**The Community of the Weak** Hans-Peter Geiser, 2013-03-28 Social postmodernism and systematic theology can be considered the new pair in some of the most creative discussions on the future of theological method on a global scale Both in the academy and in the public square as well as in the manifold local and pastoral moments of ministry and community social activism the social the postmodern and the theological intermingle in engaging and border crossing ways *The Community of the Weak* presents a new kind of jazzy fundamental theology with a postmodern touch using jazz as a metaphor writing ethnographically messy texts out of the personal windows of lived experiences combining fragments of autobiography with

theological reconstruction A comparative perspective on North American and European developments in contemporary systematic theology serves as a hermeneutical horizon to juxtapose two continents in their very different contexts The author proposes a systematic and fundamental theology that is more jazzy global and narrative deeply embedded in pastoral ministry to tell its postmodern story *Fides Et Historia*, 1984 Religion and the American Experience: A Social and Cultural History, 1765-1996 Donald C. Swift, 2016-12-05 Religion in the USA manifests itself in many forms and this book examines them from religion in the early republic to early African American religion reform nativism movements and fundamentalism up to the contemporary culture wars in a study that spans almost 250 years Philosophy of Religion and the African American Experience John H. McClendon III, 2017-07-03 Most white philosophers of religion generally presume that philosophy of religion is based on what is a false universality whereby the white Western experience is paradigmatic of humanity at large The fact remains that Howard Thurman James H Cone and William R Jones among others have produced a substantial amount of theological work quite worthy of consideration by philosophers of religion Yet this corpus of thought is not reflected in the scholarly literature that constitutes the main body of philosophy of religion Neglect and ignorance of African American Studies is widespread in the academy By including chapters on Thurman Cone and Jones the present book functions as a corrective to this scholarly lacuna The Black Church in the African American Experience C. **Catholic Social Thought and Liberal Institutions** Michael Novak, 2017-07-12 Increasingly the religious leaders of the world are addressing problems of political economy expressing concern about the poor But will their efforts actually help the poor Or harm them Much depends Michael Novak asserts upon what kind of institutions are constructed that is upon realism and practicality His thesis may be simply stated Although the Catholic Church during the nineteenth and early twentieth centuries set itself against liberalism as an ideology it has slowly come to admire liberal institutions such as democracy and free markets Between the Catholic vision of social justice and liberal institutions Novak argues there is a profound consonance but not identity Both celebrate realism respect for institutions and prudence or practical wisdom The Catholic tradition adds to liberal individualism a strong communitarian sense This book was first published in 1984 as Freedom with Justice This new edition adds both a lengthy introduction carrying forward the original argument and a long concluding chapter on Pope John Paul II's controversial new encyclical of early 1988 Sollicitudo Rei Socialis
