Emergence and Change in Early Urban Societies Linda Manzanilla, 2013-11-11 This book gives an overview of different factors involved in the emergence and change in early urban societies in fourth millennium Mesopotamia and Egypt pre Shang China Classic horizon Central Mexico Oaxaca and the Maya Area and Middle Horizon societies in the Andean Region These factors range from centralized storage and redistributive economies agromanagerial models mercantile network control conflict and conquest conversion of military commanders into administrators political power through monumental cosmic reproduction and elite power through ideological change It discusses specific archaeological data useful in theoretical construction In the Introduction a discussion of different developmental processes of urban societies is made The Eastern Anatolian example emphasizes the role played by interregional exchange networks linking the Mesopotamian plains with the Syro Anatolian regions The emergence of an elite is related with the control of the movement of craft goods and raw materials more than with the appropriation of subsistence goods The Chinese example stresses the importance of conflict provoked by demographic pressures on resources The Mesoamerican cases relate to vast urban developments and manufacturing centers ideological importance of monumental planning and changing behavior of elites The Andean cases are related either to the transformation of theocratic leadership into military administrators or to the agricultural intensification model

Caciques and Their People Joyce Marcus, Judith Francis Zeitlin, 1994-01-01 A volume of essays by Mesoamerican scholars on topics ranging from Zapotec archaeology to Cuicatec irrigation and Mixtec codices to Aztec ethnohistory Authors use a

direct historical approach the comparative method or develop models that contribute to ethnological and archaeological theory Contributors J Chance G Feinman K V Flannery F Hicks R Hunt M Lind J Marcus J Monaghan J Paddock E Redmond M Romero Frizzi M E Smith C Spencer and J Zeitlin **Excavations at Cerro Tilcajete** Christina Elson,2007-01-01 This volume part of a series on the prehistory and human ecology of the Valley of Oaxaca Mexico focuses on Cerro Tilcajete a secondary administrative center below Monte Albán the capital of the prehispanic Zapotec state *Mesoamerica After the Decline of Teotihuacan, A.D. 700-900* Richard A. Diehl,Janet Catherine Berlo,1989 *Intermediate Elites in Pre-Columbian States and Empires* Christina M. Elson,R. Alan Covey,2022-06-21 From the Mesoamerican highlands to the Colca Valley in Peru pre Columbian civilizations were bastions of power that have largely been viewed through the lens of rulership or occasionally through bottom up perspectives of resistance Rather than focusing on rulers or peasants this book examines how intermediate elites both men and women helped to develop sustain and resist state policies and institutions Employing new archaeological and ethnohistorical data its contributors trace a 2 000 year trajectory of elite social evolution in the Zapotec Wari Aztec Inka and Maya civilizations This is the first volume to consider how individuals subordinate to imperial rulers helped to shape specific forms of state and imperial organization Taking a broader scope than previous studies it is one of the few works to systematically address these issues in both Mesoamerica and the Central Andes It considers how these individuals influenced the long term development of the largest civilizations of the ancient Americas opening a new window on the role of intermediate elites in the rise and fall of ancient states and empires worldwide The authors demonstrate how such evidence as settlement patterns architecture decorative items and burial patterns reflect the roles of intermediate elites in their respective societies arguing that they were influential actors whose interests were highly significant in shaping the specific forms of state and imperial organization Their emphasis on provincial elites particularly shifts examination of early states away from royal capitals and imperial courts explaining how local elites and royal bureaucrats had significant impact on the development and organization of premodern states Together these papers demonstrate that intricate networks of intermediate elites bound these ancient societies together and that competition between individuals and groups contributed to their decline and eventual collapse By addressing current theoretical concerns with agency resistance to state domination and the co option of local leadership by imperial administrators it offers valuable new insight into the utility of studying intermediate elites The ^AOxford Handbook of Mesoamerican Archaeology Deborah L. Nichols,Christopher A. Pool,2012-09-24 Unique among recent works The Oxford Handbook of Mesoamerican Archaeology brings together in a single volume article length regional syntheses and topical overviews written by active scholars in the field of Mesoamerican archaeology *Monte Albán's Hinterland, Part II* Stephen Kowalewski,Gary Feinman,Laura Finsten,Richard E. matched by the style of presentation and production *Ancient Mesoamerica* Richard E. Blanton, 1993-04-30 In this revised and updated 1993 edition the authors synthesize recent research to provide a comprehensive survey of Mesoamerica **The Mixtecs of Oaxaca** Ronald Spores, Andrew K. Balkansky, 2013-08-15 The Mixtec peoples were among the major original developers of Mesoamerican civilization Centuries before the Spanish Conquest they formed literate urban states and maintained a uniquely innovative technology and a flourishing economy Today thousands of Mixtecs still live in Oaxaca in present day southern Mexico and thousands more have migrated to locations throughout Mexico the United States and Canada In this comprehensive survey Ronald Spores and Andrew K Balkansky both preeminent scholars of Mixtec civilization synthesize a wealth of archaeological historical and ethnographic data to trace the emergence and evolution of Mixtec civilization from the time of earliest human occupation to the present The Mixtec region has been the focus of much recent archaeological and ethnohistorical activity In this volume Spores and Balkansky incorporate the latest available research to show that the Mixtecs along with their neighbors the Valley and Sierra Zapotec constitute one of the world s most impressive civilizations antecedent to and equivalent to those of the better known Maya and Aztec Employing what they refer to as a convergent methodology the authors combine techniques and results of archaeology ethnohistory linguistics biological anthropology ethnology and participant observation to offer abundant new insights on the Mixtecs multiple transformations over three millennia **Housework** Kenneth G. Hirth, 2010-02-15 Households are without question the most important social units in human society They are interactive social units whose primary concern is the day to day well being of their kith and kin Households reproduce themselves and provide their members with the economic psychological and social resources necessary to live their lives Although households vary enormously in size and organization they are the fundamental social settings in which families are defined and cultural values are transmitted through a range of domestic activities and rituals Despite their many functions it is the range and productivity of their economic activities that determine the success survival and well being of their members Households are the primary production and consumption units in society and provide the vehicle through which resources are pooled stored and distributed to their members Survival and reproduction is their business and the work they do determines their success **Archaeological Thought in America** C. C. Lamberg-Karlovsky, 1989 American archaeology today encompasses a huge range of approaches and draws eclectically on a multitude of academic disciplines Until now however there has been no book seeking to separate the main strands and traditions of research and present a rounded picture of American archaeological thought in all its diversity The seventeen essays in *Archaeological Thought in America* describe recent theoretical advances and present substantive interpretations of prehistoric data drawn from a variety of cultures and time frames including Mesoamerica Central Asia India and China The contributors include many of the leading North American archaeologists of this generation **Palaces and Power in the Americas** Jessica Joyce Christie, Patricia Joan Sarro, 2010-01-01 Ancient American palaces still captivate those who stand

before them Even in their fallen and ruined condition the palaces project such power that according to the editors of this new collection it must have been deliberately drawn into their formal designs spatial layouts and choice of locations Such messages separated palaces from other elite architecture and reinforced the power and privilege of those residing in them Indeed as Christie and Sarro write the relation between political power and architecture is a pervasive and intriguing theme in the Americas Given the variety of cultures time periods and geographical locations examined within the editors of this book have grouped the articles into four sections The first looks at palaces in cultures where they have not previously been identified including the Huaca of Moche Site the Wari of Peru and Chaco Canyon in the U S Southwest The second section discusses palaces as stage sets that express power such as those found among the Maya among the Coast Salish of the Pacific Northwest and at El Tajín on the Mexican Gulf Coast The third part of the volume presents cases in which differences in elite residences imply differences in social status with examples from Pasado de la Amada the Valley of Oaxaca Teotihuacan and the Aztecs The final section compares architectural strategies between cultures the models here are Farfán Peru under both the Chimú and the Inka and the separate states of the Maya and the Inka Such scope and the quality of the scholarship make *Palaces and Power in the Americas* a must have work on the subject
