

The background of the book cover is a dark, atmospheric illustration. It features a landscape with rolling hills and a body of water in the foreground. A large, dark, jagged shape, possibly a rock or a piece of driftwood, is visible in the lower left corner. The sky is a mix of dark green and black, with some lighter, yellowish-green areas. The overall mood is mysterious and dark.

Altmann,Gail de Vos,2001-10-15 Altmann and de Vos are back with more great ideas for exploring contemporary reworkings of classic folk and fairy tales that appeal to teen readers If you loved *New Tales for Old Libraries Unlimited* 1999 this new work will be sure to please Following the same format each story includes tale type numbers motifs and lists of reworkings arranged by genre and suggestions for classroom extensions *INSIDE Beauty and the Beast Jack and the Beanstalk Tam Lin Thomas the Rhymer and five fairy tales* by Hans Christian Andersen A History of Moonville, Ohio and a Collection of Its Haunting Tales William M. Cullen,2013-09-25 *A History of Moonville Ohio and a Collection of its Haunting Tales Revised Edition* is an updated version of a previous work the author had published back in 2008 This revised edition contains more detailed history about Moonville and its surrounding towns such as Zaleski on how they came to be most notably that Moonville was named by the railroad after a general store proprietor rather than the man who had actually founded the town and that Zaleski was named after a Polish French financier who never came to America to see his namesake town This revised edition also contains more haunting tales of what had happened to some of those who had lived and worked in this remote mining town in eastern Vinton County Ohio mainly covering those who had been involved in train accidents surrounding the still standing tunnel as these trains came barreling through the area plus there are a few tales of murder as well There are also a few light hearted tales most notably that of a well known English author who had passed through Moonville on his way to tour America back in the late 1860s as well as a story about some feisty sisters in Athens who took on the expanding railroad There are human interest elements in all of this most notably to me is the story of the Dexters who had been enslaved in Virginia escaping in the 1860s having made their way to Moonville in order to live out their lives in freedom This book is about preserving the history of a mining town that began back in the 1850s thriving for nearly fifty years before it began its long slide into history though not completely forgotten for it had been once a vital part of Ohios history especially in the days leading up to the American Civil War and that is why I wrote and revised this work for Moonvilles history is a part of Ohios history **Science Fiction and Fantasy Literature, Vol 1** R. Index Awards Index and the Ace and Belmont Doubles Index *Romantic Sustainability* Ben P. Robertson, 2015-12-24

Romantic Sustainability is a collection of sixteen essays that examine the British Romantic era in ecocritical terms. Written by scholars from five continents, this international collection addresses the works of traditional Romantic writers such as John Keats, Percy Shelley, William Wordsworth, Lord Byron, and Samuel Coleridge, but also delves into ecocritical topics related to authors added to the canon more recently such as Elizabeth Inchbald and John Clare. The essays examine geological formations, clouds, and landscapes as well as the posthuman and the monstrous. The essays are grouped into rough categories that start with inspiration and the imagination, before moving to the varied types of consumption associated with human interaction with the natural world. Subsequent essays in the volume focus on environmental destruction, monstrous creations, and apocalypse. The common theme is sustainability, as each contributor examines Romantic ideas that intersect with ecocriticism and relates literary works to questions about race, gender, religion, and identity.
