The Coins Of The Aegean

Warwick William Wroth

The Coins Of The Aegean:

Greek Coins Ian Carradice,1995 Of the many traditions we have inherited from the ancient Greeks the use of coins should rank as one of the most important From its first appearance in the region of Lydia western Turkey in the late 17th century BC coinage gradually spread throughout the Greek world and the history of the ancient Greeks is reflected in its evolution Designs on Greek coins include the badges of city states portraits of rulers images of Greek gods scenes from myths and objects of daily life and are often works of art in themselves The dies carved by craftsmen sometimes bear the name or initials of the mint official responsible for their issue and the coins might have circulated in trade been used as gifts or dedications or hoarded as valuables

Coinage in the Greek World Ian Carradice,Martin Price,1988 The development and use of coinage in the Greek world is surveyed in this book from its introduction in the 7th century BC to the late Hellenistic period Coins can illuminate many facets of history and here the focus is on the reasons why they were circulated and how they were used As a result there is a wealth of information that has been gathered in one place for the first time An opening chapter introduces the study of Greek coins outlining the development of modern methods of research This is followed by chapters discussing the invention of coinage and its spread to all parts of the Greek world Coinage production and design and the role of coins in the life of people are then discussed followed by chapters on the Classical period Alexander the Great and the late Hellenistic world As well as being a succinct and readable account for students and collectors of coins all those interested in the ancient world should find this a fresh and stimulating source of information

The Gattilusio Lordships and the Aegean World 1355-1462 Christopher Wright,2014-01-09 In *The Gattilusio Lordships and the Aegean World 1355-1462* Christopher Wright offers a window into the culturally and politically diverse late medieval Aegean The overlapping influences of the contrasting networks of power at work in the region are explored through the history of one of many small and distinctive political units that flourished in this

fragmented environment the lordships of the Gattilusio family centred on Lesbos Though Genoese in origin they owed their position to Byzantine authority Though active in crusading they cultivated congenial relations with the Ottomans Though Catholic they afforded exceptional freedom to the Orthodox Church Their regime is shown to represent both a unique fusion of influences and a revealing microcosm of its times
