Concilium, Vol. 193. The Church and Christian democracy, 1987 The Church in Quebec Gregory Baum, 1991
Introduces English speaking Canadians to the history and role of the Church in Quebec society Quebec culture and religion are not well known among anglophones In the aftermath of Meech Lake however many Canadians are beginning to wonder what makes Church and society in Quebec tick Were Quebecers an oppressed people Is nationalism good or bad Why should the Qu b cois speak English What s wrong with the dominant theology Where have all the Catholics gone Is the Church still relevant in Quebec How has the Church responded to the Quiet Revolution These and other difficult questions are tackled head on in a series of penetrating articles In the Name of Civil Society Eva-Lotta Hedman, 2005-11-30 In the Name of Civil Society examines Philippine politics in a highly original and provocative way Hedman s detailed analysis shows how dominant elites in the Philippines shore up the structures of liberal democracy in order to ensure their continued hegemony over Philippine society This book will be of interest to everyone concerned with civil society and the processes of democratization and democracy in capitalist societies Paul D Hutchcroft University of Wisconsin Madison What is the politics of civil society Focusing on the Philippines home to the mother of all election watch movements the original People Power revolt and one of the largest and most diverse NGO populations in the world Eva Lotta Hedman offers a critique that goes against the grain of much other current scholarship Her highly original work challenges celebratory and universalist accounts that tend to reify civil society as a unified and coherent entity and to ascribe a single meaning and automatic trajectory to its role in democratization She shows how mobilization in the name of civil society is contingent on the intercession of citizens and performative displays of citizenship as opposed to other appeals and articulations of identity such as class In short Hedman argues the very definitions of civil and society are at stake Based on extensive research spanning the course of a decade 1991 2001 this study offers a powerful analysis of Philippine politics and society inspired by the writings of Antonio Gramsci It draws on a rich collection of sources from archives interviews newspapers and participant observation It identifies a cycle of recurring crises of authority involving mounting threats from above and below to oligarchical democracy in the Philippines Tracing the trajectory of Gramscian dominant bloc of social forces Hedman shows how each such crisis in the Philippines promotes a countermobilization by the intellectuals of the dominant bloc the capitalist class the Catholic Church and the U S government In documenting the capacity of so called secondary associations business lay professional to project moral and intellectual leadership in each of these crises this study sheds new light on the forces and dynamics of change and continuity in Philippine politics and society The Church and Christian Democracy Gregory Baum, John Aloysius Coleman, Marcus Lefébure, 1987 **Christianity and Democracy** Felix Wilfred, Luiz Carlos Susin, 2007

Kalyvas,2018-09-05 Although dominant in West European politics for more than a century Christian Democratic parties remain largely unexplored and little understood An investigation of how political identities and parties form this book considers the origins of Christian Democratic confessional parties within the political context of Western Europe Examining five countries where a successful confessional party emerged Belgium the Netherlands Austria Germany and Italy and one where it did not France Stathis N Kalyvas addresses perplexing questions raised by the Christian Democratic phenomenon How can we reconcile the religious roots of these parties with their tremendous success and resilience in secular and democratic Western Europe Why have these parties discarded their initial principles and objectives to become secular forces governing secular societies The author s answers reveal the way in which social and political actors make decisions based on self interest under conditions that constrain their choices and the information they rely on often with unintended but irrevocable consequences Kalyvas also lays a foundation for a theory of the Christian Democratic phenomenon which would specify the conditions under which confessional parties succeed and would determine the impact of such parties and the way they are formed on politics and society Drawing from political science sociology and history his analysis goes beyond Christian Democracy to address issues related to the methodology of political science the theory of party formation the political development of Europe the relationship between religion and politics the construction of collective political identities and the role of agency and contingency in politics **Laity and Participation** Thomas Hoebel,2006 Right across denominational boundaries lay theology is dominated by negatives the laity simply defined as the non ordained the alleged exclusion of the laity from full participation the sole focus on what they cannot or should not do and above all the total absence of an ecumenical lay theology In a unique approach this volume sets out to find ways of overcoming these negatives so predominant in current lay theology The author explores positions and perspectives put forward in Roman Catholic theology from Vatican II up to the present These are compared and contrasted with concepts and suggestions of present day Anglican Theology as well as with those of liberative theologies in Latin America and Asia Rethinking the content language and metaphors of lay theology in the final part of this volume the author proposes a new image for discussing the Church a model focusing on the interdependence and collaboration of all the people in the Church This is then used to sketch out the framework for a new type of lay theology Imbedded in ecclesiology in the concept of all believers together being the Church the author endeavours to suggest a lay theology that is indeed positive ecumenical and universal *193 Concilium Church Political Parties Con* Baum G Staff,Gregory Baum,1987-10-01 John Paul s visit to the synagogue Gregory Baum The Church and Christian democracy Gregory Baum John Coleman The origins of Christian democratic parties in Germany Italy and France after 1943 45 Karl Egon Lo nne Political organisation of Christians in Latin
