Through examinations of U S military racial and gender integration efforts and its handling of sexuality this book argues that the need for personnel filling the ranks has forced the armed services to be pragmatically progressive since World War II The integration of African Americans and women into the United States Armed Forces after World War II coincided with major social movements in which marginalized civilians demanded equal citizenship rights As this book explores due to personnel needs the military was a leading institution in its opening of positions to women and African Americans and its offering of educational and economic opportunities that in many cases were not available to them in the civilian world By opening positions to African Americans and women and remaking its where boys become men image the military was an institutional leader on the issue of social equality in the second half of the 20th century The pushback against gay men and women wishing to serve openly in the forces however revealed the limits of the military s pragmatic progressivism This text

investigates how policymakers have defined who belongs in the military and counts as a soldier and examines how the need to attract new recruits led to the opening of the forces to marginalized groups and the rebranding of the services **Close**

Air Support And The Battle For Khe Sanh [Illustrated Edition] Lt.-Col Shawn Callahan USMC, 2014-08-15 Includes 7 maps 3 tables and more than 80 photo illustrations In the 77 days from 20 Jan to 18 March of 1968 two divisions of the North Vietnamese Army NVA surrounded a regiment of U S Marines on a mountain plateau in the northwest corner of South Vietnam known as Khe Sanh The episode was no accident it was in fact a carefully orchestrated meeting in which both sides got what they wanted The North Vietnamese succeeded in surrounding the Marines in a situation in many ways similar to Dien Bien Phu and may have been seeking similar tactical operational and strategic results General William C Westmoreland the commander of the joint U S Military Assistance Command Vietnam COMUSMACV meanwhile sought to lure the NVA into the unpopulated terrain around the 26th Marines in order to wage a battle of annihilation with air power In this respect Khe Sanh has been lauded as a great victory of air power a military instrument of dubious suitability to much of the Vietnam conflict The facts support the assessment that air power was the decisive element at Khe Sanh delivering more than 96 percent of the ordnance used against the NVA Most histories of the battle however do not delve much deeper than this Comprehensive histories like John Prados and Ray Stubbe s Valley of Decision Robert Pisor s End of the Line and Eric Hammel s Siege in the Clouds provide excellent accounts of the battle supported by detailed analyses of its strategic and operational background but tend to focus on the ground battle and treat the application of air power in general terms They do not however make significant distinction between the contributions of the two primary air combat elements in this air land battle the 7th Air Force and the 1st Marine Air Wing An analysis of their respective contributions to the campaign reveals that they each made very different contributions that reflected very different approaches to the application of air power
