The Coming Order Reflections On Sovietology And The Media Blasts S:

The Coming Order Andrei Navrozov,1991-01-01 *Beyond the New Right* John Gray,2013-09-13 John Gray is now established as one of the UK's leading political thinkers. For over a decade he has been associated with the ideas and think tanks of the New Right. In this book he presents both a criticism of the ideological excesses of New Right ideology and a radical critique of the New Right itself developed from the standpoint of traditional conservatism. All the major thinkers and themes of the New Right are examined together with many major issues of current public policy such as the growth of the underclass, the future of the welfare state and the role of government in education and culture. The author also argues that there are deep affinities between conservative ideology and Green thought. He advances radical proposals for the preservation and renewal of common life for an age in which the ideals of modernism including continuous economic growth are decreasingly viable. He expresses his conviction that conservative philosophy will find its future in dissociating itself from the neo liberalism that has lately dominated policy and returning to the task of redefining traditional values **Ibss:**

The Media and Intra-elite Communication in the USSR Lilita Dzirkals, Thane Gustafson, A. Ross Johnson, Rand Corporation,1982 This report tests basic assumptions used by Western analysts in interpreting the Soviet media by bringing to bear new information derived from emigre interviews about the structure and inner workings of Soviet media and the political mechanisms by which the media are controlled. Section II reviews the mechanism of Party and state control over Soviet media in which formal censorship in fact plays a secondary role. Section III looks at the crucial role of the chief editor and the editorial processes he presides over. Section IV analyzes types of discussions, debates and controversies in Soviet media and considers their relationship to institutional, personal and policy conflict. Appendix A contains a fuller description of the study approach. Appendix B provides a selective review of media related assumptions in a variety of Western

Sovietological writings Appendix C examines a presumptive doctored photograph incident Appendix D provides a profile of one of the seemingly unorthodox Soviet journals Literaturnaia Gazeta
