Our Cannibals, Ourselves Priscilla L. Walton, 2010-10-01 Why does Western culture remain fascinated with and saturated by cannibalism Moving from the idea of the dangerous Other Priscilla L Walton's *Our Cannibals Ourselves* shows us how modern day cannibalism has been recaptured as in the vampire story resurrected into the human blood stream and mutated into the theory of germs through AIDS Ebola and the like At the same time it has expanded to encompass the workings of entire economic systems such as in consumer cannibalism *Our Cannibals Ourselves* is an interdisciplinary study of cannibalism in contemporary culture It demonstrates how what we take for today's ordinary culture is imaginatively and historically rooted in very powerful processes of the encounter between our own and different often threatening cultures from around the world Walton shows that the taboo on cannibalism is heavily reinforced only partly out of fear of cannibals themselves instead cannibalism is evoked in order to use fear for other purposes including the sale of fear entertainment Ranging from literature to popular journalism film television and discourses on disease *Our Cannibals Ourselves* provides an all encompassing insightful meditation on what happens to popular culture when it goes global

Catastrophe Richard A. Posner, 2004-11-11 Catastrophic risks are much greater than is commonly appreciated Collision with an asteroid runaway global warming voraciously replicating nanomachines a pandemic of gene spliced smallpox launched by bioterrorists and a world ending accident in a high energy particle accelerator are among the possible extinction events that are sufficiently

likely to warrant careful study How should we respond to events that for a variety of psychological and cultural reasons we find it hard to wrap our minds around Posner argues that realism about science and scientists innovative applications of cost benefit analysis a scientifically literate legal profession unprecedented international cooperation and a pragmatic attitude toward civil liberties are among the keys to coping effectively with the catastrophic risks **Anthrax** Philipp Sarasin,2006 Many security experts believe that the next act of widespread terrorism will likely come from a weapon of biochemical means In *Anthrax Bioterror as Fact and Fantasy* Philipp Sarasin explores the real threats of biological weapons in contrast to the idea of biological substances as nebulous agents of terror by analyzing the anthrax scares that occurred in the United States in 2001 Sarasin argues that while threats of bioterrorism are real they are disproportionate to the fantasmal fears that now permeate American politics and culture Clinton, New Terrorism and the Origins of the War on Terror Chin-Kuei Tsui,2016-07-15 A frequent assumption of the American led war on terror and its accompanying discourse originated largely with the George W Bush Administration and that there was a counterterrorism policy revolution in the U S political arena Challenging these assumptions through a genealogical analysis of U S terrorism and counterterrorism discourses this book demonstrates a distinct continuity and lack of change of U S counterterrorism policy from Ronald Reagan to Bill Clinton and through to George W Bush The book focuses on President Clinton s discursive construction of new terrorism or catastrophic terrorism and the counterterrorism practices implemented by the Clinton Administration while simultaneously comparing it with President Reagan s and President George W Bush s approaches to counterterrorism It shows how the war on terror can be traced to earlier periods and that the so called Bush revolution was largely built upon the existing framework established by President Reagan and President Clinton Prior to the 2001 terrorist attacks Clinton had expanded Reagan s first war on terrorism discourse and constructed the new terrorism discourse characterised by the notions of borderless threats home grown terrorism WMD terrorism cyberterrorism and rogue states Clinton s new terrorism discourse provided a useful framework for George W Bush to discursively respond to the terrorist attacks on September 11th 2001 Aiming to uncover the myth of President George W Bush s foreign policy revolution and contribute to a deeper historical understanding of the U S led war on terror it will be of great use to postgraduates and scholars of US foreign policy security studies and terrorism studies **The New New Journalism** Robert Boynton,2007-12-18 Forty years after Tom Wolfe Hunter S Thompson and Gay Talese launched the New Journalism movement Robert S Boynton sits down with nineteen practitioners of what he calls the New New Journalism to discuss their methods writings and careers The New New Journalists are first and foremost brilliant reporters who immerse themselves completely in their subjects Jon Krakauer accompanies a mountaineering expedition to Everest Ted Conover works for nearly a year as a prison guard Susan Orlean follows orchid fanciers to reveal an obsessive subculture few knew existed Adrian Nicole LeBlanc spends nearly a decade reporting on a family in the South Bronx And like their muckraking early twentieth century precursors they are drawn to the most pressing issues of the day Alex Kotlowitz

US Narratives of Nuclear Terrorism Since 9/11 David Seed, 2019-04-06 This study examines the US fiction and related films which makes a series of interventions in the cultural debate over the threat of nuclear terrorism It traces the beginnings of this anxiety from the 1970s which increased during the 1990s after the collapse of the Soviet Union The traumatic events of 9 11 became a major reference point for this fiction which expressed the fear that of a second and worse 9 11 The study examines narratives of conspiracies which are detected and forestalled and of others which lead to the worst of all outcomes nuclear detonations sometimes delivered by suitcase nukes In some of these narratives the very fate of the nation hangs in the balance in the face of nuclear apocalypse The discussion considers cases of attacks by electromagnetic pulse EMP cyberterrorism and even bioterrorism Some of the authors examined are present or former politicians members of the CIA and former president Bill Clinton

Invitation to Terror Frank Furedi, 2007-12-30 Frank Furedi s claim that the social attitude of the West inadvertently invites acts of terrorism is an unsettling thought but one that must be addressed in open discussion He argues that what we really need to worry about is not what terrorists do but our reaction to it

terrorism Whenever mass mediated acts of terrorism occur they tend to trigger a proliferation of threat scenarios not only in the realm of literature and film but also in the statements of policymakers security experts and journalists In the process the discursive boundary between the factual and the speculative can become difficult to discern To elucidate this phenomenon this book proposes that terror is a halfway house between the real and the imaginary For what characterizes terrorism is less the single act of violence than it is the fact that this act is perceived to be the beginning or part of a potential series and that further acts are expected to occur As turn of the century writers such as Stevenson and Conrad were the first to point out this gives terror a fantastical dimension a fact reinforced by the clandestine nature of both terrorist and counter terrorist operations Supported by contextual readings of selected texts and films from *The Dynamiter* and *The Secret Agent* through late Victorian science fiction to post 9 11 novels and cinema this study explores the complex interplay between actual incidents of political violence the surrounding discourse and fictional engagement with the issue to show how terrorism becomes an object of fantasy Drawing on research from a variety of disciplines *The Cultural Imaginary of Terrorism* will be a valuable resource for those with interests in the areas of Literature and Film Terrorism Studies Peace and Conflict Studies Trauma Studies and Cultural Studies *Public Papers of the Presidents of the United States* United States.
