Barri Flowers, 2001-06-30 This concise and accessible new text examines the correlations between runaway children and teenage prostitution in the United States from a criminological sociological and psychological perspective The author takes a systematic approach to defining and describing the differences between youth who run away from home and those who leave institutional settings and distinguishes the difference between runaway and throwaway children A careful examination of teenage prostitution among girls and boys helps to illuminate the special problems faced by children who have run away In addition the author discusses laws related to runaways teenage prostitution and the sexual exploitation of minors as well as the criminal justice response to the problems Runaways and prostitution involving youth in other countries is also explored The text s findings support current conclusions on the characteristics of runaways the relationship between

behaviour as part of their everyday lives **Liberalism and Prostitution** Peter de Marneffe, 2012-04-01 Civil libertarians characterize prostitution as a victimless crime and argue that it ought to be legalized Feminist critics counter that prostitution is not victimless since it harms the people who do it Civil libertarians respond that most women freely choose to do this work and that it is paternalistic for the government to limit a person's liberty for her own good In this book Peter de Marneffe argues that although most prostitution is voluntary paternalistic prostitution laws in some form are nonetheless morally justifiable If prostitution is commonly harmful in the way that feminist critics maintain then this argument for prostitution laws is not objectionably moralistic and some prostitution laws violate no one s rights Paternalistic prostitution laws in some form are therefore consistent with the fundamental principles of contemporary liberalism Acts of Jack the Ripper and Other True Tales of Serial Murder and Prostitutes R. thread that runs throughout decision making in these areas a constant balancing act between regulation that purports to protect women and regulation that supposedly reflects female liberation with a continual dance between the labels of criminal and victim being performed by policy actors Largely reflective of a dogmatic approach to the status of women it is argued that different institutions retain strongholds over policymaking in these domains prohibiting a joined up approach This has served to perpetuate harmful and negative stereotyping of women s issues and create countless conundrums when the activities of women fall into more than one policy category Sex Crimes, Predators, Perpetrators, Prostitutes, and Victims Ronald Barri Flowers, 2001 The purpose of this book is to bridge the gap of existing works on sexual criminality examine the relevant issues and dimensions of sex crimes criminals and victims and shed new light on the study and implications of sex related criminal behavior The intended audience includes the academic and professional community in the disciplines of criminology sociology sexology criminal justice social science psychology psychiatry penology medicine human sciences child sexual abuse child welfare women s studies and victimology It is also recommended reading for sex crime survivors and intelligent laypersons with an interest in sexual criminality and its implications for the individual and society **BOOK JACKET** 21st Century Criminology: A Reference Handbook J. Contemporary American Politics and Society Robert Singh,2003-02-24 For those who still believe that politics is normally naturally about economics Rob Singh has gathered the evidence and dialed the wake up call seven major instances of an ongoing culture war meet a common analytic framework here in a lively and informative fashion Byron E Shafer University of Wisconsin Sex Crimes Ronald Barri Flowers,2006 This book provides an examination of sexual criminality its nature characteristics dimensions and ramifications in American society The book is addressing both recognized and little known sex crimes the magnitude of such crimes sex offenders and victims theories on sexual criminality and sex criminals and the criminal justice system Subject Guide to Books in Print ,1991 Children's Rights Jude L. Fernando,2001-05 The ratification of the Convention on the Rights of the Child CRC by a majority of the International Labor Organization s member states technically affirms that children are born with fundamental freedoms and the inherent rights of all human beings This should mark the 21st century as a century of hope for those children whose fundamental rights are violated

across the world There is however widespread concern that in spite of some successes in enlisting broad based societal commitments to safeguard children's rights there exists neither a universal consensus on the meaning and very concept of children's rights nor sufficient reasons for us to be content with the current status of children's rights worldwide. The widening of the gap between expectations and achievements in the area of human rights raises a fundamental issue how comfortably does our commitment to children's rights fit with our convictions about social justice. Violation of children's rights multiplies at an alarming rate pointing to the wholesale failure of policies programs interventions and conventions designed to curb them. On the positive side however the present trends in the debate and advocacy around children's rights have great potential not only for improving the status of children Child centered demands for distributive justice have a much greater potential in terms of the possibility of building an intercultural consensus as compared to similar demands by other social groups. The 11 articles in this volume of The Annals seek to address some of the dominant themes in the current debate over children's rights in order to facilitate new paradigms and directions that could be effective in responding to this most important issue. This issue of The Annals deals with the various topics crucial in the discussion of children's rights around the world.
