**Children's Homes** Peter Higginbotham,2017-07-30 What image does the word orphanage conjure up in your mind A sunny scene of carefree children at play in the grounds of a large ivy clad house Or a forbidding grey edifice whose cowering inmates were ruled over with a rod of iron by a stern starched matron In Children s Homes Peter Higginbotham explores the history of the institutions in Britain that were used as a substitute for childrens natural homes From the Tudor times to the present day this fascinating book answers questions such as Who founded and ran all

these institutions Who paid for them Where have they all gone And what was life like for their inmates Illustrated throughout Children s Homes provides an essential previously overlooked account of the history of these British institutions Moving from Residential Institutions to Community-based Social Services in Central and Eastern Europe and the Former Soviet Union David Tobis,2000 One of the most harmful costly and intractable legacies of the command economies of Central and Eastern Europe and the former Soviet Union is the reliance on residential institutions for the care of children the elderly and the people with disabilities As a result there are almost no community based alternatives to care for large and growing numbers of vulnerable individuals Other industrial nations have experienced similar periods of economic and social upheaval and also relied on residential institutions to care for vulnerable and marginalized groups However most of these nations have switched from residential care to community based social services The question for the countries of Central and Eastern Europe and the former Soviet Union is how they can make the same transition Moving from Residential Institutions to Community Based Social Services in Central and Eastern Europe and the Former Soviet Union examines the use of residential institutions for vulnerable groups past and present and proposes strategies for the future The study focuses on five countries Albania Armenia Latvia Lithuania and Romania where the World Bank is helping develop community based social services to reduce the reliance on residential institutions **Sisters in Spirit** Maureen Ursenbach Beecher,Lavina Fielding Anderson,1987 This book of essays about Mormon women all written and edited by scholars who are themselves Mormon women is a brave and important work Readers will fully appreciate just how brave and important it really is however if they can see how this work of historical theology fits into the history of historical writing about Mormon women as well as how it fits into Mormon history itself The women who contributed to this book are among the best of the Mormon literati they hold that there is hope within the church for change for reform for expansion of the place of women Women s Review of Books Historians of women in America have a great deal to learn from the history of Mormon women This fine set of essays provides an excellent introduction to a subject about which we should all know more Anne Firor Scott author of Making the Invisible Woman Visible **Child Welfare** Child Welfare League of America,1962 Indigenous Water and Drought Management in a Changing World Miguel Sioui,2022-05-19 Indigenous Water and Drought Management in a Changing World presents a series of global case studies that examine how different Indigenous groups are dealing with various water management challenges and finding creative and culturally specific ways of developing solutions to these challenges With contributions from Indigenous and non Indigenous academics scientists and water management experts this volume provides an overview of key water management challenges specific to Indigenous peoples proposes possible policy solutions both at the international and national levels and outlines culturally relevant tools for assessing vulnerability and building capacity In recent decades global climate change particularly drought has brought about additional water management challenges especially in drought prone regions where increasing average temperatures and diminishing

precipitation are leading to water crises Because their livelihoods are often dependent on the land and water Indigenous groups native to those regions have direct insights into the localized impacts of global environmental change and are increasingly developing their own adaptation and mitigation strategies and solutions based on local Indigenous knowledge IK Many Indigenous groups around the globe are also faced with mounting pressure from extractive industries like mining and forestry which further threaten their water resources The various cases presented in Indigenous Water and Drought Management in a Changing World provide much needed insights into the particular issues faced by Indigenous peoples in preserving their water resources as well as actionable information that can inform future scientific research and policymaking aimed at developing more integrated region specific and culturally relevant solutions to these critical challenges Includes diverse case studies from around the world Provides cutting edge perspectives about Indigenous peoples water management issues and IK based solutions Presents maps for most case studies along with a summary box to conclude each chapter      *Women of the ...
