The Five Horsemen of the Modern World

Daniel Callahan, 2016-05-10 In recent decades we have seen five perilous and interlocking trends dominate global discourse irreversible climate change extreme food and water shortages rising chronic illnesses and rampant obesity Why can't we make any progress in counteracting these problems despite vast expenditures of intellectual institutional and social capital What makes these global emergencies the wicked problems that resist our best efforts and only grow more daunting Daniel Callahan noted author and the nation's preeminent scholar in bioethics examines these global problems and shines a light on the institutions practices and actors that block major change We see partisan political and ideological forces old fashioned hucksters and trumped up scientific disagreements but also the problem of modern progress itself Obesity anthropogenic climate change degenerative diseases ecological degradation and global famine are often the unintended consequences of unchecked industrial growth insatiable eating habits and technologically extended life spans Only through well crafted political regulatory industrial and cultural counterstrategies can we change enough minds to check these threats With big thinking on issues that are usually evaluated separately this book is sure to scramble partisan divides and provoke unusual heated debate

The Great Famine &

Genocide in Iran Mohammad Gholi Majd, 2013-07-19 At least 8 10 million Iranians out of a population of 18 20 million died of starvation and disease during the famine of 1917 1919 The Iranian holocaust was the biggest calamity of World War I and one of the worst genocides of the 20th century yet it remained concealed for nearly a century The 2003 edition of this book relied primarily on US diplomatic records and memoirs of British officers who served in Iran in World War I but in this edition these documents have been supplemented with US military records British official sources memoirs diaries of notable Iranians and a wide array of Iranian newspaper reports In addition the demographic data has been expanded to include newly discovered US State Department documents on Iran's pre 1914 population This book also includes a new chapter with a detailed military and political history of Iran in World War I A work of enduring value Majd provides a comprehensive account of Iran's greatest calamity

Malthus Robert J. Mayhew, 2014-04-28 Though Robert Malthus has never disappeared he has been perpetually misunderstood Robert Mayhew offers at once a major reassessment of Malthus's ideas and an intellectual history of the origins of modern debates about demography resources and the environment giving historical depth to our current planetary concerns

The Intellectual Property and Food Project Charles Lawson, Jay

Sanderson,2016-03-03 The relationship between intellectual property and food affects the production and availability of food by regulating dealings in products processes innovations information and data With increasingly intricate relations between international and domestic law as well as practices and conventions intellectual property and food interact in many different ways This volume is a timely consideration and assessment of some of the more contentious and complex issues found in this relationship such as genetic technology public research and food security socio economic factors and the root cause of poverty and patent busting The contributions are from leading scholars in this emerging field and each chapter foregrounds some of the key developments in the area exploring historical doctrinal and theoretical issues in the field while at the same time developing new ideas and perspectives around intellectual property and food The collection will be a useful resource in leading further discussion and debate about intellectual property law and food *The North Korea Nuclear Crisis,*

1992-2002 C. Kenneth Quinones,2024-11-27 North Korea is one of the world s smallest and poorest nations yet it is one of only nine nations with a nuclear arsenal Its long range missiles are believed capable of reaching the United States Specialists doubt its warheads can survive re entry into the atmosphere and accurately hit a designated target but persistent effort makes this eventually likely How did this happen Thirty years ago the US and DPRK signed the Agreed Framework their first diplomatic agreement It was to keep the Korean Peninsula free of nuclear weapons Obviously it fell short Why This study seeks an answer The author was a key player in the agreement s negotiation and implementation which he recorded contemporaneously in twenty eight unpublished notebooks diaries and hundreds of photographs between 1992 and 2002 He has merged this with knowledge gleaned from official documents and other authors insights His conclusion may not be definitive but it is arguably a significant step in that direction **The Anthropocene Cookbook** Zane Cerpina,Stahl

Stenslie,2022-10-18 More than sixty speculative art and design projects explore how art food and creative thinking can prepare us for future catastrophes In the Age of the Anthropocene an era characterized by human caused climate disaster catastrophes and dystopias loom The Anthropocene Cookbook takes our planetary state of emergency as an opportunity to seize the moment to imagine constructive change and new ideas How can we survive in an age of constant environmental crises How can we thrive The Anthropocene Cookbook answers these questions by presenting a series of investigative art and design projects that explore how art food and creative thinking can prepare us for future catastrophes This cookbook of ideas rethinks our eating habits and traditions challenges our food taboos and proposes new recipes for humanity s survival These more than sixty projects propose new ways to think and make food offering tools for creative action rather than traditional recipes They imagine modifying the human body to digest cellulose turning plastic into food tasting smog extracting spices and medicines from sewage and growing meat in the lab They investigate provocative possibilities What if we made cheese using human bacteria enabled human photosynthesis through symbiosis with algae and brought back extinct species in order to eat them The projects are diverse in their creative approaches and their agendas multilayered

multifaceted hybrid and cross pollinated The Anthropocene Cookbook offers a survival guide for a future gone rogue a road map to our edible futures The Third Plate Dan Barber,2015-04-07 Not since Michael Pollan has such a powerful storyteller emerged to reform American food The Washington Post Today s optimistic farm to table food culture has a dark secret the local food movement has failed to change how we eat It has also offered a false promise for the future of food In his visionary New York Times bestselling book chef Dan Barber recently showcased on Netflix s Chef s Table offers a radical new way of thinking about food that will heal the land and taste good too Looking to the detrimental cooking of our past and the misguided dining of our present Barber points to a future third plate a new form of American eating where good farming and good food intersect Barber s The Third Plate charts a bright path forward for eaters and chefs alike daring everyone to imagine a future for our national cuisine that is as sustainable as it is delicious Finance or Food? Hilde Bjorkhaug,Philip McMichael,Bruce Muirhead,2020-01-29 Exploring the ways in which culture systems of value and ethics impact agriculture this volume addresses contemporary land questions and conditions for agricultural land management Throughout the editors and contributors consider a range of issues including pressure on farmland international and global trade relations moral and ethical questions and implications for governance The focus of Finance or Food is land use in Australia Canada and Norway chosen for their commonalities as well as their differences With reference to these specific national contexts the contributors explore political ecological and ethical debates concerning food production alternative energy and sustainability The volume argues that recognition of food finance energy and climate crises is driving investments and reframing the strategies of development agencies At the same time food producers small farmers and pastoralists facing eviction from their land are making their presence felt in this debate not just locally but in national policy arenas and international fora as well This volume investigates the many ways in which this process is occurring and draws out the cultural implications of new developments in global land use An important intervention into a timely debate Finance or Food will be essential reading for both academics and policymakers **Indigenist African Development and Related Issues** Akwasi

Asabere-Ameyaw,Jophus Anamuah-Mensah,George Sefa Dei,Kolawole Raheem,2014-07-11 There is no term so heavily contested in social science literature nomenclature than Development This book brings Indigenous perspectives to African develop ment It is argued that contrary to development as we know it not working a greater part of the problem is that conventional development approaches that work have in fact not truly been followed to the letter and hence the quagmire All this is ironic since everything we do about our world is development So how come there is difficult knowledge when it comes to learning from what we know i e what local peoples do and have done for centuries as a starting point to recon structing and reframing development In getting our heads around this paradox we are tempted to ask more questions How do we as African scholars and research ers begin to develop home grown solutions to our problems How do we pioneer new analytical systems for understanding our communities and offer a pathway to genuine African development i e Indigenist African
