Advertising Progress Pamela Walker Laird, 2020-01-15 Selected by Choice Magazine as an Outstanding Academic Title Originally published in 1998 Drawing on both documentary and pictorial evidence Pamela Walker Laird explores the modernization of American advertising to 1920 She links its rise and transformation to changes that affected American society and business alike including the rise of professional specialization and the communications revolution that new technologies made possible Laird finds a fundamental shift in the kinds of people who created advertisements and their relationships to the firms that advertised Advertising evolved from the work of informing customers telling people what manufacturers had to sell to creating consumers persuading people that they needed to buy Through this story Laird shows how and why in the intense competitions for both markets and cultural authority the creators of advertisements laid claim to progress and used it to legitimate their places in American business and culture

The Poster Ruth E. Iskin, 2014-10-07 The Poster Art Advertising Design and Collecting 1860s 1900s is a cultural history that situates the poster at the crossroads of art design advertising and collecting Though international in scope the book focuses especially on France and England Ruth E Iskin argues that the avant garde poster and the original art print played an important role in the development of a modernist language of art in the 1890s as well as in the adaptation of art to an era of mass media She moreover contends that this new form of visual communication fundamentally redefined relations between word and image poster designers embedded words within the graphic rather than using images to illustrate a text Posters had to function as effective advertising in the hectic environment of the urban street Even though initially commissioned as advertisements they were soon coveted by collectors Iskin introduces readers to the late nineteenth century iconophile a new type of collector curator archivist who discovered in poster collecting an ephemeral archaeology of modernity Bridging the separation between the fields of art design advertising and collecting Iskin s insightful study proposes that the poster played a constitutive role in the modern culture of spectacle This stunningly illustrated book will appeal to art historians and students of visual culture as well as social and cultural history media design and advertising

A Token of My Affection Barry Shank, 2004-09-01 Each year in the United States millions of mass produced greeting cards proclaim their occasional messages For My Loving Daughter On the Occasion of Your Marriage and It s a Boy For more than 150 years greeting cards have tapped into and organized a shared language of love affection and kinship becoming an integral part of American life and culture Contemporary incarnations of these emotional transactions performed through small bits of decorated paper are often dismissed as vacuous clichés employing worn out stereotypes Nevertheless the relationship of greeting cards to systems of material production is well worth studying and understanding for the modern greeting card is the product of an industry whose values and aims seem to contradict the sentiments that most cards express In fact greeting cards articulate shifting forms of love and affiliation experienced by people whose lives have been shaped by the major economic changes of the late

nineteenth and twentieth centuries A Token of My Affection shows in fascinating detail how the evolution of the greeting card reveals the fundamental power of economic organization to enable and constrain experiences of longing status desire social connectedness and love and to structure and partially determine the most private internal and intimate of feelings Beautifully illustrated A Token of My Affection follows the development of the modern greeting card industry from the 1840s as a way of recovering that most elusive of things the emotional subjectivity of another age Barry Shank charts the evolution of the greeting card from an afterthought to a traditional printing and stationery business in the mid nineteenth century to a multibillion dollar industry a hundred years later He explains what an industry devoted to emotional sincerity means for the lives of all Americans Blending archival research in business history with a study of surviving artifacts and a literary analysis of a broad range of relevant texts and primary sources Shank demonstrates the power of business to affect love and the ability of love to find its way in the marketplace of consumer society *Moving Color* Joshua Yumibe, 2012-07-17 Color was used in film well before The Wizard of Oz Thomas Edison for example projected two colored films at his first public screening in New York City on April 23 1896 These first colors of early cinema were not photographic they were applied manually through a variety of laborious processes most commonly by the hand coloring and stenciling of prints frame by frame and the tinting and toning of films in vats of chemical dyes The results were remarkably beautiful *Moving Color* is the first book length study of the beginnings of color cinema Looking backward Joshua Yumibe traces the legacy of color history from the beginning of the nineteenth century to the cinema of the early twentieth century Looking forward he explores the implications of this genealogy on experimental and contemporary digital cinemas in which many colors have become once again vividly unhinged from photographic reality Throughout this history *Moving Color* revolves around questions pertaining to the sensuousness of color how color moves us in the cinema visually emotionally and physically The Emergence of the Middle Class Stuart M. Blumin, 1989-09-29 This book traces the emergence of the recognizable middle class from the 1760 1900 **Landscape in American Guides and View Books** Herbert Gottfried, 2013 *Landscape in American Guides and View Books* Visual History of Touring and Travel is vested in the American relationship to landscape and the role guidebooks and view books played in touring and travel experiences including immigration Early in the history of the republic the relationship to landscape turns visual that is landscapes inspire artistic responses in the form of written descriptions and visual representations The predominant element is the scene From the 1820s on scenic thinking within an emerging industrial economy characterizes a major cultural and social development As immigration increases within the country and from abroad publishers and trade groups create souvenir guidebooks and view books to facilitate the movement of people and to encourage economic expansion and tourism Guide and view book analysis centers on pictures of landscape transformations and includes the cultural basis of scenes changing from pastoral and picturesque expressions to the documentation of managed views The general acceptance of managed views as replacements for romantic ones illustrates a

commitment to landscapes that denote utility and the influence of commercial and industrial urban centers on American life. Guidebook and view book imagery composed of durable schemas promotes visual thinking across social classes and time. The primary medium for souvenirs is the photograph which printing methods like photolithography transform into printed products. The visual history of touring and travel is part of America's first visual culture as well as the social formation of landscape, the emergence of a collective vision among souvenir producers and consumers and the role visual information plays in landscape commentary which is the literary context for printed souvenirs. *German Immigrant Artists in America* Peter C. Merrill, 1997. In addition to American sources, draws from German sources not generally consulted by historians of American art. Presents biographical sketches of German and German speaking painters, graphic artists, engravers, lithographers, sculptors and some stained glass designers who arrived in North America from the colonial period to the 20th century. Watercolors by Winslow Homer Martha Tedeschi, Kristi Dahm, 2008-02-26. American painter Winslow Homer (1836-1910) created some of the most breathtaking and influential watercolors in the history of the medium. This handsome volume provides a comprehensive look at Homer's technical and artistic practice as a watercolorist and at the experiences that shaped his remarkable development. Focusing on 25 rarely seen watercolors from the Art Institute's collection along with 75 other related watercolors, gouaches, drawings and paintings including many of the artist's characteristic subjects, the book proposes a new understanding of Homer's techniques as they evolved over his career. Accessibly written essays consider each of the featured works in detail, examining the relationship between monochrome drawing and watercolor and the artist's lifelong interest in new optical and color theories. In particular, they show how his sojourn in England where he encountered leading British marine watercolorists and the dynamic avant garde art scene precipitated an abrupt change in technique and subject matter upon his return home. Conservators address the fragility of these watercolors which are prone to fading due to light exposure and demonstrate through pioneering research on Homer's pigments and computer assisted imaging how the works have changed over time. Several of Homer's greatest watercolors are digitally restored, providing an exhilarating glimpse of the original impact of Homer's groundbreaking color experiments.
