they visited In this lively and original book Harriet Guest discusses Hodges's dramatic landscapes and portraits alongside written accounts of the voyages and in the context of the theories of civilisation which shaped European perceptions theories drawn from the works of philosophers of the Scottish enlightenment such as Adam Smith and John Millar She argues that the voyagers resorted to diverse or incompatible models of progress in successive encounters with different groups of islanders and shows how these models also structured metropolitan views of the voyagers and of Hodges's work This fully illustrated study offers a fresh perspective on eighteenth century representations of gender colonialism and exploration

**A Return to the Object** Susanne Küchler, Timothy Carroll, 2020-11-26 This book draws on the work of anthropologist Alfred Gell to reinstate the importance of the object in art and society Rather than presenting art as a passive recipient of the artist's intention and the audience's critique the authors consider it in the social environment of its production and reception A Return to the Object introduces the historical and theoretical framework out of which an anthropology of art has emerged and examines the conditions under which it has renewed interest It also explores what art does as a social and cultural phenomenon and how it can impact alternative ways of organising and managing knowledge Making use of ethnography museological practice the intellectual history of the arts and sciences material culture studies and intangible heritage the authors present a case for the re-orientation of current conversations surrounding the anthropology of art and social theory This text will be of key interest to students and scholars in the social and historical

sciences arts and humanities and cognitive sciences      **Global Design History** Glenn Adamson, Giorgio Riello, Sarah Teasley, 2011-03-15 This book gathers together a number of leading design historians whose research points the way forward aiming to address and promote changes to design history      **Tattoo Traditions of Asia** Lars Krutak, 2024-10-31 For millennia tattoos have documented the history of humanity one painful mark at a time They form a visual language on the skin expressing an individual's desires and fears as well as cultural values family ties and spiritual beliefs on the surfaces of the body The Indigenous peoples of Asia have created some of the world's oldest and most distinctive tattoos but their many contributions to body art and practice have been largely overlooked *Tattoo Traditions of Asia* is the first single volume dedicated to the anthropological study of an ancient cultural practice and artform that spans many countries and societies ancestral lands and contemporary communities across the continent and its islands This richly illustrated survey combines the author's twenty years of fieldwork interviewing hundreds of Indigenous tattoo bearers and contemporary tattoo practitioners with painstaking research conducted in obscure archives throughout the region and elsewhere to break new ground on one of the least understood mediums of Indigenous Asian expressive culture a vital tradition to be celebrated an inspirational story told in skin and ink      *Performing the Past* Karin Tilmans, Frank van Vree, J. M. Winter, 2010 Karin Tilmans is an historian and academic coordinator of the Max Weber Programme at the European University Institute Florence Frank van Vree is an historian and professor of journalism at the University of Amsterdam Jay M Winter is the Charles J Stille Professor of History at Yale      *The Arts of Kingship* Stacy L. Kamehiro, 2009-07-27 *The Arts of Kingship* offers a sustained and detailed account of Hawaiian public art and architecture during the reign of David Kalakaua the nativist and cosmopolitan ruler of the Hawaiian Kingdom from 1874 to 1891 Stacy Kamehiro provides visual and historical analysis of Kalakaua's coronation and regalia the King Kamehameha Statue Iolani Palace and the Hawaiian National Museum drawing them together in a common historical political and cultural frame Each articulated Hawaiian national identities and navigated the turbulence of colonialism in distinctive ways and has endured as a key cultural symbol These cultural projects were part of the monarchy's concerted effort to promote a national culture in the face of colonial pressures internal political divisions and declining social conditions for Native Hawaiians which in combination posed serious threats to the survival of the nation The Kalakaua leadership endorsed images that boosted international relations and appeased foreign agitators in the kingdom while addressing indigenous political cleavages Kamehiro interprets the images spaces and institutions as articulations of the complex cultural entanglements and creative engagement with international communities that occur with prolonged colonial contact Nineteenth century Hawaiian sovereigns celebrated Native tradition history and modernity by intertwining indigenous conceptions of superior chiefly leadership with the apparatus and symbols of Asian American and European rule The resulting symbolic forms speak to cultural intersections and historical processes claims about distinctiveness and commonality and the power of objects institutions and public display to create meaning and enable action

The Arts of Kingship pursues questions regarding the nature of cultural exchange how precolonial visual culture engaged and shaped colonial contexts and how colonial art informs postcolonial visualities and identities It will be welcomed by readers with a general and scholarly interest in Hawaiian history and art As it contributes to discussions about colonial cultures nationalism and globalization this interdisciplinary work will appeal to art and architectural historians as well as those studying Pacific history cultural and museum studies and anthropology **Art Journal** ,1960 At the Margin of Empire Jennifer Ashton,2015-02-20 In telling the story of John Webster s long and colorful life for the first time this biography also explores the wider transformation of relationships between Maori and Pakeha during the 19th century In this remarkable biography Jennifer Ashton uses the life of one man as a unique lens through which to view the early history of New Zealand

**Expedition into Empire** Martin Thomas,2014-09-04 Expeditionary journeys have shaped our world but the expedition as a cultural form is rarely scrutinized This book is the first major investigation of the conventions and social practices embedded in team based exploration In probing the politics of expedition making this volume is itself a pioneering journey through the cultures of empire With contributions from established and emerging scholars Expedition into Empire plots the rise and transformation of expeditionary journeys from the eighteenth century until the present Conceived as a series of spotlights on imperial travel and colonial expansion it roves widely from the metropolitan centers to the ends of the earth This collection is both rigorous and accessible containing lively case studies from writers long immersed in exploration travel literature and the dynamics of cross cultural encounter
