The Cold War Anthropology Culture And Society Hardcover:

Anthropology at the Dawn of the Cold War Dustin M. Wax, 2008-01-20 Examines the influence of McCarthyism and the CIA on anthropology in the cold war era **Rational Fog** M. Susan Lindee, 2020-09-15 A thought provoking examination of the intersections of knowledge and violence and the quandaries and costs of modern technoscientific warfare Science and violence converge in modern warfare While the finest minds of the twentieth century have improved human life they have also produced human injury They engineered radar developed electronic computers and helped mass produce penicillin all in the context of military mobilization Scientists also developed chemical weapons atomic bombs and psychological warfare strategies Rational Fog explores the quandary of scientific and technological productivity in an era of perpetual war Science is at its foundation an international endeavor oriented toward advancing human welfare At the same time it has been nationalistic and militaristic in times of crisis and conflict As our weapons have become more powerful scientists have struggled to reconcile these tensions engaging in heated debates over the problems inherent in exploiting science for military purposes M Susan Lindee examines this interplay between science and state violence and takes stock of researchers efforts to respond Many scientists who wanted to distance their work from killing have found it difficult and have succumbed to the exigencies of war Indeed Lindee notes that scientists who otherwise oppose violence have sometimes been swept up in the spirit of militarism when war breaks out From the first uses of the gun to the mass production of DDT and the twenty first century battlefield of the mind the science of war has achieved remarkable things at great human cost Rational Fog reminds us that for scientists and for us all moral costs sometimes mount alongside technological and scientific advances Shaping the Future on Haida Gwaii Joseph Weiss, 2018-09-01 Colonialism in settler societies such as Canada depends on a certain understanding of the relationship between time and Indigenous peoples Too often these peoples have been portrayed as being without a future destined either to disappear or assimilate into settler society This book asserts quite the opposite Indigenous peoples are not in any sense out of time in our contemporary world Shaping the Future on Haida Gwaii shows how Indigenous peoples in Canada not only continue to have a future but are at work building many different futures for themselves and for their non Indigenous neighbours Through the experiences of the Haida First Nation this book explores these possible futures in detail demonstrating how Haida ways of thinking about time mobility and political leadership are at the heart of contemporary strategies for addressing the dilemmas that come with life under settler colonialism From the threat of ecological crisis to the assertion of sovereign rights and authority Weiss shows that the Haida people consistently turn towards their possible futures in order to work out how to live in and transform the present **The American Scholar** William Allison Shimer, 1992 *Contemporary Studies in Environmental and Indigenous Pedagogies* Andrejs Kulnieks, Dan Roronhiakewen Longboat, Young Young, 2013-06-13 Contemporary Studies in Environmental and Indigenous Pedagogies A Curricula of Stories and Place Our book is a compilation of the work of experienced educational researchers and

practitioners all of whom currently work in educational settings across North America Contributors bring to this discussion an enriched view of diverse ecological perspectives regarding when and how contemporary environmental and Indigenous curriculum figures into the experiences of curricular theories and practices This work brings together theorists that inform a cultural ecological analysis of the environmental crisis by exploring the ways in which language informs ways of knowing and being as they outline how metaphor plays a major role in human relationships with natural and reconstructed environments This book will be of interest to educational researchers and practitioners who will find the text important for envisioning education as an endeavour that situates learning in relation to and informed by an Indigenous Environmental Studies and Eco justice Education frameworks This integrated collection of theory and practice of environmental and Indigenous education is an essential tool for researchers graduate and undergraduate students in faculties of education environmental studies social studies multicultural education curriculum theory and methods global and comparative education and women s studies Moreover this work documents methods of developing ways of implementing Indigenous and Environmental Studies in classrooms and local communities through a framework that espouses an eco ethical consciousness The proposed book is unique in that it offers a wide variety of perspectives inviting the reader to engage in a broader conversation about the multiple dimensions of the relationship between ecology language culture and education in relation to the cultural roots of the environmental crisis that brings into focus the local and global commons language and identity and environmental justice through pedagogical approaches by faculty across North America who are actively teaching and researching in this burgeoning field

Toxic Sexual Politics Melina Packer, 2025-01-28 A bold expos of how the very foundation of toxicology has been contaminated by sexist and racist ideologies The first critical understanding of the field of toxicology from a feminist and antiracist perspective *Toxic Sexual Politics* asserts that the science of toxicants must be held accountable for the uneven distribution of toxic pollution along racial and sexual lines Drawing upon in depth interviews and extensive ethnographic and archival research including participant observations in toxicology classrooms conferences and laboratories Melina Packer urges environmental health advocates to place toxicant science within its masculinist militarist and eugenicist history *Toxic Sexual Politics* shows how the founding fathers of U S toxicology were ideologically aligned with the chemical industry inventing a science that could make chemicals safe as opposed to one that could adequately protect planetary health from toxicants hazards While many toxicologists today are critical of the chemical industry they continue to rely on the highly limited tools of toxicology as accurate measures of toxicity as do government regulators the courts and environmental advocates Unlike most critiques of the chemical industry and narratives of environmental health movements *Toxic Sexual Politics* refuses to take the science at face value By focusing on the sexist racist and ableist biases reinforced by toxicology Packer powerfully argues that this scientific discipline reproduces the very same white supremacist and heterosexist logics that generated environmental injustices in the first place The field of toxicology can explicitly confront chemical corporate

power by building from queer feminist anti ableist and antiracist movements for environmental and reproductive justice

Drumbeat John Martino,2021-05-03 As the twenty first century unfolds society is confronted with the normalization of warfare and political violence and their growing allure for the young Current global political events highlight the extent to which young people have become the target of both State and non State actors in the prosecution of war and terror The conduct of what we can refer to as social war has increasingly come to target the young through media social media the internet and video games and more directly through acts of violence the massacre of children the reliance on child soldiers and the use of children in martyrdom operations as legitimate forms of conduct The appropriation of the young as political and military materials through the processes of both radicalization and militarization warrants close examination Drumbeat examines these issues within the context of the ongoing process of militarization and the establishment of a state of perpetual warfare The book distinguishes between radicalization which refers to the application of propaganda and ideological methods by non State agents and militarization which refers to the application of propaganda and ideological methods by State agents in order to effectively prosecute war The focus of this book will be an examination of the mechanisms through which forms of media and other digital and web based artefacts social media video and video games assist in the militarization and radicalization of the young There is a growing body of evidence which points to the effectiveness of various forms of media in both the recruitment of young people and the promotion of ideological frames For example non State actors extremist religious groups and the Alt Right have been highly effective in appropriating new media to project their propaganda messages and their appeal to young people The book also argues that militarization has become a powerful societal force which is re configuring the daily conduct of life in the West Just as radicalization seeks to prepare the young for the conduct of war militarization also functions to position the broader society for war This is a new form of the civilizing process to which Norbert Elias referred In this context new media provides the conduits through which this process is legitimized celebrated and promulgated **British Book News** British Council,1988 Includes no 53a British wartime books for young people **Reimagining Political Ecology** Aletta Biersack,James B. Greenberg,2006-11-22 A collection of ethnographies grounded in second generation political ecology which focuses on the interchanges between nature and culture and the local and the global *Against the Anthropological Grain* Wilcomb E. Washburn,1998 In *Against the Anthropological Grain* Washburn critically examines key anthropological beliefs especially in the importance of cultural relativism and Western colonialism s harmful effects on Third World cultures He turns the tables on theorists from the discipline He questions whether anthropology has a credible past whether anthropologists should even involve themselves in inter tribal conflicts whether museums should return sacred objects from their collections and whether museums provide adequate physical care of their collections The Nation ,2004 Moral Panics in the Contemporary World Julian Petley,Chas Critcher,Jason Hughes,Amanda Rohloff,2016-05-19 *Moral Panics in the Contemporary World* represents the best

current theoretical and empirical work on the topic taken from the international conference on moral panics held at Brunel University The range of contributors from established scholars to emerging ones in the field and from a working journalist as well helps to cover a wide range of moral panics both old and new and extend the geographical scope of moral panic analysis to previously underrepresented areas Designed from the outset to comprise a coherent and integrated set of viewpoints which share a common engagement with critically exploring moral panics in the contemporary world it contains case studies instantly recognisable and familiar to a student readership drugs alcohol sexual abuse and racism The collection brings a fresh approach to analysis and argument by testing and extending the concept of moral panic and analyzing a range of topics and geographical contexts accurately reflecting the state of the art moral panics research today **New Statesman** ,2004

Forthcoming Books Rose Army,2003 **British Book News** ,1988 *On Our Own Terms* Sarah Foss,2022-11-22 During the Cold War U S intervention in Latin American politics economics and society grew in scope and complexity with diplomatic legacies evident in today s hemispheric policies Development became a key form of intervention as government officials and experts from the United States and Latin America believed that development could foster hemispheric solidarity and security In parts of Latin America its implementation was especially intricate because recipients of these programs were diverse Indigenous peoples with their own politics economics and cultures Contrary to project planners expectations Indigenous beneficiaries were not passive recipients but actively engaged with development interventions and in the process redefined racialized ideas about Indigeneity Sarah Foss illustrates how this process transpired in Cold War Guatemala spanning democratic revolution military coups and genocidal civil war Drawing on previously unused sources such as oral histories anthropologists field notes military records municipal and personal archives and a private photograph collection Foss analyzes the uses and consequences of development and its relationship to ideas about race from multiple perspectives emphasizing its historical significance as a form of intervention during the Cold War **Anthropology & Archeology of Eurasia** ,2003 **The British National Bibliography** Arthur James Wells,2005 **Unequal Treatment** Institute of Medicine,Board on Health Sciences Policy,Committee on Understanding and Eliminating Racial and Ethnic Disparities in Health Care,2009-02-06 Racial and ethnic disparities in health care are known to reflect access to care and other issues that arise from differing socioeconomic conditions There is however increasing evidence that even after such differences are accounted for race and ethnicity remain significant predictors of the quality of health care received In *Unequal Treatment* a panel of experts documents this evidence and explores how persons of color experience the health care environment The book examines how disparities in treatment may arise in health care systems and looks at aspects of the clinical encounter that may contribute to such disparities Patients and providers attitudes expectations and behavior are analyzed How to intervene *Unequal Treatment* offers recommendations for improvements in medical care financing allocation of care availability of language translation community based care and other arenas The committee highlights the potential of cross

cultural education to improve provider patient communication and offers a detailed look at how to integrate cross cultural learning within the health professions The book concludes with recommendations for data collection and research initiatives Unequal Treatment will be vitally important to health care policymakers administrators providers educators and students as well as advocates for people of color

Educational Psychology Barry J. Zimmerman, Dale H. Schunk, 2014-08-13

Educational Psychology A Century of Contributions the first comprehensive book length treatment of this topic looks at the historic contributions of 16 leading psychologists as well as others who influenced the field of educational psychology from its philosophical moorings in the late 19th century to its current scientific status at the dawn of the 21st It presents information regarding these individuals ideas and scientific discoveries along with a sense of the historical context in which they lived The book is divided into three sections that correspond to three eras in the history of the discipline the founding period 1880s to 1920 the rise to prominence period 1920 to 1960 and the modern period 1960 to the present Each section begins with an overview chapter describing the period in terms of key social political and historical events affecting educational theory research and practice In addition the overview chapters discuss major theoretical methodological and instructional contributions of the period and how they changed the course of educational psychology The biographical chapters describe the scholar s major contribution in terms of theory research and practice and his or her legacy and impact These descriptions portray these individuals as real human beings responding to historical events and social influences of their time in personal and collective ways that changed the nature and direction of the field **Educational Psychology A Century of Contributions** is a cohesive collection appropriate for graduate and advanced undergraduate students in educational psychology
