An examination of archaeological controversies with arguments showing evidence of prehistoric civilizations not recorded as part of human history Are history books giving us the whole story Or is civilization far more complex and older than we have been taught Our school textbooks barely mention the 6 000 year old Sumerian civilization yet the latest archaeological findings at sites such as Jericho and most recently Gobekli Tepe in Turkey have been dated to 10 000 BC Civilization goes back at least another 10 000 years if we are willing to believe what our ancestors themselves claimed The Lost Civilization Enigma reveals the truth about Lost magnitudes to known cultures such as the Bosnian Pyramids and the civilization of Old Europe The fabled lost golden cities of South America and the Amazon which are slowly being rediscovered Fascinating examples of lost technology such as the Antikythera Device Atlantis and the fact that it was a real civilization Analyzing the historical and archaeological record best selling author Philip Coppens demonstrates that there is substantial evidence that civilization is far older far more advanced and far more special than is currently accepted Clearly our history books have left out a great deal 21st Century Practical Spiritual Metaphysic Guide Book for Atheist S and Agnostics Joel

and their known achievements alone have far exceeded those of modern man's successes in many regards. In c. 2500 BC the Jaredites built a pair of concrete super highways over 2,700 miles complete with paved exits and a secondary road network nearly the entire length of the South American continent. Their civilization could answer the riddles of the Sphinx, the questions of who built the pyramids and why, the mystery and likely origin of UFO's, prove whether or not George Lucas had the only ET detail what Noah brought aboard the Ark besides three of his sons and their families, and provide an answer to the question posed to Dr. J. Robert Oppenheimer by a student as to whether Alamogordo's nuclear bomb in July 1945 was the first ever atomic bomb explosion in history. Many other possible but likely Jaredite achievements are incredibly fascinating and await only an honest archaeological effort to prove them. The historical facts exist; they are real and three-dimensional, but to date standard classical science has relegated them to the dustbin of history's forgotten basement closet. Satan has made a tremendous effort since mankind's beginning to keep man blinded to the true historical facts of our heritage, causing the deliberate destruction of millions of artifacts, scrolls, books, and their libraries throughout the world to do so. This book is but a small effort to expose and make known a portion of mankind's previously hidden but rightful heritage.

The Empires of Atlantis Marco M. Vigato, 2021-12-21. Traces the course of Atlantean civilization through its three empires as well as the colonies and outposts formed by its survivors in Egypt, Gbekli Tepe, India, Mesopotamia, the Mediterranean, and North and South America. Shows how pyramids and other megalithic monuments testify to the survival of a Sacred Science of Atlantean origin and how this Sacred Science provided the foundation for esoteric traditions and secret societies throughout the ages. Draws on more than 500 ancient and modern sources and the author's own personal exploration of hundreds of archaeological sites. Exploring more than 100,000 years of Earth's history, Marco Vigato combines recent discoveries in the fields of archaeology, geology, anthropology, and genetics with the mystery teachings of antiquity to investigate the true origins of civilization. Establishing the historical and geological reality of Atlantis stretching all the way back to 432,000 BCE, he traces the course of Atlantean civilization through its three empires, revealing how civilization rose and fell several times over this lengthy span of time. The author shows that Atlantis did not vanish in one terrible day and night but survived in a variety of different forms well into the historical era. He reveals how the first Atlantean civilization lasted from 432,000 to 35,335 BCE, the second one from 21,142 to 10,961 BCE, and the third Atlantis civilization, the one celebrated by Plato, collapsed in 9600 BCE after the Younger Dryas cataclysm. The author examines the role of Atlantean survivors in restarting civilization in different parts of the world, from Gbekli Tepe and Egypt to India, Mesopotamia, and the Americas. He personally documents their colonies and outposts around the globe, offering unique views of the colossal network of pyramids, earthen mounds, and other megalithic monuments they left behind. He shows how these monuments testify to the survival of a sacred science of Atlantean origin and documents the survival of the primeval Atlantean tradition through various secret societies into the modern era. Drawing on more than 500 ancient and modern sources and sharing never before seen photographs from

his own personal exploration of hundreds of archaeological sites around the world Vigato shows not only that Atlantis was real but that the whole world is now being called to become a New Atlantis and awaken into a new golden age

The Corpse Came Back Jonathan Gray,2008 This story unfolds like a mystery thriller the action packed true gripping account of the settling down of planet Earth AFTER THE TOTAL WORLD WIPEOUT and its effects upon human history The Corpse Came Back begins with the handful of refugees on board their survival vessel the ship of Noah and their journey into the unknown new world Of course the skeptics will have their questions such as If the Ark floated above the mountains however could they breathe in that high altitude rarified atmosphere How could the frail timid platypus have migrated to Australia from Ararat Surely marsupials must be an isolated evolutionary development since their fossils are found nowhere else Amazing scientific evidence that our biggest mountain ranges are barely 4 000 years old Was the Ice Age triggered by HEAT Why did civilization BEGIN in the mountains instead of in the easily cultivated valleys and plains Grand Canyon explorations are there really ancient Egyptian remains in off limits tunnels The strange origin of the alphabet and much more

Khachatryan,2023-08-23 Comparing human lifespans to the age of our planet we consider the Earth as some kind of constant But should we According to the Old Testament and many ancient manuscripts there were events and mythical characters that modern science can neither prove nor disprove In fact getting a scientific explanation of an event is much harder than witnessing it That is why science is way behind religion and our only hope for the future is to bridge the gap between them In this book the author explores why every generation struggles with reconciling the differences between science and religion He seeks to answer questions such as Has the Earth always rotated in the same direction Were there any shifts of the poles on Earth Was the sea level always the same Was the moon always there While there are widely accepted theories on the origin of continents oceans mountains lakes and volcanoes they all have their shortcomings In this book you'll discover a revolutionary approach that answers how our universe appeared and where we are going **Astronomical Dating of the Mahabharata War** Ekkirala Vedavyas,1986
