The City Of Hermits:

The City of Hermits Gina Covina, 1983 *The Hermits* Charles Kingsley, 1880 *The Hermit's Hut* Kazi K. Ashraf, 2013-10-31

The Hermit's Hut offers an original insight into the profound relationship between architecture and asceticism. Although architecture continually responds to ascetic compulsions as in its frequent encounter with the question of excess and less it is typically considered separate from asceticism. In contrast this innovative book explores the rich and mutual ways in which asceticism and architecture are played out in each other's practices. The question of asceticism is also considered as neither a religious discourse nor a specific cultural tradition but as a perennial issue in the practice of culture. The work convincingly traces the influences from early Indian asceticism to Zen Buddhism to the Japanese teahouse the latter opening the door to modern minimalism. As the book's title suggests the protagonist of the narrative is the nondescript hermit's hut. Relying primarily on Buddhist materials the author provides a complex narrative that stems from this simple structure showing how the significance of the hut resonates widely and how the question of dwelling is central to ascetic imagination. In exploring the conjunctions of architecture and asceticism he breaks new ground by presenting ascetic practice as fundamentally an architectural project namely the fabrication of a last hut. Through the conception of the last hut he looks at the ascetic challenge of arriving at the edge of civilization and its echoes in the architectural quest for minimalism. The most vivid example comes from a well known Buddhist text where the Buddha describes the ultimate ascetic moment or nirvana in cataclysmic terms using architectural metaphors. The roof rafters will be shattered the Buddha declares and the architect will no longer build the house again. As the book compellingly shows the physiological and spiritual transformation of the body is deeply intertwined with the art of building. *The Hermit's Hut* weaves together the fields of architecture anthropology religion and philosophy to offer multidisciplinary and historical insights. Written in an engaging and accessible manner it will appeal to readers with diverse interests and in a variety of disciplines whether one is interested in the history of ascetic architecture in India the concept of home in ancient India or the theme of the body as building.

The City and The River Arun Joshi, 2018-11-12

The City and The River is a political fable. Using an artistically satisfying combination of fantasy prophecy and a startlingly real vision of everyday politics this novel is truly a parable of the times. The City is all cities. The River is the mother of cities. The Grand Master rules the city by the river and is determined to become its unchallenged King. Things move smoothly in this earthly Eden till a strange prophecy is made by the palace astrologer. The learned man predicts the crowning of a new King in place of the Grand Master. With quiet humour and characteristic skill Joshi plots the path of intrigue and corruption in high places. The Grandmaster is surrounded by a coterie of fawning councillors whose sole aim is to remain in limelight and improve their hierarchical standing. The politics in the novel has unmistakable echoes of the Emergency period of 1974-75 acquisition of unlimited powers presence of self seeking sycophants shadow of an heir apparent and loss of individual freedom pose significant questions about identity commitment and faith in a hostile society.
