The Clash Of Ideas Essays In Honour Of Patrick Lynch:

The Clash of Ideas Miriam Hederman,1988 *The Anthropology of Europe* Cris Shore,Victoria A. Goddard,Josep R. Llobera,2021-01-07 This is the first study of Europe post 1989 from an anthropological perspective Thirteen distinguished authors examine the social cultural and political implications of European integration with particular emphasis on changing European identities concepts of citizenship and levels of participation Their aim is to suggest an agenda for future research capable of addressing developing trends in contemporary Europe The book is divided into two parts The first deals with major theoretical issues that have characterized the anthropological study of Europe and includes a detailed introductory chapter which charts the history of anthropology in Europe and considers the prospects for an anthropology of Europe This is followed by key themes in the study of European society and culture including kinship gender nationalism immigration and changing patterns of production The second section develops these themes further using different theoretical perspectives to explain complex issues such as nationalism ethnic identities and sectarian conflicts Nine case studies cover a wide range of contemporary topics including European integration and Irish nationalism the transmission of ethnic identity and identity and conflict in the former Yugoslavia and post colonial Gibraltar This book fills a gap in the literature on European integration and will be of interest to anthropologists and sociologists as well as students of Political Science Communications and European Studies [Charlie Vs Garret](#) Eoin O'Malley,2025-09-18 The two opposing political figures that shaped Irish life in the 1980s and beyond In the 1980s Irish politics was dominated by a fierce rivalry between Charles J Haughey and Dr Garret FitzGerald both leaders of their respective parties Fianna Fil and Fine Gael Between them they each led all Irish governments in that decade to say their two opposing personalities shaped Irish life during this era is an understatement Eoin O Malley has amassed an extraordinary body of research including in depth interviews with dozens of the most consequential public figures of the time every Taoiseach cabinet ministers TDs civil servants and advisers As political rivals with different approaches to public life and contrasting visions for Ireland each enshrined in quite different personalities the choice between Haughey and FitzGerald came to signify a great deal more than party loyalty or policy preference it felt like a choice between opposing worldviews And as O Malley s work finally makes clear through an accumulation of extraordinary insights including interviews with Haughey and FitzGerald themselves it was fed by a deep reservoir of personal insecurity and paranoia Each was deeply preoccupied obsessed even with the strengths appeal and threats of the other to the extent that this rivalry itself became one of the decisive factors in Irish life that shaped Ireland well after they had left power

The Power of Economists within the State Johan Christensen,2017-04-11 The spread of market oriented reforms has been one of the major political and economic trends of the late twentieth and early twenty first centuries Governments have to varying degrees adopted policies that have led to deregulation the liberalization of trade the privatization of state entities and low rate broad base taxes Yet some countries embraced these policies more than others Johan Christensen examines one

major contributor to this disparity the entrenchment of U S trained neoclassical economists in political institutions the world over While previous studies have highlighted the role of political parties and production regimes Christensen uses comparative case studies of New Zealand Ireland Norway and Denmark to show how the influence of economists affected the extent to which each nation adopted market oriented tax policies He finds that in countries where economic experts held powerful positions neoclassical economics broke through with greater force Drawing on revealing interviews with 80 policy elites he examines the specific ways in which economists shaped reforms relying on an activist approach to policymaking and the perceived utility of their science to drive change *The Quest for Modern Ireland* Bryan Fanning, 2008 Bryan Fanning brings to life the battle of ideas and intellectual debates that shaped modern Ireland The quest depicted here was one by Irish civil servants clerics economists historians poets politicians sociologists and writers to understand and face up to social economic and political dilemmas Though often presented as such this was never a Manichean battle between authoritarians and liberals conservatives and progressives or between religiosity and secularism The Quest for Modern Ireland offers a unique and nuanced insight into Irish social cultural economic and political development through its focus on the debates fostered by five influential periodicals In *The Crane Bag* poets and philosophers led by Richard Kearney placed what he called the Irish mind on the couch in an effort to make sense of the Northern conflict In *The Bell* Sean O Faolain rallied liberal writers against the national myths that seemed to obscure everyday reality In *Christus Rex* Catholic conservatives pursued a modern Ireland of their choosing through dominance of the social sciences Studies fostered a long running engagement between liberalism and Catholicism ignored within standard accounts of Irish modernisation This saw bishops quoting F A Hayek and economists citing papal encyclicals It saw John Maynard Keynes argue the case for Irish economic nationalism and Patrick Lynch make the case for state led planning In Administration civil servants wrestled with the new myths of Irish manifest destiny set in train by T K Whitaker's *Economic Development* Fanning's approach of allowing the original voices to breathe to let them make their own case on their own terms injects fresh life into the study of the Irish twentieth century His achievement is to explain and bring together the preoccupations of the two sundered academic worlds of Irish Studies and Irish Social Science in a landmark study of the intellectual politics of Irish nation building Book jacket

A History of Irish Economic Thought Thomas Boylan, Renee Prendergast, John Turner, 2013-03 For a country that can boast a distinguished tradition of political economy from Sir William Petty through Swift Berkeley Hutcheson Burke and Cantillon through to that of Longfield Cairnes Bastable Edgeworth Geary and Gorman it is surprising that no systematic study of Irish political economy has been undertaken In this book the contributors redress this glaring omission in the history of political economy for the first time providing an overview of developments in Irish political economy from the seventeenth to the twentieth century Logistically this is achieved through the provision of individual contributions from a group of recognized experts both Irish and international who address the contribution of major historical figures in Irish political

economy along the analysis of major thematic issues schools of thought and major policy debates within the Irish context over this extended period Ireland in International Affairs Ben Tonra,Eilís Ward,2002 **Tuairim, intellectual debate and policy formulation: Rethinking Ireland, 1954-75** Tomas Finn,2018-02-28 The 1950s and 1960s were a transformative phase in modern Irish history In these years a conservative society dominated by the Catholic Church and a state which was inward looking and distrustful of novelty gradually opened up to fresh ideas This book considers this change It explores how the intellectual movement Tuairim opinion in Irish was at the vanguard of the challenge to orthodoxy and conservatism Tuairim contributed to debates on issues as diverse as Northern Ireland the economy politics education childcare and censorship The society established branches throughout Ireland including Belfast and in London It produced frequent critical publications and boasted a membership that included the future Taoiseach Dr Garret FitzGerald Tuairim occupied a unique position within contemporary debates on Ireland s present and future This book is concerned with its role in the modernisation of Ireland In so doing it also addresses topics of continued relevance for the Ireland of today including the Northern Ireland Peace Process and the institutional care of children Cities, Class and Communication Asa Briggs,1990 **Modern Irish Democracy** Ronald J. Hill,Michael Marsh (Ph. D.),1993 This collection of essays by leading Irish political scientists examines various aspects of the development of modern Irish democracy from the origins and even pre history of independent Ireland through particular experiences of nation building the establishment of modern institutions and procedures for democratic expression and the elaboration of new problems in the context of a changing economic and international environment **The Shadow Economy, Corruption and Governance** Michael Pickhardt,Edward Shinnick,2008 This title provides insights into the correlation and links between institutions shadow economy and corruption Irish Publishing Record ,1989 Études irlandaises ,1994 Whitaker's Book List ,1988 Politics in the Republic of Ireland John Coakley,1993 **The Cases of Greece, Spain, Ireland and Portugal** Economic and Social Research Institute,1997 International Books in Print ,1991 **Social Policy in Ireland** Seán Healy,Brigid Reynolds,1998 In this volume 29 Irish social policy commentators contribute to chapters ranging across the social policy spectrum Some chapters examine issues of principle some analyze practice and others analyze specific policy problems Etudes Irlandaises ,1972 **AB Bookman's Weekly** ,1993
