The Cold War Comes To Main Street America In 1950:

The Cold War Comes to Main Street Lisle A. Rose, 1999-02-01 In 1950 Main Street America restored by victories in a global war and hopeful for a prosperous and peaceful future was abruptly traumatized The sudden prospect of thermonuclear war with the Soviet Union Senator Joseph McCarthy's vicious anticommunist crusade and the beginning of the Korean War all combined to dampen the public mood In the wake of these events the Cold War invaded every home and convinced millions of Americans that the liberal establishment created by Franklin Roosevelt and sustained by Harry Truman had betrayed the public trust and placed the nation in mortal peril Revealing the intense interplay between foreign policy domestic politics and public opinion Lisle Rose argues that 1950 was a pivotal year for the nation Thermonuclear terror brought a clutching fear of mass death to the forefront of public awareness even as McCarthy's zealous campaign to root out subversives destroyed a sense of national community forged in the Great Depression and World War II The Korean War with its dramatic oscillations between victory and defeat put the finishing touches on the national mood of crisis and hysteria Drawing upon recently available Russian and Chinese sources Rose sheds much new light on the aggressive designs of Stalin Mao and North Korea's Kim Il Sung in East Asia and places the American reaction to the North Korean invasion in a new and more realistic context Rose argues that the convergence of Korea McCarthy and the Bomb wounded the nation in ways from which we've never fully recovered He suggests in fact that the convergence may have paved the way for our involvement in Vietnam and by eroding public trust in and support for government launched the ultra Right's campaign to dismantle the foundations of modern American liberalism Engagingly written *The Cold War Comes to Main Street* is a sophisticated synthesis that cuts to the core of a half century of postwar national paranoia It calls into question the assumptions of several generations of scholars about foreign affairs and domestic policies and will force readers to reconsider their assumptions about just when and how the nation lost its sense of community confidence and civility *America in the 1950s* Edmund Lindop, 2009-09-01 Outlines the important social political economic cultural and technological events that happened in the United States from 1950 to 1959

The American Press and the Cold War Oliver Elliott, 2018-04-20 During the Cold War the United States enabled the rise of President Syngman Rhee's repressive government in South Korea and yet neither the American occupation nor Rhee's growing authoritarianism ever became particularly controversial news stories in the United States Could the press have done more to scrutinize American actions in Korea Did journalists fail to act as an adequate check on American power In the first archive based account of how American journalism responded to one of the most significant stories in the history of American foreign relations Oliver Elliott shows how a group of foreign correspondents battling U S military authorities and pro Rhee lobbyists brought the issue of South Korean authoritarianism into the American political mainstream on the eve of the Korean War However when war came in June 1950 the press rapidly abandoned its scrutiny of South Korean democracy marking a crucial moment of transition from the era of postwar idealism

McCarthyism in the Suburbs Allison Hepler,2018-06-12 In 1953 Mary Knowles was fired as a branch librarian for the Morrill Memorial Library a public library in Norwood Massachusetts She had been called before the Senate Internal Security Subcommittee and when asked if she d ever been a member of the Communist Party she declined to answer relying on her Fifth Amendment rights She was fired less than three weeks later Knowles thought she was unlikely to find a position as a librarian again and left the area She found a job at a small library outside Philadelphia where anticommunists who learned of her past tried to create public support for a Loyalty Oath resulting in the loss of public funding for the library The resulting controversy eventually brought national attention to the local Quakers who had hired Knowles the FBI was asked to investigate Knowles was convicted of contempt of Congress and the Quakers were subpoenaed and testified before the House Un American Activities Committee Knowles however was never fired from this position retiring from the library in 1979 This book illustrates the impact of McCarthyism on small towns and ordinary people and local officials some of whom abided by the standards of the era There were others however who challenged the status quo Their actions provide readers with models of behavior often at odds with what has been thought of as the 1950s People who spoke up risked families and jobs At the same time anticommunists also tapped into citizens fears of the cold war not just of Communists but of a broad swath of people who promoted social justice and equality The resulting interactions as described in this book offer important lessons on how fear and bravery operate local communities against the backdrop of and involvement with national events The Missile Next Door Gretchen Heefner,2012-09-10 In the 1960s the Air Force buried 1 000 ICBMs in pastures across the Great Plains to keep U S nuclear strategy out of view As rural civilians of all political stripes found themselves living in the Soviet crosshairs a proud Plains individualism gave way to an economic dependence on the military industrial complex that still persists today A People's History of the U.S. Military Michael A. Bellesiles,2012 Draws from more than two centuries of soldiers personal encounters with combat through excerpts from letters diaries memoirs audio recordings film and blogs to capture the essence of the American military experience firsthand
