*Volume 16, Tome II: Kierkegaard's Literary Figures and Motifs* Katalin Nun, Jon Stewart, 2016-12-05 While Kierkegaard is perhaps known best as a religious thinker and philosopher there is an unmistakable literary element in his writings He often explains complex concepts and ideas by using literary figures and motifs that he could assume his readers would have some familiarity with This dimension of his thought has served to make his writings far more popular than those of other philosophers and theologians but at the same time it has made their interpretation more complex Kierkegaard readers are generally aware of his interest in figures such as Faust or the Wandering Jew but they rarely have a full appreciation of the vast extent of his use of characters from different literary periods and traditions The present volume is dedicated to the treatment of the variety of literary figures and motifs used by Kierkegaard The volume is arranged alphabetically by name with Tome II covering figures and motifs from Gulliver to Zerlina

*Prometheus and Gaia* Harrison Fluss,Landon Frim,2022-02-01 Prometheus and Gaia examines the ideological positions of Futurism and Eco Pessimism While these are rarely spoken about in mainstream

discourse they do have strong resonances in today's popular politics and culture. In light of existential threats posed by climate change, disruptive technologies and economic crises, many have grown weary of the small fixes offered by mainstream policy makers. Radical change thus appears necessary as Futurism and Eco Pessimism emerge as two fundamental challenges to the status quo. The Futurist claims that the current dynamism of technology is incompatible with human limitations while the Eco Pessimist sees the climate crisis as symptomatic of a broader human domination over nature. What these seemingly opposite currents have in common is a shared rejection of the human frame as grounding politics; each seeks to subordinate the human in favor of a wholly alien other, either in the form of an anarchic nature or a dynamic technology. To transcend this strange coincidence of opposites, Prometheus and Gaia makes the positive case for a humanism that is rationalist without being anthropocentric.

**The Specificity of the Aesthetic, Volume 1** György Lukács, 2023-02-13 How is it possible that works of art exist? How do we become receptive aesthetic subjects? The *Specificity of the Aesthetic* extends these fundamental ontological and phenomenological questions around which Georg Lukács's theory of art was organized. This late work of aesthetics seeks to solve a puzzle that neither philosophy nor socialist politics was able to: the fundamental ethical question of what individuals and humanity as a whole ought to do. Art offers Lukács the already existing means through which the damaged edifice of Marxism might be reconstructed on a durable basis on which to rest the philosophy, politics and ethics of a non-Soviet style Marxism.

*Kierkegaard's Journals and Notebooks, Volume 11, Part 1* Søren Kierkegaard, 2019-11-26 For over a century the Danish thinker Søren Kierkegaard (1813-55) has been at the center of a number of important discussions concerning not only philosophy and theology but also more recently fields such as social thought, psychology and contemporary aesthetics, especially literary theory. Despite his relatively short life, Kierkegaard was an extraordinarily prolific writer, as attested to by the 26-volume Princeton University Press edition of all of his published writings. But Kierkegaard left behind nearly as much unpublished writing, most of which consists of what are called his journals and notebooks. Kierkegaard has long been recognized as one of history's great journal keepers, but only rather small portions of his journals and notebooks are what we usually understand by the term diaries. By far the greater part of Kierkegaard's journals and notebooks consists of reflections on a myriad of subjects: philosophical, religious, political, personal. Studying his journals and notebooks takes us into his workshop where we can see his entire universe of thought. We can witness the genesis of his published works, to be sure, but we can also see whole galaxies of concepts, new insights and fragments, large and small, of partially or almost entirely completed but unpublished works. Kierkegaard's *Journals and Notebooks* enables us to see the thinker in dialogue with his times and with himself. Kierkegaard wrote his journals in a two-column format: one for his initial entries and the second for the extensive marginal comments that he added later. This edition of the journals reproduces this format, includes several photographs of original manuscript pages and contains extensive scholarly commentary on the various entries and on the history of the manuscripts being reproduced. Volume 11, Part 1 and Volume 11, Part 2 present an

exciting enlightening and enormously varied treasure trove of papers that were found carefully sorted and stored by Kierkegaard himself in his apartment after his death These papers many of which have never before been published in English provide a window into many different aspects of Kierkegaard s life and creativity Volume 11 Part 1 includes items from his earliest formative years through his extensive studies at the university and up to the publication of *Either Or* These materials include Kierkegaard s studies in biblical exegesis his reading of theologians such as Schleiermacher and Baader his concern with aesthetic matters including a lengthy consideration of the Faust legend his first trial sermon delivered at the Pastoral Seminary his views on the burgeoning field of political journalism in the 1830s and a group of papers he titled *The First Rudiments of Either Or* *The Green Book* *Some Particulars that were not Used* *The Wisdom of the Lotus Sutra, vol. 6* Daisaku Ikeda, 2022-05-01 The Lotus Sutra Shakyamuni Buddha s highest teaching explainsthat all people regardless of gender social status or education can uncover the Buddha nature they inherently possess Based on this empowering and compassionate sutra Nichiren Daishonin revealed the supreme practice for the modern world Now in clear down to earth terms SGI President Ikeda and Soka Gakkai Study Department leaders Katsuji Saito Takanori Endo and Haruo Suda explore the profound meaning of the Lotus Sutra stwenty eight chapters Basing themselves on Nichiren Daishonin s lectures on the Lotus Sutra *The Record of the Orally Transmitted Teachings* they explain the concepts that form the foundation of SGI members Buddhist practice Through their discussions the ancient text of the Lotus Sutra comes alive brimming with profound significance and practical advice for living in today s world Volume six covers chapters 23 28 of the twenty eight chapter Lotus Sutra *Volume 1 of the Collected Works of Marie-Louise von Franz* Marie-Louise von Franz, 2021-09-20 This newly translated volume of the Collected Works of Marie Louise von Franz one of the most renowned authorities on fairytales presents a systematic and wide ranging approach Von Franz amplifies a variety of fairytale motifs to show that the magical realm is alien to the profane and mundane realm of ordinary daily life She was one of Analytical Psychology s most original thinkers and here she presents a lucid concise exploration of the archetypal symbols found in fairytales Fairytales like myths provide a cultural and societal backdrop that helps the human imagination narrate the meaning of life s events The remarkable similarities in fairytale motifs across different lands and cultures inspired many scholars to search for the original homeland of fairytales While peregrinations of fairytale motifs occur the common root of fairytales is more archetypal than geographic A striking feature of fairytales is that a sense of space time and causality is absent This situates them in a magical realm a land of the soul where the most interesting things happen in the center of places like Heaven mountains lakes and wells At the age of eighteen Marie Louise von Franz was invited to meet Carl Gustav Jung at Bollingen Tower She immediately recognized that there exist two levels of reality one outer and the other inner Within months she had enrolled at the University of Zurich and began attending Jung s lectures at the Eidgenossische Technische Hochschule or the Swiss Federal Institute of Technology Less than a decade after meeting Jung von Franz had completed her doctorate in

classical philology and begun seeing her first analysands She was a prolific writer a dedicated teacher and lecturer and was possessed of a far reaching and often non discriminating Eros that accepted everyone seeking help Alfred Ribb MD in Fountain of the Love of Wisdom Chiron 2006 [The Black Sun](#) Stanton Marlan,2008-05-08 Also available in an open access full text edition at <http://oaktrust.library.tamu.edu/handle/1969.1/86080> The black sun an ages old image of the darkness in individual lives and in life itself has not been treated hospitably in the modern world Modern psychology has seen darkness primarily as a negative force something to move through and beyond but it actually has an intrinsic importance to the human psyche In this book Jungian analyst Stanton Marlan reexamines the paradoxical image of the black sun and the meaning of darkness in Western culture In the image of the black sun Marlan finds the hint of a darkness that shines He draws upon his clinical experiences and on a wide range of literature and art including Goethe's Faust Dante's Inferno the black art of Rothko and Reinhardt to explore the influence of light and shadow on the fundamental structures of modern thought as well as the contemporary practice of analysis He shows that the black sun accompanies not only the most negative of psychic experiences but also the most sublime resonating with the mystical experience of negative theology the Kabbalah the Buddhist notions of the void and the black light of the Sufi Mystics An important contribution to the understanding of alchemical psychology this book draws on a postmodern sensibility to develop an original understanding of the black sun It offers insight into modernity the act of imagination and the work of analysis in understanding depression trauma and transformation of the soul Marlan's original reflections help us to explore the unknown darkness conventionally called the Self The image of Kali appearing in the color insert following page 44 is Maitreya Bowen reproduced with her permission [maitreyabowen@yahoo.com](mailto:maitreyabowen@yahoo.com)

**The Quest for Conscience and the Birth of the Mind** Annie Reiner,2018-05-24 This book offers a new perspective on conscience as an as yet unrealized human potential but a potential toward which human beings are naturally driven A distinction is made between a mature or healthy conscience a conscience capable of maturation and the classical notion of the superego it also postulates that the two may represent two separate lines of development Conscience is seen to be inseparable from consciousness the development of a mature conscience is seen to have its foundation in the development of a true or authentic self while the classical notion of the superego is viewed as an often pathological manifestation of this natural mental potential Theological ideas are relevant to any discussion of morality conscience and guilt Freud's and Bion's perspectives on religion are closely examined revealing fundamental differences in their views of the mind The author incorporates the metaphysical perspective central to Bion's concept of O as fundamental to an understanding of the development of a healthy conscience

**On Psychological and Visionary Art** C. G. Jung,2025-07-22 The first English translation of Jung's landmark lecture on Nerval's hallucinatory memoir In 1945 at the end of the Second World War and after a long illness C G Jung delivered a lecture in Zurich on the French Romantic poet Gerard de Nerval The lecture focused on Nerval's visionary memoir Aurélia which the poet wrote in an ambivalent attempt to emerge

from madness Published here for the first time Jung's lecture is both a cautionary psychological tale and a validation of Nerval's visionary experience as a genuine encounter Nerval explored the irrational with lucidity and exquisite craft He privileged the subjective imagination as a way of fathoming the divine to reconnect with what the Romantics called the life principle During the years of his greatest creativity he suffered from madness and was institutionalized eight times Contrasting an orthodox psychoanalytic interpretation with his own synthetic approach to the unconscious Jung explains why Nerval was unable to make use of his visionary experiences in his own life At the same time Jung emphasizes the validity of Nerval's visions differentiating the psychology of a work of art from the psychology of the artist The lecture suggests how Jung's own experiments with active imagination influenced his reading of Nerval's *Aurélia* as a parallel text to his own *Red Book* With Craig Stephenson's authoritative introduction Richard Sieburth's award winning translation of *Aurélia* and Alfred Kubin's haunting illustrations to the text and featuring Jung's reading marginalia preliminary notes and revisions to a 1942 lecture *On Psychological and Visionary Art* documents the stages of Jung's creative process as he responds to an essential Romantic text
