The Christian Story And The Christian School:

The Christian Story and the Christian School John Bolt, 1993 According to many observers education is in a state of crisis There is a crisis of declining academic standards a literacy crisis a moral value crisis a crisis in behavior and discipline a racial crisis a funding crisis and a teacher crisis Within this context what is the role of Christian schools and how do they accomplish their purpose In this book John Bolt develops a philosophy of Christian education based on a narrative approach After addressing critical questions about contemporary education the book examines some of the dominant themes in contemporary culture identifying the consequences of individualism secularism pluralism and paganism The study goes on to explore several Christian threats to Christian education indoctrination evangelism prophecy and excellence Additional chapters look carefully at the Christian mind and at the rediscovery of narrative Back cover The Christian Story Gabriel Fackre, 1996 An original work in systematic theology The Christian Story rises from and strives to be a resource to the life and witness of the church and its leadership In addition to covering the standard teachings of Christianity the doctrines of God creation the fall covenant Christ salvation church and consummation Volume 1 presents Fackre's introduction to systematic theology This revised third edition develops in more detail the doctrine of the Trinity takes up the issues of religious pluralism and Jewish Christian dialogue and offers a perspective on angelology New appendices discuss inclusive language and describe the surge of writing in the field of systematic theology *The Praeger Handbook of Faith-Based Schools in the United States, K-12* Thomas C. Hunt, James C. Carper, 2012-08-06 Exploring a subject that is as important as it is divisive this two volume work offers the first current definitive work on the intricacies and issues relative to America's faith based schools The Praeger Handbook of Faith Based Schools in the United States K 12 is an indispensable study at a time when American education is increasingly considered through the lenses of race ethnicity gender and social class With contributions from an impressive array of experts the two volume work provides a historical overview of faith based schooling in the United States as well as a comprehensive treatment of each current faith based school tradition in the nation The first volume examines three types of faith based schools Protestant schools Jewish schools and Evangelical Protestant homeschooling The second volume focuses on Catholic Muslim and Orthodox schools and addresses critical issues common to faith based schools among them state and federal regulation and school choice as well as ethnic cultural confessional and practical factors Perhaps most importantly for those concerned with the questions and controversies that abound in U S education the handbook grapples with outcomes of faith based schooling and with the choices parents face as they consider educational options for their children *Inside America's Christian Schools* Paul F. Parsons, 1988-06 The Master Teacher: Developing a Christ-based Philosophy of Education Brian C. Nixon, 2007 Written as a primer for Christian schools Sunday schools and church sponsored education groups The Master Teacher discusses the Biblical base for developing a philosophy of education Focusing on the foundation framework and fruit of a Christ based model The Master Teacher

discusses such topics as The Biblical philosophy of education Jesus as student Jesus as teacher Heart soul and mind frameworks Paideia the training of a child The fruit of educational endeavors The role of the Holy Spirit in education The attributes of God in relation to education The Master Teacher is a wonderful introduction for teachers administrators and pastors interested in the primary role of developing a Christ based philosophy of education **Christian Mind in the Emerging World** Peter Tze Ming Ng,Wing Tai Leung,Vaughan King Tong Mak,2018-10-31 In response to challenges from the emerging world this book brings together essays that discuss and exemplify various related approaches to academic faith integration and explore how Christian faith should underpin scaffold and frame our understanding of academic disciplines leading to practical implications for work or action in modern society and culture Written by Christian scholars and practitioners from diverse backgrounds including the USA the UK Australia China Hong Kong South Korea and the Philippines the contributions here all contribute a global perspective while addressing some specific issue or case in the context of Asia They represent ingenious endeavors that illustrate the workings of a faith integrated approach in domains as wide as higher education business science psychology and counseling politics environment media social services leadership research and technology This volume will inform and inspire the reader into cross cultural and inter disciplinary studies particularly of religion education culture society and worldview *The Christian Advocate* ,1929 *Children's Spirituality, Second Edition* Kevin E. Lawson,Scottie May,2019-06-13 The Society of Children s Spirituality Christian Perspectives launched in 2003 with its first conference held at Concordia University Chicago in River Forest Illinois An earlier edition of this book composed of chapters based on presentations from that conference was published in 2004 In 2018 a decision was made to revise this book from the inaugural conference updating some chapters and providing a new perspective on the ongoing work of the organization now called the Children s Spirituality Summit For example given the advances in what we are learning from brain research a chapter on this topic has been extensively updated What this revised volume provides is a collection of chapters offering theological perspectives social science research and insights on ministry practice about the spiritual lives of children how they relate to God how this relationship grows and what helps in promoting the spiritual formation and vitality of children in the home church and school This book offers twenty three chapters by professors graduate students social science researchers and ministry leaders from different denominational traditions addressing a wide range of issues in theory research and ministry practice with children This second edition offers much to learn from stimulate your thinking and improve your practice *Christianity and the Soul of the University* Douglas V. Henry,Michael D. Beaty,2006-04-01 Many universities founded on the principles of vigorous scholarship and steadfast Christian faith have abandoned those roots resulting in confusion fragmentation and ideological strife This book explores the role reflective Christian faith can play in unifying the intellectual life of the university Contributors including Jean Bethke Elshtain Richard Hays John Polkinghorne Joel Carpenter and David Lyle Jeffrey analyze the character and practices of an ideal Christian

intellectual community **Almost Christian** Kenda Creasy Dean, 2010-07-16 Based on the National Study of Youth and Religion the same invaluable data as its predecessor *Soul Searching: The Religious and Spiritual Lives of American Teenagers* Kenda Creasy Dean's compelling new book *Almost Christian* investigates why American teenagers are at once so positive about Christianity and at the same time so apathetic about genuine religious practice In *Soul Searching* Christian Smith and Melinda Lundquist Denton found that American teenagers have embraced a Moralistic Therapeutic Deism a hodgepodge of banal self-serving feel good beliefs that bears little resemblance to traditional Christianity But far from faulting teens Dean places the blame for this theological watering down squarely on the churches themselves Instead of proclaiming a God who calls believers to lives of love service and sacrifice churches offer instead a bargain religion easy to use easy to forget offering little and demanding less But what is to be done In order to produce ardent young Christians Dean argues churches must rediscover their sense of mission and model an understanding of being Christian as not something you do for yourself but something that calls you to share God's love in word and deed with others Dean found that the most committed young Christians shared four important traits they could tell a personal and powerful story about God they belonged to a significant faith community they exhibited a sense of vocation and they possessed a profound sense of hope Based on these findings Dean proposes an approach to Christian education that places the idea of mission at its core and offers a wealth of concrete suggestions for inspiring teens to live more authentically engaged Christian lives Persuasively and accessibly written *Almost Christian* is a wake up call no one concerned about the future of Christianity in America can afford to ignore Between Memory and Vision Steven C. Vryhof, 2004 By closely examining a variety of Protestant schools education expert Steven Vryhof uncovers the complexities subtleties and nuances of faith based education that often elude those concerned only with producing higher test scores a moral environment or a competitive workforce Through candid interviews with parents of children in faith based schools Vryhof also answers questions that other interested parents may have about the benefits of faith based education for their own children Jacket **The Bible Story Handbook** John H. Walton, Kim E. Walton, 2010-09-03 How do Sunday school teachers lead children through the stories of Cain and Abel or Judas's betrayal in a way that reflects the authority of Scripture Sunday school curricula often glosses over difficult lessons or focuses too much on characters in Bible stories neglecting God's self-revelation in Scripture John and Kim Walton have created this handbook for 175 Bible stories to assist teachers and parents in knowing what each story teaches and how to present it in a God-centered way As they work their way through the Bible the Waltons examine seven elements in each story focus theme application place in the Bible interpretational issues historical and cultural background and age group appropriateness The Bible Story Handbook includes introductory articles on why we teach the Bible right and wrong ways to use the Bible and ends with a two year teaching plan Every parent and Sunday school teacher will find this unique resource to be invaluable in teaching children to know and love God **Christ-Enlivened Student Affairs** Perry Glanzer, 2020-06-02 How does the

Christian faith inform Christian student affairs practice How should it Instead of placing Christ outside the realm of education Christ should serve as the motivating and animating force for all of Christian student affairs With Christ at the center of education the Christian story distinctly transforms the nature of the work education professionals do With research from a national mixed methods study Christ Enlivened Student Affairs avoids the common response of anecdotal evidence by providing a catalog of some of the best thinking and practices in the field Glanzer Cockle Graber and Jeong use the framework of educational philosophies to trace how Christianity animates the who why what and how of student affairs offering evidence based resources and new tools for engaging new practitioners in the field and a larger theological perspective for Christian student affairs **The Christian Treasury** ,1859 Christians as Teachers Geoffrey Beech,2015-12-04 How does teaching Christianly differ from other forms of teaching How might a Christian teach in a biblical way some commonplace set of facts from a mandated secular curriculum This book considers what a biblical approach to teaching may involve as it emerges from a biblically grounded life and what that might look like in the classroom Rather than speaking of integration of faith and learning it starts from a foundation of Christ the Truth and Lord of all and moves to the development of a framework for classroom practice that includes a need to try to see things from God s perspective All truly Christian education is seen therefore as a profoundly biblical pursuit leading to the revelation of God To do this the book explores the underlying theology and principles out of which our education should flow These principles then allow us to examine such areas as the consideration of a Christian way to teach subjects such as geography and mathematics or even what might be distinctive about the way a Christian teacher may do something as mundane as picking up a pencil
