The Colonial Schooner, 1763-1775 Harold M. Hahn,1981-01      **A Boston Schooner in the Royal Navy, 1768-1772**

Phillip Reid,2023 Uses rare surviving records including fully intact logbooks to situate the customs enforcement interceptor Sultana within the wider picture of the British Atlantic in this crucial period HONORABLE MENTION 2023 Lyman Book Award for North American Naval History The small Boston built schooner Sultana served as a customs enforcement interceptor on the North American eastern seaboard in the period leading up to the American Declaration of Independence when British taxation of American trade was a hugely contentious issue As a typical workaday British American merchant ship taken into naval service Sultana offers a rare opportunity to understand a technology of paramount importance to this world where records for merchant ships are scarce but where in this case a wealth of information from plan drawings to the fully intact logbooks has survived The book provides a detailed narrative of the ship s activities and reveals the nature of life on board and the day to day business of operating a small sailing ship It explores the technology of the ship and her sailing qualities as revealed by the ship s logs and also by the performance of a modern replica In addition the book situates Sultana s role within the wider picture of the British Atlantic in this crucial period It is thereby both naval microhistory and also Atlantic history for all scholars interested in the formation and development of the British Atlantic world      **Explorers to**

**Maritime Archaeology** Lawrence E. Babits, Hans Van Tilburg, 2013-11-11 This volume initiates a new series of books on maritime or underwater archaeology and as the editor of the series I welcome its appearance with great excitement It is appropriate that the first book of the series is a collection of articles intended for graduate or undergraduate courses in underwater archaeology since the growth in academic opportunities for students is an important sign of the vitality of this subdiscipline The layman will enjoy the book as well Academic and public interest in shipwrecks and other submerged archaeological sites is indicated by a number of factors Every year there are 80 to 90 research papers presented at the Society for Historical Archaeology s Conference on Historical and Underwater Archaeology and the Proceedings are published Public interest is shown by extensive press coverage of shipwreck investigations One of the most important advances in recent years has been the passage of the Abandoned Shipwreck Act of 1987 for the first time providing national level law concerning underwater archeological sites The legislation has withstood a number of legal challenges by commercial treasure salvors a very hopeful sign for the long term preservation of this nonrenewable type of cultural resource The underwater archaeological discoveries of 1995 were particularly noteworthy The Texas Historical Commission discovered the Belle one of La Salle s ships and the CSS Hunley was found by a joint project of South Carolina and a private nonprofit organization called NUMA      *'I am Determined to Live or Die on Board My Ship.'* Jim Tildesley, 2019-04-02

**Foreign Affairs and the Constitution in the Age of Fighting Sail** William R. Casto, 2006 Setting his examination of the Neutrality Crisis of 1793 against the fiery backdrop of marauding French privateers the French foreign minister's diplomatic fiasco and pro French rallies in the port of Charleston South Carolina William R Casto brings to life the first test of President George Washington's administration to establish a national foreign policy and to implement the separation of powers principles of the U S Constitution

Casto's Foreign Affairs and the Constitution in the Age of Fighting Sail recounts the efforts of the French revolutionary republic to obtain support from the United States in its war with Great Britain This situation forced Washington Thomas Jefferson John Jay James Madison Alexander Hamilton and other founding fathers to wrestle for the first time with many of the problems inherent in the Constitution's allocation of powers between states and nation and among the three branches of government

Casto argues that the insights of the nation's founders into about the Constitution and international affairs are as valuable and instructive today as they were in 1793 Concentrating on the legal issues generated by the French maritime campaign especially those rooted in constitutional debate Casto illumines the continuing contest between Hamilton and Jefferson two men who personified the conflict over the definition of neutrality rights

Casto offers close readings of Hamilton's Pacificus and Madison's Helvidius papers and of the Supreme Court's legendary refusal to advise the president Bridging legal political and diplomatic history Casto maps the rough processes by which the founders moved from abstract theorizing to an implementation of the Constitution in the context of specific and highly controversial international incidents
