The City At War:

The City War Sam Starbuck, 2012-11-19 Senator Marcus Brutus has spent his life serving Rome but it is difficult to be a patriot when the Republic barely recovered from a civil war is under threat by its own leader Brutus's one retreat is his country home where he steals a few precious days now and then with Cassius his brother in law and fellow soldier and the one he loves above all others But the sickness at the heart of Rome is spreading and even Brutus's nights with Cassius can't erase the knowledge that Gaius Julius Caesar is slowly becoming a tyrant Cassius fears both Caesar's intentions and Brutus's interest in Tiresias the villa's newest servant Tiresias claims to be the orphaned son of a minor noble but his secrets run deeper and only Brutus knows them all Cassius intent on protecting the Republic and his claim to Brutus proposes a dangerous conspiracy to assassinate Caesar After all if Brutus loved and respected by all supports it it's not murder just politics Now Brutus must return to Rome and choose not only between Cassius and Tiresias but between preserving the fragile status quo of Rome and killing a man who would be emperor *War and the City* Sara Fregonese, 2019-11-14 *War and the City* examines the geopolitical significance of the Lebanese Civil War through a micro level exploration of how the urban landscape of Beirut was transformed by the conflict Focusing on the initial phase of the war in 1975 and 1976 the volume also draws significant parallels with more recent occurrences of internecine conflict and with the historical legacies of Lebanon's colonial past While most scholarship has thus far focused on post war reconstruction of the city the initial process of destruction has been neglected This volume thus moves away from formal macro level geopolitical analysis to propose instead an exploration of the urban nature of conflict through its spaces infrastructures bodies and materialities The book utilizes urban viewpoints in order to highlight the nature of sovereignty in Lebanon and how it is inscribed on the urban landscape *War and the City* presents a view of geopolitics as not only shaping narratives of international relations but as crucially reshaping the space of cities **The Bad City in the Good War** Roger W. Lotchin, 2003-03-03 Riders were very appropriate to a western war but these horsemen could not have been more different One group patrolled the oceanfront of The City after dark While the residents of the nearby Sunset District and Seacliff huddled around the radios in their living rooms curtains pulled and blinds lowered listening to war news or to One Man's Family other residents rode the beaches Mounted on their own ponies the men of the San Francisco Polo Club labored through the sands of China Beach Baker Beach and the Ten Mile Beach looking for Imperial Japanese intruders from the book In the mythology of the West the city was seen as a place of danger and corruption but the bad city proved its mettle during the Good War In this book Roger W Lotchin has written the first comprehensive study of California's urban home front United by fear of totalitarianism the diverse population of California's cities came together to protect their homes and to aid in the war effort Whether it involved fighting in Europe or Asia migrating to a defense center writing to service personnel at the front building war machines in converted factories giving pennies at school for war bonds saving scrap material or pounding a civil defense beat urban California's

participation was immediate constant and unflagging Although many people worked in offices factories or barracks the wartime community was also fed by a vast army of volunteers which until now has been largely overlooked The Bad City in the Good War is a comprehensive local history of the California home front that restores a little known part of the story of the Second World War *Wartime Culture in Guilin, 1938-1944* Pingchao Zhu,2015-10-30 This book examines the development of wartime culture in the city of Guilin Guangxi Province in southwestern China during a major part of the country s war of resistance against Japanese invasion between 1938 and 1944 This study challenges existing historiography on China s wartime culture at three levels First the Guangxi warlord group played a crucial role in maintaining regional security providing a liberalized political environment for wartime cultural activities and facilitating wartime nationalist communist relations at both local and national levels Second wartime culture was more literary than political and it reflected a powerful intellectual vigor that was an indispensable component of China s war efforts Intellectuals of different social and political backgrounds were their own organic selves feeling no pressure to come to intellectual consensus in literary production Third wartime culture was characterized by the active participation of many international groups political organizations and foreign individuals The literary works produced in Guilin between 1938 and 1944 clearly reflected a combination of Chinese national and international anti fascist and anti military sentiment Chinese literary masterpieces were translated into different foreign languages and noted foreign literature and political works were introduced to Chinese audiences through various cultural and political exchange programs in the city **Architecture, Urban Space and War** Mirjana Ristic,2018-07-18 This book investigates architectural and urban dimensions of the ethnic nationalist conflict in Sarajevo the capital of Bosnia and Herzegovina during and after the siege of 1992 1995 Focusing on the wartime destruction of a portion of the cityscape in central Sarajevo and its post war reconstruction re inscription and memorialization the book reveals how such spatial transformations become complicit in the struggle for reconfiguration of the city s territory boundaries and place identity Drawing on original research the study highlights the capacities of architecture and urban space to mediate terror violence and resistance and to deal with heritage of the war and act a catalyst for ethnic segregation or reconciliation Based on a multi disciplinary methodological approach grounded in architectural and urban theory the spatial turn in critical social theory and assemblage thinking as well as techniques of spatial analysis in particular morphological mapping the book provides an innovative spatial framework for analyzing the political role of contemporary cities A Translation of the Old Testament Scriptures from the Original Hebrew Helen Spurrell,1885 **The Holy Bible in Modern English** ,1906

Security, Technology and Global Politics Mark Lacy, 2014-02-05 This book analyses some of the key problems explored in Paul Virilio's theorising on war and security Paul Virilio has developed a provocative series of writings on how modern societies have shaped the acceleration of military security technologies and how technologies of security and acceleration have transformed society economy and politics His examination of the connections between geopolitics war speed technology and control are viewed as some of the most challenging and disturbing interventions on the politics of security in the twenty first century interventions that help us understand a world that confronts problems that increasingly emerge from the desire to make life safer faster networked and more efficient *Security Technology and Global Politics* examines some of the key concepts and concerns in Virilio's writings on security society and technology endo colonization fear and the war on terror cities and panic cinema and war ecological security and integral accidents universities and ideas of progress Critics often point to an apocalyptic or fatalistic element to Virilio's writings on global politics but this book challenges this apocalyptic reading of Virilio's work suggesting that while he doesn't provide us with easy solutions to the problems we face the political force in Virilio's work comes from the questions he leaves us with about speed security and global politics in times of crisis terror and fear This book will be of interest to students of critical security studies political theory sociology political geography cultural studies and IR in general
