Slapstick Comedy Tom Paulus, Rob King, 2010-06-09 From Chaplin's tramp to the Bathing Beauties from madcap chases to skyscraper perils slapstick comedy supplied many of the most enduring icons of American cinema in the silent era This

collection of fourteen essays by prominent film scholars challenges longstanding critical dogma and offers new conceptual frameworks for thinking about silent comedy's place in film history and American culture. The contributors discuss a broad range of topics including the contested theatrical or cinematic origins of slapstick, the comic spectacle of crazy technology and trick stunts, the filmmakers who shaped the style of early slapstick and comedy's implications for theories of film form and spectatorship. This volume is essential reading for anyone seeking to understand the origins and continued importance of a film genre at the heart of American cinema from its earliest days to today. Stoogeology Peter Seely, Gail W. Pieper, 2007-05-15

In the world of slapstick comedy, few are more beloved than the Three Stooges. Throughout their 190 short films, they consistently delivered physical, verbal, and situational comedy in new and creative ways. Following the trio from outer space to ancient Rome, this volume provides an in-depth look at their comedy and its impact on twentieth-century art, culture, and thought. This analysis reveals new insights into the language, literary structure, politics, race, gender, ethnicity, and even psychology of the classic shorts. It discusses the elements of surrealism within the Stooges' films, exploring the many ways in which they created their own reality regardless of time and space. The portrayal of women and minorities and the role of the mistake in Stooges works are also addressed. Moreover, the book examines the impact that the Columbia Studios style and the austerity of its Short Subjects Department had on the work of the Three Stooges' films that ironically have outlasted more costly and celebrated productions. **From Radio to the Big Screen** Hal Erickson, 2014-05-23

There was a time when American popular entertainment referred only to radio and motion pictures. With the coming of talking pictures, Hollywood cashed in on the success of big-time network radio by bringing several of the public's favorite broadcast personalities and programs to the screen. The results, though occasionally successful, often proved conclusively that some things are better heard than seen. Concentrating primarily on radio's Golden Age, 1926-1962, this lively history discusses the cinematic efforts of airwave stars Rudy Vallee, Amos 'n' Andy, Fred Allen, Joe Penner, Fibber McGee, Molly, Edgar Bergen, Lum Abner, and many more. Also analyzed are the movie versions of such radio series as *The Shadow*, *Dr. Christian*, and *The Life of Riley*. In addition, two recent films starring contemporary radio headliners Howard Stern and Garrison Keillor are given their due. *Chai Noon* Jonathan L. Friedmann, 2025

Only a few Westerns contain explicitly Jewish stories or themes, and very rarely do Old West tales involve identifiably Jewish characters. Yet Jewish contributors have shaped the Western, once Hollywood's most popular genre ever since the silent era, both onscreen and offscreen, and some filmmakers have sought to infuse the genre with a distinctly Jewish sensibility. In *Chai Noon*, Jonathan L. Friedmann applies some of the central questions of Jewish film studies to the Western: What makes a movie Jewish? What counts as a Jewish image on screen? What types of Jewish representation are appropriate? How much of a film's Jewishness owes to the filmmakers and how much to the viewer's interpretation? This volume joins other reconsiderations of outsider and minority representations in Westerns to offer a more nuanced view of the genre. Friedmann engages with larger themes of Jewish identity in popular film, including depictions of

race ethnicity and foreignness He also identifies similar concerns within the invention and creation of the imaginary West writ large in American culture The juxtapositions prove to be both unexpected and intuitively understandable Lost in the Fifties , Wheeler Dixon examines the lost films and directors of the 1950s Contrasting traditional themes of love marriage and family the author s 1950s film world unveils once taboo issues and television shows such as Captain Midnight are juxtaposed with the cheerful world of I Love Lucy

Convergence Media History Janet Staiger, Sabine Hake, 2009-07 Convergence Media History explores the ways that digital convergence has radically changed the field of media history Writing media history is no longer a matter of charting the historical development of an individual medium such as film or television Instead now that various media from blockbuster films to everyday computer use intersect regularly via convergence scholars must find new ways to write media history across multiple media formats This collection of eighteen new essays by leading media historians and scholars examines the issues today in writing media history and histories Each essay addresses a single medium including film television advertising sound recording new media and more and connects that specific medium s history to larger issues for the field in writing multi media or convergent histories Among the volume s topics are new media technologies and their impact on traditional approaches to media history alternative accounts of film production and exhibition with a special emphasis on film across multiple media platforms the changing relationships between audiences fans and consumers within media culture and the globalization of our media culture
