blurring the borderline between the biological and social the corporeal and spiritual Examining such texts as Typee Uncle Tom's Cabin Captivity of the Oatman Girls The Morgesons Iola Leroy and Contending Forces Putzi relates the representation of the marked body to significant events beliefs or cultural shifts including tattooing and captivity romantic love the patriarchal family and abolition and slavery Her particular focus is on both men and women of color as well as white women in other words bodies that did not signify personhood in the nineteenth century and thus by their very nature were grotesque Complicating the discourse on agency power and identity these texts reveal a surprisingly complex array of representations of and responses to the marked body some that are a product of essentialist thinking about race and gender identities and some that complicate critique or even rebel against conventional thought

Slaves of Christ Robert Gadeken, 2025-05-29 No one in the first century could imagine a world without slavery Yet it was merely part of an entire social system of obligation in which no one was entirely free Responsibility was built into their world whether service to or benefit from those above them These relationships defined them Modern Christians have lost the sense of responsibility and obedience that is part of a relationship with Jesus Their obsession with freedom and independence threatens their relationship with Jesus They see slavery as the opposite of freedom but the early Christians saw slavery to Jesus as the only real freedom When Paul said Christians are slaves of Christ he said it with joy Moderns who take that phrase as a metaphor for commitment miss the point It is a definition It is a relationship that defines a person As Luther said a Christian is someone who has been purchased with the blood of Christ that I may be his own live under him and serve him When modern Christians recover the meaning of slave of Christ they too can say it with joy

The Tyrant's Writ Deborah Tarn Steiner, 2015-03-08 Covering material as diverse

as curse tablets coins tattoos and legal decrees Deborah Steiner explores the reception of writing in archaic and classical Greece She moves beyond questions concerning ancient literacy and the origins of the Greek alphabet to examine representations of writing in the myths and imaginative literature of the period Maintaining that the Greek alphabet was not seen purely as a means of transcribing and preserving the spoken word the author investigates parallels between writing and other signifiers such as omens tokens and talismans the role of inscription in religious rites including cursing oath taking and dedication and perceptions of how writing functioned both in autocracies and democracies Particularly innovative is the suggestion that fifth century Greek historians and dramatists portrayed writing as an essential tool of tyrants who not only issue written decrees but also inscribe human bodies with brands and cut up land with compasses and rules The despotic overtones associated with writing inform discussion of its function in democracies Although writing could promote equal justice ancient sources also linked this activity with historical and mythical figures who opposed the populist regime By examining this highly nuanced portrayal of writing Steiner offers a new perspective on ancient views of written law and its role in fifth century Athenian democracy Originally published in 1994 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905
