The Kinneavy Papers Theory And The Study Of Discourse:

The Kinneavy Papers Lynn Worsham, Sidney I. Dobrin, Gary A. Olson, 2000-04-20 Documenting an era of dramatic change and growth in the sophistication of scholarship in rhetoric and composition studies this book includes essays which find in contemporary theory the language to ask new questions to reframe existing problems and to move beyond current impasses in thought and action The different perspectives offer a stand against current backlash theory as seen in the reassertion of expressivism and creative writing as the antidote to the difficulties wrought by too much theorizing All the essays included are winners of the James L Kinneavy Award and celebrate the award's tenth anniversary as well as its founder one of the discipline's most learned and beloved scholars Contributors include David Bleich Richard M Coe William A Covino Reed Way Dasenbrock Sidney I Dobrin Lester Faigley Pamela K Gilbert Susan C Jarratt Bruce McComiskey Michael Murphy Richard E Miller Jasper Neel Gary A Olson Joseph Petraglia George L Pullman Joy S Ritchie Phillip Sipiora David W Smit Patricia A Sullivan John Trimbur Nancy Welch and Lynn Worsham

Rhetoric and Composition As Intellectual Work Gary A. Olson, 2002 In response to those who insist that rhetoric and composition should remain only a service discipline editor Gary A Olson's *Rhetoric and Composition as Intellectual Work* demonstrates that it already is an intellectual discipline that for at least a quarter of a century the field has developed an impressive tradition of intellectual work in a remarkable assortment of subject areas *Rhetoric and Composition as Intellectual Work* suggests the diversity of intellectual projects that have and will continue to make rhetoric and composition more than a service to the university more than a field devoted solely to improving writing pedagogy and more than a preliminary to literary studies This collection of nineteen essays by some of the most distinguished scholars in the discipline illustrates that rhetoric and composition has much to contribute to the intellectual milieu of the contemporary university as the field continues to push its disciplinary borders and discover new sites of investigation Publisher's description

Ecocomposition Christian R. Weisser, Sidney I. Dobrin, 2012-02-01 *Ecocomposition* examines current trends in universities toward more environmentally sound work explores the intersections between composition research that is discourse studies and ecostudies and offers possible pedagogies for the composition classroom Never before have the intersections between ecotheory and composition studies in theory and pedagogy been addressed in this much depth or detail As universities become increasingly concerned with issues of the environment within academic disciplines across the spectrum this book brings together a diverse group of prominent voices to discuss the development of ecocomposition and its possibilities and to argue for a greening of composition studies through which to engage the world in which we live

Spectacular Rhetorics Wendy Hesford, 2011-08-05 Scrutinizes spectacular rhetoric the use of visual images and imagery to construct certain bodies populations and nations as victims and incorporate them into human rights discourses geared toward Westerners

Ethnography Unbound Stephen Gilbert Brown, Sidney I. Dobrin, 2012-02-01 These provocative new essays redefine the goals methods and assumptions of qualitative and

ethnographic research in composition studies making evident not only the crucial importance of ethnographic research but also its resilience As *Ethnography Unbound* makes evident critical ethnographers are retheorizing their methodologies in ways that both redefine ethnographic practices and values and at the same time have begun to liberate ethnographic practices from the often disabling stronghold of postmodern critique Showing how ethnography works through dialogic processes and moves toward political ends this collection opens the doors to rethinking ethnographic research in composition studies

Being at Genetic Risk Kelly Pender, 2020-04-27 Rhetorics of choice have dominated the biosocial discourses surrounding BRCA risk for decades telling women at genetic risk for breast and ovarian cancers that they are free to choose how and whether to deal with their risk Critics argue that women at genetic risk are in fact not free to choose but rather are forced to make particular choices In *Being at Genetic Risk* Kelly Pender argues for a change in the conversation around genetic risk that focuses less on choice and more on care *Being at Genetic Risk* offers a new set of conceptual starting points for understanding what is at stake with a BRCA diagnosis and what the focus on choice obstructs from view Through a praxiographic reading of the medical practices associated with BRCA risk Pender's analysis shows that genetic risk is not just something BRCA women know but also something that they do It is through this doing that genetic cancer risk becomes a reality in their lives one that we can explain but not one that we can explain away Well researched and thoughtfully argued *Being at Genetic Risk* will be welcomed by scholars of rhetoric and communication particularly those who work in the rhetoric of science technology and medicine as well as scholars in allied fields who study the social ethical and political implications of genetic medicine Pender's insight will also be of interest to organizations that advocate for those at genetic risk of breast and ovarian cancers

Rhetoric and Composition Steven Lynn, 2010-09-30 Rhetoric and composition is an academic discipline that informs all other fields in teaching students how to communicate their ideas and construct their arguments It has grown dramatically to become a cornerstone of many undergraduate courses and curricula and it is a particularly dynamic field for scholarly research This book offers an accessible introduction to teaching and studying rhetoric and composition By combining the history of rhetoric explorations of its underlying theories and a survey of current research with practical examples and advice Steven Lynn offers a solid foundation for further study in the field Readers will find useful information on how students have been taught to invent and organize materials to express themselves correctly and effectively and how the ancient study of memory and delivery illuminates discourse and pedagogy today This concise book thus provides a starting point for learning about the discipline that engages writing thinking and argument
