Lazarus F.M. Bonevento, 2017-07-27 Two thousand years ago a body lay lifeless tightly bound in a dark cave It rested in this tomb for four days until a friend called the dead man from death into life It sounds like a hoax but it was a miracle witnessed by many people The man restored to life was Lazarus of Bethany The man who called him back was Jesus of Nazareth At the time of Lazarus's rebirth Jesus was in conflict with the Jewish leaders of his day The resurrection of Lazarus at the hands of Jesus made him a man certain Jewish leaders wanted to suppress In fact the resurrection of Lazarus set in motion the events that would eventually lead to the Jesus's execution With a second chance at life everything changed for Lazarus He fled to escape death and began to live a life dedicated to teaching the words of Jesus This is the story of two dear friends and the lives they touched In it we encounter historical figures saints soldiers ordinary people and miracles woven into a tale that has touched Christians for centuries It is the fictional account of Lazarus a man only briefly seen in the Gospel of John

The Arma Christi in Medieval and Early Modern Material Culture Lisa H. Cooper, Andrea Denny-Brown, 2016-12-05 The Arma Christi the cluster of objects associated with Christ's Passion was one of the most familiar iconographic devices of European medieval and early modern culture From the weapons used to torment and sacrifice the body of Christ sprang a reliquary tradition that produced active and contemplative devotional practices complex literary narratives intense lyric poems striking visual images and innovative architectural ornament This collection displays the fascinating range of intellectual possibilities generated by representations of these medieval objects and through the interdisciplinary collaboration of its contributors produces a fresh view of the multiple intersections of the spiritual and the material in the Middle Ages and Renaissance It also includes a new and authoritative critical edition of the Middle English Arma Christi poem known as O Vernicle that takes account of all twenty surviving manuscripts The book opens with a substantial introduction that surveys previous scholarship and situates the Arma in their historical and aesthetic contexts The ten essays that follow explore representative examples of the instruments of the Passion across a broad swath of history from some of their earliest formulations in late antiquity to their reformulations in early modern Europe Together they offer the first large scale attempt to understand the arma Christi as a unique cultural phenomenon of its own one that resonated across centuries in multiple languages genres and media The

collection directs particular attention to this array of implements as an example of the potency afforded material objects in medieval and early modern culture from the glittering nails of the Old English poem *Elene* to the coins of the Middle English poem *Sir Penny* from garments and dice on Irish tomb sculptures to lanterns and ladders in Hieronymus Bosch's panel painting of St Christopher and from the altar of the Sistine Chapel to the printed prayer books of the Reformation
