Volume II. Crime and Suicide: Early mapping of detours and moving backward** Marina Bluvshstein (Ed.), 2017-04-13 This volume is the second in a series entitled Found in Translation It follows the first volume Somatic Vocabulary Early Contributions to Organ Jargon This book is a compilation of articles originally published in the Russian journal Psychotherapy and the Austrian Internationale Zeitschrift für Individual Psychologie International journal of individual psychology between November-December 1910 and the second half of 1937 The theme is crime and suicide and the articles were authored by German Austrian French and Russian psychiatrists psychologists and educators who were to various degrees influenced by Alfred Adler's Individual Psychology The articles reflect the emerging theory of Individual Psychology and its active view on social issues from educational reforms to parenting and family functioning to criminal justice system Individual Psychological approach to human nature as essentially relational is palpable in all articles and readers will be able to watch how this concept has become more mature and active with time between 1910s and 1930s Adler's concept of Social Interest and his idea of person's unique self-consistent creative and purposeful strategy in dealing with life challenges are considered in many theoretical discussions and case studies included in this book The book is illustrated with original works of art allowing its

readers to attend to artistic reflections on the major theme of the book as well as on specific cases      *Doing Psychiatry Wrong* René J. Muller, 2013-03-01 The prospect that the psychiatric profession has hurt rather than helped many of its patients is incredibly disheartening however wrong diagnoses and improper treatment are all too common errors within the field Author Ren Muller presents a revealing look into how psychiatry has failed a great majority of patients all the while recognizing the valiant efforts made by psychiatrists who maintain their integrity and serve their patients well The result is an enlightening critique of the profession one that pits criticism of psychiatry's current biological reduction and exaggerated promises against the accumulated wisdom of a profession that has struggled for a century and a half to understand and help those with mental illness      *On Emerging from Hyper-Nation* Ronald W. Sousa, 2015-04-15 On Emerging from Hyper Nation represents Ronald W Sousa's attempt to answer the question Why do I smile on reading one of Saramago's historical novels Why that reaction of emotional release To answer the smile question the book engages in a critical mode that could be described as discourse analysis It combines several critical strains and relies on basic concepts from Freudian and Lacanian psychoanalysis Adlerian psychology and contemporary cognitive psychology for their discourse analytical value rather than as entries into psychoanalytical reading per se The introductory chapter presents some of the concepts that underlie that compound analytical modality and sets out an overview of twentieth century Portuguese social and economic history Then with an eye to answering the smile question the book reads Nobel Laureate Jos Saramago's three novels Baltasar and Blimunda 1982 The Year of the Death of Ricardo Reis 1984 and The History of the Siege of Lisbon 1989 Or better it seeks to read Sousa's own reading of the three works since focus falls on how each novel seeks to construct both its own reading and also Sousa as its reader The discussion brings to light a number of textual phenomena that bear upon the smile question Among them are that the novels invoke often subtly the fascist hermeneutical heritage remaining from before the revolution of 1974 as a constituent part of their communication with the reader that they summon up historical trauma that they function as Freudian style tendentious jokes and that through these various invocations they seek to constitute a postrevolutionary Portuguese subject The reading of Sousa's reading then ends up being a reading of some of the cultural forces at work in postrevolutionary Portugal      **Books in Print** ,2004
