Tawney, with notes by E. Leumann Kathākośa, 1895 **Publications** Oriental Translation Fund, 1895 **The Hermit's Hut** Kazi K. Ashraf, 2013-10-31 The Hermit's Hut offers an original insight into the profound relationship between architecture and asceticism Although architecture continually responds to ascetic compulsions as in its frequent encounter with the question of excess and less it is typically considered separate from asceticism In contrast this innovative book explores the rich and mutual ways in which asceticism and architecture are played out in each other's practices The question of asceticism is also considered as neither a religious discourse nor a specific cultural tradition but as a perennial issue in the practice of culture The work convincingly traces the influences from early Indian asceticism to Zen Buddhism to the Japanese teahouse the latter opening the door to modern minimalism As the book's title suggests the protagonist of the narrative is the nondescript hermit's hut Relying primarily on Buddhist materials the author provides a complex narrative that stems from this simple structure showing how the significance of the hut resonates widely and how the question of dwelling is central to ascetic imagination In exploring the conjunctions of architecture and asceticism he breaks new ground by presenting ascetic practice as fundamentally an architectural project namely the fabrication of a last hut Through the conception of the last hut he looks at the ascetic challenge of arriving at the edge of civilization and its echoes in the architectural quest for minimalism The most vivid example comes from a well-known Buddhist text where the Buddha describes the ultimate ascetic moment or nirvana in cataclysmic terms using architectural

metaphors The roof rafters will be shattered the Buddha declares and the architect will no longer build the house again As the book compellingly shows the physiological and spiritual transformation of the body is deeply intertwined with the art of building The Hermit s Hut weaves together the fields of architecture anthropology religion and philosophy to offer multidisciplinary and historical insights Written in an engaging and accessible manner it will appeal to readers with diverse interests and in a variety of disciplines whether one is interested in the history of ascetic architecture in India the concept of home in ancient India or the theme of the body as building Pamphlets: Corea, the hermit nation ,1894 **Rhetoric of the Anchorhold** Liz Herbert McAvoy,2008 This title examines from a variety of perspectives the anchoritic experience during the Middle Ages
