History Paul F. Bandia, Georges L. Bastin, 2006-07-28 Over the last 30 years there has been a substantial increase in the study

of the history of translation Both well known and lesser known specialists in translation studies have worked tirelessly to give the history of translation its rightful place Clearly progress has been made and the history of translation has become a viable independent research area This book aims at claiming such autonomy for the field with a renewed vigour It seeks to explore issues related to methodology as well as a variety of discourses on history with a view to laying the groundwork for new avenues new models new methods It aspires to challenge existing theoretical and ideological frameworks It looks toward the future of history It is an attempt to address shortcomings that have prevented translation history from reaching its full disciplinary potential From microhistory archaeology periodization to issues of subjectivity and postmodernism methodological lacunae are being filled Contributors to this volume go far beyond the text to uncover the role translation has played in many different times and settings such as Europe Africa Latin America the Middle East and Asia from the 6th century to the 20th These contributions which deal variously with the discourses on methodology and history recast the discipline of translation history in a new light and pave the way to the future of research and teaching in the field Published in English

Poetics of Self and Form in Keats and Shelley Mark Sandy, 2017-03-02 Beginning with a reassessment of contemporary romantic studies this book provides a modern critical comparison of Keats and Shelley The study offers detailed close readings of a variety of literary genres including the romance lyric elegy and literary fragment adopted by Keats and Shelley to explore their poetic treatment of self and form The poetic careers of Keats and Shelley embrace a tragic

affirmation of those darker elements latent in the earlier writings to meditate on their own posthumous reception and reputation Fresh readings of Keats and Shelley show how they conceive of the self as fictional and anticipate Nietzsche s modern theories of subjectivity Nietzsche s conception of the subject as a site of conflicting fictions usefully measures this emergent sense of poetic self and form in Keats and Shelley This Nietzschean perspective enriches our appreciation of the considerable artistic achievement of these two significant second generation romantic poets *Rock Retrospectives* Ray Lowry,2007-09 **SPIN** ,2000-03 From the concert stage to the dressing room from the recording studio to the digital realm SPIN surveys the modern musical landscape and the culture around it with authoritative reporting provocative interviews and a discerning critical ear With dynamic photography bold graphic design and informed irreverence the pages of SPIN pulsate with the energy of today s most innovative sounds Whether covering what s new or what s next SPIN is your monthly VIP pass to all that rocks
