The Church On The Way:

Church on the Way Nell Becker Sweeden, 2015-07-17 The practice of Christian hospitality reaches back to the early centuries of Christian life as well as deep into Jewish history life and Scripture This practice is alive today in Christian churches and in parachurch organizations within the United States but new contextual realities in particular twenty first century global migration patterns have altered the conditions under which hospitality is practiced The reality of migration and its effect on human lives disrupts static conceptions of hospitality and challenges ecclesial communities toward contextual appropriation of hospitality practice This volume explores Christian hospitality practice in light of twenty first century U S Latino a migration and it develops the notion of a journeying hospitality of accompaniment with and among persons migrating which fosters deeper relationships and formation The shifting identities of persons on the move challenge assumptions about what it means to welcome another in hospitality and ultimately what it means to be church from within these new relationships In turn the new conceptions and expressions of hospitality offered in this book press how the nature and mission of the church will be oriented toward new ecclesial patterns and alternative forms of residing on earth The

Church on the Other Side Brian D. McLaren, 2003-01-09 Tested strategies for pastors and churches that want to be somewhere else in the postmodern world and need reliable and practical help to get there Now revised and expanded

in Section 170 (c) of the Internal Revenue Code of 1986 ,1988 *Secularism, the Church, and the Way Forward*

Richard H. Cox,Blake Barbera,2021-08-05 *Secularism the Church and the Way Forward* is a succinct yet descriptive dialogue between a nonagenarian church leader and a young pastor who are struggling with the reality of the rapidly morphing Western Protestant church At times debatable at others provocative and with insights that induce conviction the authors challenge confuse and enlighten the reader Combining proven multidisciplinary models with innovative approaches the authors inspire a deeper understanding of the complexities surrounding the church s relationship to society In so doing they point the church s leaders toward the perilous yet necessary path of rediscovering its identity **Rebuilding the Church**

on a New Foundation Gerald Robinson,2020-01-09 Vast changes are sweeping over society We relate to one another in ways unheard of a generation ago and the church too must change if it is going to continue to serve We are not the same people for whom Victorian churches were designed yet that is the way most present day churches are configured No wonder we are in trouble We need to go back to our first century roots and from there to be born anew *Rebuilding the Church on a New Foundation* responds to this need by offering guidance to a congregation that wishes to enhance the worship of the church to re focus its worship space to serve its community and to welcome the stranger Here is an exciting and engaging journey one that will give the church the potential to survive into the next century *The No-Nonsense Church* Craig

DuBois,2006-03 **Church on the Edge of Somewhere** George B. Thompson Jr.,2007-11-19 Most congregations today exist in what George Thompson calls the middle of anywhere They live comfortably with their surrounding culture focusing their energies on serving the needs of their current members These congregations have many strengths and gifts that they can exercise without changing a thing But Thompson envisions a deeper more prophetic call for congregations to explore the meaning of being in the world but not of it a church on the edge of somewhere Thompson sees a church that is deeply engaged in ministering to the community while calling on others to commit to doing the same By analyzing the interaction between a congregation s focus of identity and their stance with the world Thompson has created a helpful grid for congregations to place themselves on today s cultural map A congregation that sees itself as existing on the margins of society will look different than one that sees itself as embedded in society A congregation that hears a call to serve the surrounding community will look different from one that focuses on its internal needs Knowing where they stand now is the key for congregations to discover where they must go in the future to fully live out their call to be God s people in the world

For the Good of the Church Gabrielle Thomas, 2021-02-26 What do we need to learn and receive from the other to help us address challenges or wounds in our own tradition That is the key question asked in what has come to be known as receptive ecumenism And nowhere is this question more pressing and pertinent than in women s experiences within the church Based on qualitative research from five focus groups For the Good of the Church expose the difficulties women face when they work in a church sexism unfulfilled vocation and abuse of power and privilege as well as the wide range of gifts and skills which women bring in light of these The second part of the book continues to draw on the particular wounds and gifts which arise in the focus groups Specific case studies are used to identify gifts of theology practice experience vocation and power Against negative prognoses of an ecumenical winter Gabrielle Thomas reveals how radically different theological and ecclesiological perspectives can be a space for learning and receiving gifts for the well being of the whole Church

New Religions As Global Cultures Irving Hexham, Karla Poewe, 2018-02-12 Although the Great Anti Cult Crusade links new religious movements to dangerous cults brainwashing and the need for deprogramming Karla Poewe and

Irving Hexham argue that many cults are the product of a dynamic interaction between folk religions and the teachings of traditional world religions Drawing on examples from Africa the United States Asia and Europe they suggest that few new religions are really new Most draw on rich if localized cultural traditions that are shaped anew by the influence of technological change and international linkages With the widespread loss of belief in biblical mythology in the nineteenth century new mythologies based on science and elements derived from various non Western religious traditions emerged leading to the growth and popularity of new religions and cults The Way the Church Ought to Be Robert Allan,2002-05

The New Worship Awakening Robert E. Webber,2007 The cultural shift since 2001 is very different than that of the 60 s and 70 s It is a culture tired of noise turned off by phoniness sick of glitz and wary of the superficial It is a culture that is searching for an authentic encounter with God longing for depth and substance craving quiet and spiritual contemplation and moved by visual tactile forms of communication The New Worship Awakening examines the wide array of worship styles from traditional to contemporary currently in practice in today s churches Webber makes a compelling case for renewing the vigor of the spiritual life of the church through two means grounding worship in the biblical narrative while at the same time integrating an understanding of worship traditions throughout history Through astute observations and personal experiences the author emphasizes that Christ can be encountered through the arts the services of the Christian year the Sacraments the singing of hymns and folk songs the passing of the peace the Liturgy and many other means that incorporate Christian worship styles through the ages He makes the all important point that worship today celebrates the same Christ who walked the earth two thousand years ago and that in true and lively worship there is divine action There is an action from above the Holy Spirit delivers Christ and the benefits of Christ s death and resurrection to the worshippers **Publication** ,1992
