Ben Campbell Johnson,1991-01-01 Many mainline churches today have members both laity and clergy who find it a problem to speak face to face about God This creative book offers a theological foundation practical suggestions and a positive model for sharing faith Ben Campbell Johnson combines evangelism and spiritual guidance in order to provide a fresh image and a new style of faith sharing He gives a model of spiritual direction that offers a positive attractive way of doing face to face evangelical work **The Church as the Family of God and the Care for Creation** Khisi, Maximian,2019-02-19 Of late there has grown in African Catholicism the concept of Church as the Family of God Familia Dei which has enhanced greater social cohesion among the members of the Church and strengthened interpersonal relationships among them This book is an endeavour to offer a path towards the solution of the problem of environmental crisis through the theological discipline of ecclesiology Using the Catholic Archdiocese of Lilongwe s understanding of Church as the Family of God the book concludes that the application of the concept of Church as family of God while bringing great social cohesion among the people failed to extend to human relationships with the natural world in fact It has broadened the human feeling of superiority over the natural environment The book provides an ecclesiological complementarity which promotes a universal fraternity among people and the natural world and recommends an ecclesiological concept of Church as New Creation Nova creatio This would serve as a call for human beings to make a new ecological conversion leading new lifestyles change in their models of nature worldviews and change in the models of production and consumption The Oxford Handbook of Ecclesiology Paul Avis,2018-06-21 The Oxford Handbook of Ecclesiology is a unique scholarly resource for the study of the Christian Church as we find it in the Bible in history and today As the scholarly study of how we understand the Christian Church s identity and mission ecclesiology is at the centre of today s theological research reflection and debate Ecclesiology is the theological driver of the ecumenical movement The main focus of the intense ecumenical engagement and dialogue of the past half century has been ecclesiological and this is the area where the most intractable differences remain to be tackled Ecclesiology investigates the Church s manifold self understanding in relation to a number of areas the origins structures authority doctrine ministry sacraments unity diversity and mission of the Church including its relation to the state and to society and culture The sources of ecclesiological reflection are the Bible interpreted in the light of scholarly research Church history and the wealth of the Christian theological tradition together with the information and insights that emerge from other relevant academic disciplines This Handbook considers the biblical resources historical development and contemporary initiatives in ecclesiology It offers invaluable and comprehensive guide to understanding the Church **Expository**

**Hermeneutics** Elliott Johnson, 2023-10-30 Expository Hermeneutics invites the student on a journey to a life and ministry based on exposition of the Bible Hermeneutics provides a guide to understand the message and apply that message in its original setting and then in a comparative way in the contemporary day We adopt the Scriptures view of itself as God's word As a result we believe the Bible has a truth value as reflected in the canon of Scripture The goal of hermeneutics defines verbal meaning as the author's willed type message read as a whole book so that the message is communicated with a truth content to be understood The method of hermeneutics is both read in a circular pattern and practiced as an objective task It is objective in the sense that God authors a transhistorical message and the reader is aware of their own presuppositions and adopts those of Scripture As such the message can be validated in its truth content However this does not prove it true even though it provides an evidential conviction that the truth value has been understood

**The God Who Is with Us** Benjamin H. Kim, 2022-10-21 Contemporary theologies of mission rely on the central concept of the *missio Dei* which states that mission properly belongs to the triune God over the church However present accounts fail to establish any corresponding link between God's trinitarian economy and ontology In other words the problem of the *missio Dei* is the problem of the break between the act and being of God Benjamin H Kim argues that a repair is needed for *missio Dei* theology and this repair is found in reexamining Barth's doctrine of revelation In doing so the locus of mission moves from God's trinitarian sending to his trinitarian revealing The repair is further advanced by Dietrich Bonhoeffer through his concept of person which functions as the unity of act and being This account returns mission to its original definition which was intended to describe the inner trinitarian being of God in relation to humanity The concept of person recovers this meaning of mission by locating it first in the person of Christ and second in the collective person of the church existing as the Christ community Thus Bonhoeffer's description of revelation in terms of personhood provides an account that is more faithful to the *missio Dei*'s core insights

*A Theology of Health* Tyler J. VanderWeele, 2024-09-15 While the health of the body can be defined by its functioning parts and systems the health of the person is more complex To flourish we need to understand health in the context of God's intent A Theology of Health presents a Christian understanding of the very concept of health both the health of the body and the health of the person Preeminent scholar Tyler J VanderWeele argues that health can be understood as wholeness as intended by God and that sin whether individual wrongdoing societal injustice or the fallenness of creation causes ill health VanderWeele explains that restoration and fulfillment of health is salvation pointed toward in the life of Jesus Christ to be lived out through the work of the Church and for which we await final completion VanderWeele also demonstrates the broader relevance and implications of his insights to all who seek to understand health well being and the ultimate ends of human life A Theology of Health is an essential theological exploration that seeks to promote health healing and flourishing of the whole person
