Ancient Chinese Medical Texts On Acupuncture For Western Readers Muhammad Wolfgang G. A. Schmidt, 2016-05 The Suwen and the Lingshu form part of the Yellow Emperor's Classic of Internal Medicine with the Nanjing as a separate work complementing this classic These texts are the first known texts on Chinese acupuncture with an age of over 2000 years Regarded as ancient authoritative texts they are still held in high esteem by today's Chinese and Western acupuncturists and are mandatory texts of study in the training of Western and Chinese acupuncture physicians Western readers naturally face tremendous difficulties in accessing these original texts because of the language and cultural gap between their contemporary Western cultural background and ancient Chinese culture This edition of the Chinese texts therefore includes simplified and traditional Chinese character versions of the texts that will enable the reader to study text versions in simplified characters published on the Chinese Mainland as well as those in traditional character versions published outside the Chinese Mainland in Taiwan or Hongkong Complete Latin transcription in Hanyu Pinyin has been added to the Chinese character versions for all the texts so that the reader does not need to spend much time in looking up unknown Chinese characters in the texts A comprehensive Chinese English character and word glossary generated and compiled from the Chinese text corpus in this book is appended at the end of the book for easy reference by Western readers [A Flourishing Yin](#) Charlotte Furth, 1999-03-05 Content Description A Philip E Lilienthal book Includes bibliographical references and index

The Yellow Emperor's Classic of Medicine Maoshing Ni, 1995-05-10 The Neijing is one of the most important classics of Taoism as well as the highest authority on traditional Chinese medicine Its authorship is attributed to the great Huang Di the Yellow Emperor who reigned during the third millennium BCE This new translation consists of the eighty one chapters of the section of the Neijing known as the Suwen or Questions of Organic and Fundamental Nature The other section called the Lingshu is a technical book on acupuncture and is not included here Written in the form of a discourse between Huang Di and his ministers The Yellow Emperor's Classic of Medicine contains a wealth of knowledge including etiology physiology diagnosis therapy and prevention of disease as well as in depth investigation of such diverse subjects as ethics psychology and cosmology All of these subjects are discussed in a holistic context that says life is not fragmented as in the model provided by modern science but rather that all the pieces make up an interconnected whole By revealing the natural laws of this holistic universe the book offers much practical advice on how to promote a long happy and healthy life The original text of the Neijing presents broad concepts and is often brief with details The translator's elucidations and interpretations incorporated into the translation help not only to clarify the meaning of the text but also to make it a highly readable narrative for students as well as for everyone curious about the underlying principles of Chinese medicine

Antiquarianism, Language, and Medical Philology, 2015-01-27 Based on several research seminars the authors in this volume provide fresh perspectives of the intellectual and cultural history of East Asian medicine 1550-1800 They use new sources make new connections and re-examine old assumptions thereby interrogating whether and why European medical modernity is an appropriate standard for delineating the modern fate of East Asia's medical classics The unique importance of early modern Europe in the history of modern medicine should not be used to gloss over the equally unique and thus different developments in East Asia Each paper offers an important contribution to understanding the dynamics of East Asian medicine namely the relationship between medical texts medical practice and practitioner identity Furthermore the essays in this volume are especially valuable for directing our attention to the movement of medical texts between different polities and cultures of early modern East Asia especially China and Japan Of particular interest are the interactions similarities and differences between medical thinkers across East Asia Contributors include Susan Burns Benjamin A Elman Asaf Goldschmidt Angela KC Leung Federico Marcon MAYANAGI Makoto Fabien Simonis Daniel Trambaiolo and Mathias Vigouroux

A Book to Burn and a Book to Keep (Hidden) Zhi Li, 2016-06-07 Li Zhi's iconoclastic interpretations of history religion literature and social

relations have fascinated Chinese intellectuals for centuries His approach synthesized Confucian Buddhist and Daoist ethics and incorporated the Neo Confucian idealism of such thinkers as Wang Yangming 1472 1529 The result was a series of heretical writings that caught fire among Li Zhi s contemporaries despite an imperial ban on their publication and intrigued Chinese audiences long after his death Translated for the first time into English Li Zhi s bold challenge to established doctrines will captivate anyone curious about the origins of such subtly transgressive works as the sixteenth century play *The Peony Pavilion* or the eighteenth century novel *Dream of the Red Chamber* In *A Book to Burn* and *A Book to Keep Hidden* Li Zhi confronts accepted ideas about gender questions the true identity of history s heroes and villains and offers his own readings of Confucius Laozi and the Buddha Fond of vivid sentiment and sharp expression Li Zhi made no distinction between high and low literary genres in his literary analysis He refused to support sanctioned ideas about morality and wrote stinging social critiques Li Zhi praised scholars who risked everything to expose extortion and misrule In this sophisticated translation English speaking readers encounter the best of this heterodox intellectual s vital contribution to Chinese thought and culture
