The City In Central Europe Culture And Society From 1800 To The Present:

A Modern History of European Cities Rosemary Wakeman, 2020-01-23 Rosemary Wakeman's original survey text comprehensively explores modern European urban history from 1815 to the present day. It provides a journey to cities and towns across the continent in search of the patterns of development that have shaped the urban landscape as indelibly European. The focus is on the built environment, the social and cultural transformations that mark the patterns of continuity and change, and the transition to modern urban society. Including over 60 images that serve to illuminate the analysis, the book examines whether there is a European city and if so, what are its characteristics. Wakeman offers an interdisciplinary approach that incorporates concepts from cultural and postcolonial studies as well as urban geography and provides full coverage of urban society not only in western Europe but also in eastern and southern Europe using various cities and city types to inform the discussion. The book provides detailed coverage of the often neglected urbanization post 1945 which allows us to more clearly understand the modernizing arc Europe has followed over the last two centuries.

The City in Central Europe Malcolm Gee, Tim Kirk, Jill Steward, 2019-01-04 First published in 1999, this volume explores how the cities of central Europe, among them Berlin, Budapest, Hamburg, Vienna, and Prague, went through a period of phenomenal growth during the nineteenth and early twentieth centuries. Their rapid expansion and growing economic importance made citizens aware of the need to manage the fabric and culture of the urban environment while burgeoning nationalism and the development of local and international tourism constructed cities as showcases for national and regional identity. Competing visions of how city and nation should represent themselves were advanced by different social groups, by commercial interests, and by local and national political authorities. Among the developments examined in this collection of essays are the campaign for the architectural development of Hamburg, international modernism, and notions of the garden city in Czechoslovakia, competition among German cities as art centres, the role of Wawel Hill in Kraków as a vehicle for Polish nationalism, tourism in Austria-Hungary, Jewish assimilation in Vienna, social control and cultural policy in Vienna, and the representation of Berlin on film. The volume is introduced by Malcolm Gee, Tim Kirk, and Jill Steward, who provide an historical overview which establishes a context for the exchange of ideas and competition between the cities of central Europe during this period.

The City and the Senses Dr Alexander Cowan, Dr Jill Steward, 2013-06-28 How do we experience a city in terms of the senses? What are the interrelations between human experience and behaviour in urban space? This volume examines these questions in the context of European urban culture between the fifteenth and twentieth centuries, exploring the institutions and ideologies relating to the range of sensual experience and its interpretation. Spanning pre-industrial and modern cities in Britain, France, Germany, and the United States, it enables the reader to establish major contrasts and continuities in what is still an evolving urban experience. Divided into sections corresponding to the five senses—noise, vision, taste, touch, and smell—each section allows for comparisons which act as reminders that the experience of the city was a multi-

sensual one and that these experiences were as much intellectual as physical in their nature European Cities in the Modern Era, 1850-1914 Friedrich Lenger,2012-08-17 In *European Cities in the Modern Era 1850 1914* Friedrich Lenger analyses the demographic and economic preconditions of European urbanization compares the extent to which Europe s cities were characterized by heterogeneity with respect to the social national and religious composition of its population and asks in which way differences resulting from this heterogeneity were resolved either peacefully or violently Using this general perspective and extending the scope by including Eastern and Southern Europe the dominant view of Europe s prewar cities as islands of modernity is challenged and the ubiquity of urban violence established as a central analytical problem The Economy of East Central Europe, 1815-1989 David Turnock,2004-03 From an expert in the field this major survey includes new research and recent changes in the region and reviewing two centuries of modernization examines the history of Eastern European economies within a wider political and ideological context Hungarian Women's Activism in the Wake of the First World War Judith Szapor,2017-12-14 Using a wide range of previously unpublished archival written and visual sources *Hungarian Women s Activism in the Wake of the First World War* offers the first gendered history of the aftermath of the First World War in Hungary The book examines women s activism during the post war revolutions and counter revolution It describes the dynamic of the period s competing liberal Christian conservative socialist radical socialist and right wing nationalistic women s movements and pays special attention to women activists of the Right In this original study Judith Szapor goes on to convincingly argue that illiberal ideas on family and gender roles tied to the nation s regeneration and tightly woven into the fabric of the interwar period s right wing extreme nationalistic ideology greatly contributed to the success of Mikl s Horthy s regime Furthermore the book looks at the long shadow that anti liberal nationalist notions of gender and family cast on Hungarian society and provides an explanation for their persistent appeal in the post Communist era This is an important text for anyone interested in women s history gender history and Hungary in the 20th century The Routledge Handbook of Sexuality in East Central Europe Agnieszka Kościńska,Anita Kurimay,Kateřina Liřková,Hadley Z.
