Cusack,2019-10-17 This volume depicts the struggle of birds for freedom an endeavour similarly experienced by women in the United States and other regions of the globe It is a prolific study of how creatures interact psychosocially Sometimes birds inspire humanity and at other times humans desecrate birds They may interweave seamlessly or may experience indirect and direct conflicts Their needs overlap and may be satisfied and explored compassionately through analytical lenses including those of feminism anthropomorphism and animal rights They share platforms including art the male gaze and discussions about capture and oppression In this work both are presented as equally adept to survival on Earth In this capacity the book is novel and fresh In spite of contradictions such as preserving some birds at zoos while causing others to fight for sport birds overall will continue to cause humans to thrive develop and take off and by experiencing their lives through this book humans who share the birds spiritual and spatial realms will develop a keener sense of environmental care and how to make cruelty free choices This book s range is profound and includes original research on diverse areas depicting Martin Luther King Big Bird the presidents celebrities and other notable sources of leadership It also considers influential zoos and several preservation sites In all it is a well founded work that demonstrates care in research and argument **Fat, Stressed, and Sick** Katherine Reid,Barbara Price,2023-09-18 Presents the scientific evidence that glutamate aka MSG in processed food contributes to a suite of preventable inflammatory diseases Fat Stressed and Sick makes the case that processed food compromises health not just because of added sugar salt and fat but also because these foods contain significant amounts of glutamate aka MSG MSG makes food deliciously addicting What was not well known until described here is that most of the MSG in processed food is created during food manufacturing As the authors show food processing of protein alone adds 10 grams or more a day of MSG to the average American diet a statistic that may surprise you The book details the research linking dietary glutamate to a suite of inflammatory diseases obesity diabetes autism addiction

depression and cancer to name a few Understanding the role of MSG in disease became the quest of author and biochemist Katherine Reid when she learned that her young daughter's autism symptoms were associated with inflammation of the brain Reid made the connection between inflammation and glutamate in the diet a connection amply supported by other studies A deep dive into food manufacturing patents and FDA regulations revealed that in addition to industry practices that create MSG during food processing MSG is also found in ingredients labeled hydrolyzed protein yeast extract and even natural flavors misleading labels that disguise a food's true MSG content In what became an experiment in her home kitchen Reid examined every ingredient on every food label removing all items with MSG and replacing them with whole foods The results were swift and undeniable Reid's discovery that what one ate mattered was the start of a program of food based solutions to chronic inflammatory illnesses through which now a decade later she has helped thousands of people The idea that large amounts glutamate in the diet jeopardizes health is supported by decades of research despite efforts by the glutamate industry to discredit the scientific evidence that MSG poses a risk Some would have you believe the science is settled It is not This book explains the science behind why we crave the MSG in processed food why it is hidden how it is making us sick and what we can do about it     **Don't Eat This Book** Morgan Spurlock,2006-05-02 Don't eat this groundbreaking hilarious book but if you care about your country's health your children's and your own you better read it For thirty days Morgan Spurlock ate nothing but McDonald's as part of an investigation into the effects of fast food on American health The resulting documentary earned him an Academy Award nomination and broke box office records worldwide But there's more to the story and in Don't Eat This Book Spurlock examines everything from school lunch programs and the marketing of fast food to the decline of physical education He looks at why fast food is so tasty cheap and ultimately seductive and interviews experts from surgeons general and kids to marketing gurus and lawmakers who share their research and opinions on what we can do to offset a health crisis of supersized proportions     **Patents, Profits & Power** Curtis W. Cook,2002 The wealth of many of today's businesses comprises the collective knowledge and innovation of their employees and leaders In the global economy innovation has become as valuable as gold Consequently intellectual property protection has become the focus of considerable legal and regulatory attention at both an international and national level Theft piracy and infringements on IP can be revealed at every level from the state to the individual Patents Profits and Power examines the less desirable players on the world stage why they choose to defy the law and how the rest of the world is responding The book also examines how the internet is changing the rules of intellectual property protection It is packed with international case studies and examples to illustrate the impact of the internet on the development control and protection of valuable ideas products and services This title will prove an invaluable reference source for anyone who is involved in protecting intellectual property     **Flat Water** **Tuesday** Ron Irwin,2024-05-01 All you ever wanted to know about the world of competitive rowing is contained in the pages of Ron Irwin's new novel J M Coetzee Nobel Prize winning author The son of a working class cabinet maker Rob Carrey

arrives on the prestigious Fenton School's campus with a scholarship to row and a chip on his shoulder. Generations of austere Fenton men have led the four-man rowing team, commonly known as the God Four, to countless victories, but none more important or renowned than the annual Tuesday afternoon race in April against their rival boarding school, Warwick. Before boats can be launched, Rob must complete months of grueling preparation, driven by their captain, Connor Payne, a vicious competitive nature. Payne is a young man so plagued by family pressure and unwillingness to lose that the lines between dedication and obsession are increasingly blurred. As the Warwick race nears, the stakes steadfastly rise, and tempers and lusts culminate until finally no one can prevent the horrible tragedy that ensues. Now fifteen years later, Rob is an accomplished documentary filmmaker. Returning home from a recent shoot in Africa, he arrives in New York City to clear out his shared apartment and end his heartbreaking relationship with his film editor and girlfriend, Carolyn. But when a phone call from one of the God Four compels him to attend the fifteen-year reunion at Fenton, Rob sees the invitation as an opportunity to confront the past and perhaps even steer his own life in a new direction.

**Museum of Murder** by Leslie Langtry, 2024-04-23. From *USA Today*: bestselling author Leslie Langtry comes an epic murder mystery ten years in the making. Welcome to the Museum of Murder, who knew that the town of Who's There was the murder capital of Iowa. And its new Museum of Murder is a hit. Though Ex-CIA spy turned Girl Scout leader Merry Wrath is less than happy that she's featured in the exhibits. Besides its quirky and somewhat disturbing charm and a gift shop with questionable practices, everyone wants to know who's behind Who's There's hottest attraction. Some speculate it's hometown boy Sheldon McBride, a reclusive ultra-wealthy inventor of ethanol-fueled cars, drones, and rumor has it, a flock of robot turkeys. Be careful, or you might become the next exhibit. This weird new museum should be nothing but harmless fun, that is, until a killer recreates copycat murders among the exhibits. As usual, chaos follows as Merry's troop wants to hand out rotting shark snacks for their Thinking Day booth on Iceland. The dreaded annual cookie sales are coming up. Future Spy of America, Betty, has a boyfriend, and Merry becomes an aunt for the first time when her twin sisters-in-law finally have their baby boys. Unfortunately, the addition of the new infant citizens isn't enough to save Who's There from a population drop as the killer goes on a spree. Merry has no time to lose to catch a killer before she becomes an exhibit of her own. Permanently. What critics are saying about Leslie Langtry's books: I laughed so hard I cried on multiple occasions. Girl Scouts, the CIA, and the Yakuza: what could possibly go wrong?
