The Cobbers Companion How To Build Your Own Earthen Home

Michael G. Smith, Ianto Evans

The Cobbers Companion How To Build Your Own Earthen Home:

The Cobber's Companion Michael Smith, 1998 You can build your own earthen home with your own hands and feet with materials that are available almost everywhere for cheap or for free without power tools or previous building experience Earth is one of the oldest building materials on the planet and still the most common Thousands of picturesque cob homes in England Ireland and Wales have withstood centuries of rain snow and gales and remain comfortable and joyously inhabited today Currently cob is enjoying a revival of interest both in Britain and in North America This book tells you how to build with cob a traditional mixture of earth sand and straw select building materials and determine the best mixture for a given soil sculpt a personalized house with built in seats counters shelves and niches evaluate natural alternatives for roofs floors plasters and insulation reduce your dependency on money and environmentally harmful practices avoid the costly mistakes made by many novice builders Michael G Smith was a founding director of the Cob Cottage Company for four years and has taught over 30 week long workshops on cob and other natural building techniques He is a founder and organizer of the Natural Building Colloquium

The Cobber's Companion Michael G. Smith, Ianto Evans, 2001-01-01 **The Real Goods Solar Living Sourcebook** John Schaeffer, 1999 Covers power conservation and gear Gaiam Real Goods Solar Living Sourcebook John Schaeffer, Doug Pratt, 2001 Covers power conservation and gear *The Hand-Sculpted House* Ianto Evans, Michael G. Smith, Linda Smiley, 2002-07-03 The Hand Sculpted House inspired me to learn and do more and transformed how I saw homes and building in general Mother Earth News If you follow it word for word you will build yourself a house no matter who you are Builder Paul Dillon quoted in The Irish Times Are you ready for the Cob Cottage This is a building method so old and so simple that it has been all but forgotten in the rush to synthetics A cob cottage however might be the ultimate expression of ecological design a structure so attuned to its surroundings that its creators refer to it as an ecstatic house The authors build a house the way others create a natural garden They use the oldest most available materials imaginable earth clay sand straw and water and blend them to redefine the future and past of building Cob the word comes from an Old English root meaning lump is a mixture of non toxic recyclable and often free materials Building with cob requires no forms no cement and no machinery of any kind Builders actually sculpt their structures by hand Building with earth is nothing new to America the oldest structures on the continent were built with adobe bricks Adobe however has been geographically limited to the Southwest The limits of cob are defined only by the builder's imagination Cob offers answers regarding our role in Nature family and society about why we feel the ways that we do about what's missing in our lives Cob comes as a revelation a key to a saner world Cob has been a traditional building process for millennia in Europe even in rainy and windy climates like the British Isles where many cob buildings still serve as family homes after hundreds of years Cob houses or cottages since they are always efficiently small by American construction standards are not only compatible with their surroundings they ARE their surroundings literally rising up from the earth They are full of light

energy efficient and cozy with curved walls and built in whimsical touches They are delightful They are ecstatic
