Preobrazensky ,2021-04-08 The ABC of Communism is a book written by Nikolai Bukharin and Evgenii Preobrazhensky in

1919 during the Russian Civil War Originally written to convince the proletariat of Russia to support the Bolsheviks it became

an elementary textbook of communist knowledge It became the best known and most widely circulated of all pre Stalinist

expositions of Bolshevism and the most widely read political work in Soviet Russia Long out of print and often only being

available with the abridged first few chapters this version includes completed new transcriptions of the last eight chapters

along with the Programme of the Communist Party of Russia a glossary and a new word index The ABC of Communism is

written to be a systematic description of communism and the proletarian condition under capitalism away from the reality of

Soviet life into a redirection towards a militant optimism on the horizon This book in the Radical Reprint series from Pattern

The Labour Party and the world, volume 1

Rhiannon Vickers,2013-07-19 This electronic

version has been made available under a Creative Commons BY NC ND open access license This is the first comprehensive

study of the political ideology and history of the Labour Party s world view and foreign policy It argues that the development

of Labour s foreign policy perspective should be seen not as the development of a socialist foreign policy but as an

application of the ideas of liberal internationalism The first volume outlines and assesses the early development and evolution

of Labour s world view It then follows the course of the Labour party s foreign policy during a tumultuous period on the

international stage including the First World War the Russian Revolution the Spanish Civil War the build up to and violent

reality of the Second World War and the start of the Cold War This highly readable book provides an excellent analysis of

Labour s foreign policy during the period in which Labour experienced power for the first time
