Isidore Singer, Cyrus Adler

The Coffin:

Small Sacrifices Anne Schiller, 1997-05-22 This is an ethnographic study of the Ngaju Dyaks rain forest dwellers of the remote interior region of Central Kalimantan Indonesian Borneo Like many indigenous peoples the Ngaju have lately been affected by exposure to world religions technological advances and myriad external factors involving their growing incorporation into the rapidly expanding state system Schiller demonstrates that their responses to these pressures are most clearly seen in the religious sphere and involve the recasting and reinterpreting of their indigenous religion She focuses particularly on the changing form and content of tiwah an elaborate ritual of secondary burial with multiple and diverse meanings for Hindu Kaharingan Ngaju as well as for those who have converted to Islam or Christianity

The Jewish Encyclopedia Isidore Singer, Cyrus Adler, 1901 *Grammar from the Human Perspective* Marja-Liisa Helasvuo, Lyle Campbell, 2006-10-19 The papers of this volume investigate how grammar codes the subjective viewpoint of human language users that is how grammar reflects human conceptualization Some of the articles deal with spatial relations and locations They discuss how basic attributes of human conceptualization are encoded in the grammatical expression of spatial relations Other articles concern embodiment in language showing how conceptualization is mediated by one's embodied experience of the world and ourselves Finally some of the articles discuss coding of person focusing on the subjectivity of conceptualization and how it is reflected in grammar The articles show that conceptualization reflects the speaker's construal of the situation and furthermore that it is intersubjective because it reflects the speaker's understanding of the relations between the speech act participants The papers deal with Finnish utilizing the rich resources of Finnish grammar to contribute to issues in contemporary linguistics and in particular to Cognitive Grammar

The Price of Death Hikaru Suzuki, 2002-02-01 Funerary practices have long been a classic topic of anthropological inquiry which has tended to focus on death rituals as expressions and reinforcers of community ties and values In this book the author looks at funerals as an urban business based on her fieldwork at a large Japanese funeral company Her central theme is the progressive commercialization of what once were primarily religious rituals The book depicts the process of contemporary Japanese funerals the practices of those who provide commercial funeral services and the motivations and behavior of the mourners who purchase those services In so doing it examines the role of funeral companies in shaping Japanese cultural practices and changing an important aspect of Japanese society The author addresses several related questions What cultural changes accompanied the shift from traditional community funeral rituals to commercial funeral services How did the mass consumption of commercial funerals produce cultural homogeneity while allowing for differences in individual services How does the marketing of professional funeral services mediate changing cultural values How have commercial services served to objectify changing concepts of dying death and the deceased in contemporary Japan The author demonstrates that the funeral industry the purchasers of funeral services and Japanese values surrounding death are mutually dependent and are

responsible for supporting representing and transforming cultural practices Throughout the author relates vivid and often moving details and anecdotes to lend a personal element to her study of the commodification of death in Japan **The Lost Generations** Christopher Chima,Ph.D,2004-03-23 The Lost Generations is a fictional tale of life in America as experienced by a foreigner Through the eyes of the main character who is caught between the complexities of his dual culture as he travels back and forth between his home in America and his homeland this powerful novel explores the important global issues of our time The Lost Generations is a novel that enlightens readers about what happens on a daily basis and what life is like in the other parts of the world outside America It takes the reader on a journey through the vicious cycle that occurs everyday in the less developed countries It tells a complete story and allows the audience to become a part of the act and this is what makes the novel powerful The narrative voice is mainly third person omniscient and does not remain that way throughout the novel It is a new and different voice *The Social Organization of Exile* Margaret E. Kenna,2013-12-19 Illustrated with prints from a unique archive of glass and celluloid negatives from the Aegean island of Anafi this book deals with the life of people who were sent into internal exile under the Metaxas dictatorship 1936 1942 Like others before and after this regime used imprisonment internal deportation and exile as a means of containing and isolating a wide variety of people who were thought to be public dangers Drawing on published and unpublished memoirs and on firsthand accounts of former exiles it gives a vivid picture of a by no means unified collection of people facing a common set of problems on an island at the borders of the Greek State During the Occupation the Anafi exiles faced privation hunger and finally the dissolution of the commune This is a human drama which will interest a wide range of readers **Death Rituals among the Karanga of Zimbabwe** John Chitakure,2021-10-04 One of the inescapable truths that humanity has to grapple with is the reality of death The manner in which we die or the cause of our death may differ but death remains inevitable We may be afraid of it or not we may try to evade it or not but death still comes Although most religions promise the possibility of another life in the hereafter there is no scientifically verifiable evidence about the reality of that life Despite that lack of evidence every culture performs death rituals meticulously to prepare the spirits of its deceased for whatever form of life that may be available *Death Rituals among the Karanga of Zimbabwe Praxis Significance and Changes* explores the causes of sickness and death and the praxis of pre burial burial and post burial rituals of the Karanga of Zimbabwe in an attempt to unearth their original form and significance to identify the changes that have taken place It also provides a brief manual for the performance of some selected Karanga death rituals *Diseases of the Horse Part 1* ,1984-12-31 *The View from the Masthead* Hester Blum,2008 With long solitary periods at sea far from literary and cultural centers sailors comprise a remarkable population of readers and writers Although their contributions have been little recognized in literary history seamen were important figures in the **The Papyrus of Ani** Sir Ernest Alfred Wallis Budge,1913
