**Combat History of the Second Infantry Division in World War II** , U.S. Army,2018-09-03 First published just a year after the end of the war this is the story of the Second Infantry Division in World War II It is the story of innumerable acts of fortitude and courage of individual sacrifice and devotion to duty under fire by a fighting division which has served with honor in two world wars Closely following actual combat operations brief editions of our participation in World War II were published With the passage of time the need for a more authentic and comprehensive history of this period has become evident This book is designed to meet that need This history shows that from D 1 to V E Day our Division in the face of repeated fanatical enemy action was employed constantly as a spearhead shock division and that in this role it maintained unblemished its proud record of never having failed to take its objective nor of having relinquished ground so gained During operations we were concerned with our immediate task Now in the light of subsequent events and broader perspective the importance to the nation and to our army of our successes becomes increasingly evident W M Robertson Major General U S Army Combat History of the Second Infantry Division in World War II. The Ninth Army was formed in May of 1944 under the command of General William Hood Simpson. By late August it was ready to join the crusade in Europe. Known by its radio call sign Conquer, this brave army landed at Utah Beach, France, and joined General Patton's Battle for Brest, finally capturing Brittany's largest port in late September. The Ninth Army went on to become the only American army to fight under British Field Marshal Montgomery's command, crossing the Rhine and playing a role in the Battle of the Bulge. The Ninth was involved in the reduction of the Wesel Pocket, Operation Varsity, the airborne drop across the Rhine, the reduction of the Ruhr Pocket, and then the Race to Berlin. The Ninth reached the Elbe River before it was stopped, not by the enemy but by high command. Following the end of hostilities, the army was dissolved. This new history of the Ninth covers all levels of the army's activities, from the responsibilities and duties of the higher echelon commanders through to combat stories of the units under its command and Medal of Honor actions. Armies, Corps, Divisions, and Separate Brigades, 1987 The Liberators of Pilsen Bryan J. Dickerson, 2018-01-29 Formed in July 1943 at Camp Chaffee, Arkansas, the 16th Armored Division was the last U.S. armored division to be activated in World War II, the last deployed to the European Theater, and the last to see combat. As the war in Europe was coming to an end, General George S. Patton chose the division to spearhead a daring advance into Czechoslovakia. In its first and only combat operation, the 16th liberated the city of Pilsen, forever endearing itself to the Czech people. Poised to continue to the capital city of Prague, the division was halted, not by German resistance but by political rivalries between the Western powers and the Soviet Union. Official U.S. Army records and veteran accounts tell the story of the unit's brief two-year existence and its successful mission.

*United States Marine Corps Generals of World War II* George B. Clark, 2024-10-18 This biographical dictionary profiles each of the 98 men who served as generals of the U.S. Marine Corps during World War II. Arranged alphabetically, the entries detail each general's background and education, military schooling, military service both before and during World War II, service abroad, France, Haiti, the Dominican Republic, Nicaragua, Mexico, Cuba, China, and Panama, medals and awards for courage and skill in combat, and retirement and death dates. Hitler's Paratroopers in Normandy Gilberto Villahermosa, 2019-08-30 A retired U.S. Army Master Parachutist, strategist, and military historian analyzes the actions of one German special forces group during World War II. In June 1944, Allied forces fighting desperately to establish a foothold in Normandy and then breakout of the confining bocage found themselves opposed by a bewildering array of formations of the German Wehrmacht. Among them were the newly formed German II Parachute Corps. This gripping new account examines the exploits of Germany's II Parachute Corps and its commander Eugen Meindl from the Allied invasion on June 6 to the end of August 1944. Meindl was the epitome of the senior German airborne commander in the Second World War. Tough, experienced, and aggressive, he cared deeply for his troops. His Parachute Corps fought stubbornly for three weeks before being forced to fall back. Trapped along with the bulk of the German Seventh Army in the Falaise pocket, Meindl and his paratroopers maintained their discipline and were selected by the Commander in Chief of OB West to lead the German

breakout to the east That they managed to do so despite suffering grievous losses while so many around them died or surrendered is a testament to their dedication and fighting ability Theirs is a story that deserves to be told Corps Commanders of the Bulge Harold R. Winton,2016-07-10 If the Battle of the Bulge was Germany's last gasp it was also America's proving ground the largest single action fought by the U S Army in World War II Taking a new approach to an old story Harold Winton widens our field of vision by showing how victory in this legendary campaign was built upon the remarkable resurrection of our truncated interwar army an overhaul that produced the effective commanders crucial to GI success in beating back the Ardennes counteroffensive launched by Hitler's forces Winton's is the first study of the Bulge to examine leadership at the largely neglected level of corps command Focusing on the decisions and actions of six Army corps commanders Leonard Gerow Troy Middleton Matthew Ridgway John Millikin Manton Eddy and J Lawton Collins he recreates their role in this epic struggle through a mosaic of narratives that take the commanders from the pre war training grounds of America to the crucible of war in the icy cold killing fields of Belgium and Luxembourg Winton introduces the story of each phase of the Bulge with a theater level overview of the major decisions and events that shaped the corps battles and for the first time fully integrates the crucial role of airpower into our understanding of how events unfolded on the ground Unlike most accounts of the Ardennes that chronicle only the periods of German and American initiative Winton's study describes an intervening middle phase in which the initiative was fiercely contested by both sides and the outcome uncertain His inclusion of the principal American and German commanders adds yet another valuable layer to this rich tapestry of narrative and analysis Ultimately Winton argues that the flexibility of the corps structure and the competence of the men who commanded the six American corps that fought in the Bulge contributed significantly to the ultimate victory Chronicling the human drama of commanding large numbers of soldiers in battle he has produced an artful blend of combat narrative collective biography and institutional history that contributes significantly to the broader understanding of World War II as a whole With the recent modularization of the U S Army division which makes this command echelon a re creation of the corps of World War II Corps Commanders of the Bulge also has distinct relevance to current issues of Army transformation *The Infantry's Armor* Harry Yeide,2010-02-17 Tanks amphibian tanks and amphibian tractors in action in all theaters from Africa and Europe to the Pacific How the battalions fought the war often in the tankers own words Crystal clear maps *United States Army in WWII - Europe - the Siegfried Line Campaign* Charles B. MacDonald,2014-08-15 Includes 19 maps and 82 illustrations Some who have written of World War II in Europe have dismissed the period between 11 Sept and 16 Dec 1944 with a paragraph or two This has been their way of gaining space to tell of the whirlwind advances and more spectacular command decisions of other months The fighting during Sept Oct Nov and early Dec belonged to the small units and individual soldiers the kind of warfare which is no less difficult and essential no matter how seldom it reaches the spectacular It is always an enriching experience to write about the American soldier in adversity no less than in glittering triumph Glitter

and dash were conspicuously absent in most of the Siegfried Line fighting But whatever the period may lack in sweeping accomplishment it makes up in human drama and variety of combat actions Here is more than fighting within a fortified line Here is the Hurtgen Forest the Roer plain Aachen and the largest airborne attack of the war The period also eventually may be regarded as one of the most instructive of the entire war in Europe A company battalion or regiment fighting alone and often unaided was more the rule than the exception In nuclear war or in so called limited war in underdeveloped areas of which we hear so much today this may well be the form the fighting will assume As befits the nature of the fighting this volume is focused upon tactical operations at army level and below The story of command and decision in higher headquarters is told only when it had direct bearing on the conduct of operations in those sectors under consideration The logistics of the campaign likewise has been subordinated to the tactical narrative It is a ground story in the sense that air operations have been included only where they had direct influence upon the ground action

*Commanding Professionalism*  
William Stuart Nance, 2023-10-03

When one thinks of influential World War II military figures five star generals such as Dwight D Eisenhower and Omar Bradley instantly come to mind As important as these central figures were to the Second World War the conflict produced equally effective lower profile leaders whose influence had an undeniable impact Among these leaders are William Simpson commander of the US Ninth Army and James Moore his chief of staff Working in tandem the pair helmed a unit that gained recognition as uncommonly normal an affectionate designation driven by their steadfast professionalism in all endeavors It was their unobtrusive leadership style that relegated these career military men to the footnotes of military history *Commanding Professionalism* Simpson Moore and the Ninth US Army corrects this historical oversight by examining the achievements of these overlooked heroes Focusing on Simpson and Moore's careers from 1940 through the end of World War II author William Stuart Nance recounts the pair's working relationship Together they successfully maneuvered through the squabbling of the American and British forces and developed an army admired for its consistency of conduct and military prowess capable of resisting the complex external and political machinations of the time Simpson and Moore's unflinching devotion to the greater good and their steady handle on the dynamics of command staff relationships proved essential to the war effort and its ultimate success Their example Nance argues remains aspirational and worthy of emulation in the military command structure of today
