By reflecting on the cultural landscapes of British Asian women the book reveals social historical narratives about migration citizenship and belonging New spaces of memory are presented as mobile and as politically charged with meaning as the more formal spaces of memorialization The book offers a refiguring of race memory as being critical to English heritage and postcolonial politics and makes an important contribution to the writings on memory race and landscape **Latin American Peasants** Tom Brass, 2004-08-02 The essays in this collection examine agrarian transformation in Latin America and the role in this of peasants with particular reference to Bolivia Peru Chile Brazil and Central America Among the issues covered are the impact of globalization and neo liberal economic policies
