that have survived the holocaust in Watson s new novel have largely transformed themselves from prewar violence into a peaceful utopia without either conflict or art In place of belief in a religious afterlife the old and ailing accept euthanasia at Houses of Death where priestlike guides counsel them One of these guides is Jim Todhunter who pursues research into the nature of death despite official censure When he is assigned to guide that rarity in the new world a murderer he finds a natural ally in the obsessive Nathan Weinberger himself an ex guide As usual with Watson the initial impression of a green and pleasant land is revealed to be only one facet of a more complex and disturbing reality *The Book of Being* Ian Watson,2011-09-29 The megalomaniac Godmind is still planning to use all the minds in creation to make a vast lens and if necessary it will burn out all life in the process Back beside the river and literally born again Yaeen represents to the guild of riverwomen the perfect proof of salvation of life after death In fact she is desperately searching for a way to save the whole universe from imminent destruction **The Fire Worm** Ian Watson,2011-09-29 Psychiatrist John Cunningham is secretly

also Jack Cannon author of popular horror novels Under hypnotic regression John s patient Tony reveals a bizarre and horrifying tale of a past life lived on Tyneside in the 1950s involving two schoolboys and a weird creature with paranormal powers lurking in caves beneath Tynemouth Castle As John regresses Tony through earlier lives as far back as the 14th century it begins to seem that the local legend captured in folksong of a malevolent Lambton Worm may have had a basis in fact that it was in fact the salamander of alchemical belief summoned by an alchemist known as Raymond Lully and possibly still locked below Tynemouth Castle And while John Cunningham is exploring Tony s multiple personalities he begins to experience personality problems of his own as Jack Cannon beings to assert his own individuality *The Gardens of Delight*

Ian Watson,2011-09-29 In *The Gardens of Delight* Ian Watson boldly lands a starship within the hallucinatory terrain of Hieronymus Bosch's painting *The Garden of Earthly Delights* a medieval masterpiece which enchants and horrifies all who see it for the picture shows what looks to be a paradise of pleasure yet it also displays a terrible hell of torments And so the ship's psychologist Sean Athlone and two women companions explore the luxurious landscape of giant fruits and birds and strange towers and naked celebrating people in quest of the godlike alien intelligence that has transformed a planet according to Bosch's vision populating it with the colonists from a previous starship

Salvage Rites: And Other Stories

Ian Watson,2011-09-29 Ian Watson's latest collection shows the same range and apparently inexhaustible fund of ideas that have characterized all his previous books No other contemporary figure in SF is so prolific or inventive a writer of short stories In the title story we immediately encounter a phantasmagoric vision of a society increasingly dependent on recycling its usable material other brilliant inventions include a planet inhabited by lemur like aliens who bafflingly produce marvellously finished stone carvings without apparently having the tools to do so *The Moon* and Michelangelo people fighting their way through the various levels of what appears to be a real life version of a computer adventure game *Jewels in an Angel's Wing* and a zoo in which are caged the extensions into our universe of four dimensional hyperbeings *Hyperzoo* And that is only the beginning there are fifteen stories in all each one a state of the art example of short science fiction at its finest

The Very Slow Time Machine

Ian Watson,2011-09-29 *The Very Slow Time Machine* arrives on earth in 1985 Its sole inhabitant is old and mad Soon it becomes apparent that for him time is going slowly backward With every day he is getting younger and saner The world and its whole concept of time science and philosophy must wait for him to speak But while the world waits it changes

Meat

Ian Watson,2011-09-29 When Saul and Diane save a wild rabbit from a hungry weasel in a quiet country lane they inadvertently unleash the vengeance of a bloodthirsty carnivorous force Soon their sanity and their lives are at risk as are the young people of a cell of the Animal Liberation Front with whom they join forces to learn the terrible secrets of their rural village A visit to a battery chicken shed turns into an animal Auschwitz where Saul is held prisoner And a raid on a butcher's shop brings to murderous life a full size model of the meatman which armed with a butcher's cleaver goes hunting for blood and MEAT

The Great Escape

Ian Watson,2011-09-29 Predictably unpredictable normally abnormal Watson combines science fiction and fantasy into an eclectic mix that includes stories about fallen angels in Hell rebelling and mounting a breakout about the inconvenience of keeping aging parents in your brain instead of a nursing home about Jesus immortal brother as solo passenger on the first starship about alien coffins bombarding the solar system about right wing U S militias stealing a quantum computer to commit nuclear blackmail about a computer games designer haunted by the cyber ghost of his murdered wife about frozen heads and strange mind changes and how a cake decorator defeats a vampire with a sweet tooth De evolution treasure hunting via hang glider dark animal fantasies humanity as hive entity Hercules Poirot on a starship Watson takes the strange the eerie the weird mixes his seasoned writing skills

and produces a potpourri of the fantastic These nineteen stories are sure to amuse bemuse and entertain *Queenmagic, Kingmagic* Ian Watson, 2011-09-29 In another world somewhere in space and time two countries Bellogard and Chorny are locked in perpetual war conducted by magic Each of the main members of the two countries courts king queen prince bishop knight and squire has their own form of magic and special ways of moving magically A war may continue for centuries until one side succeeds in killing the other side s king at which point the whole world vanishes only to reappear and have the cycle begin again Pedino is a young Bellogardian who becomes the queen s squire and as part of his training is sent into a seedier part of the city to uncover a Chornian spy During his adventures he meets and falls in love with a whore Sara who turns out to be a Chornian bishop s squire Pedino succeeds in killing the other Chornian bishop a remarkable achievement for a mere squire but in the manoeuvres which follow Chorny proves to have outwitted its rival and Pedino s whole world is threatened with extinction There have been many stories modelled on chess games but none so ingenious and enjoyable as Ian Watson s latest novel And as one would expect from Watson the story of Bellogard and Chorny is only the beginning When Pedino and Sara manage to escape the destruction of their universe they find themselves in a series of even more bizarre worlds operating under still stranger rules as they seek to discover the purpose of their existence and the meaning of their universe

Queenmagic Kingmagic is Ian Watson in sparkling exuberant form *Converts* Ian Watson, 2011-09-29 He is a financial giant but the Sponsor wants more he wants to become a super human to be the modern day Adam father to a new generation of humans with heightened DNA He had the viral injection to change himself the will to do it and now all he needs is an Eve to join him on his journey He thinks he s found the perfect match in Jean Sandra Norwich a woman convinced she is trapped between the genes of her mother and daughter The Sponsor offers her freedom and so much more the chance to be the mother of all Superbeings But she will get more than she bargained for *CONVERTS* is a masterpiece of science fiction and Ian Watson has superbly reworked Ovid s *METAMORPHOSES* to create an extraordinary futuristic tale *Miracle Visitors* Ian Watson, 2011-09-29 John Deacon uses hypnosis to research altered states of consciousness One of his subjects Michael Peacocke is unusually susceptible and in their first session together he recalls a Close Encounter which took place some years before Deacon is sceptical of UFOs and dismisses Peacocke s story as an adolescent sexual fantasy But then inexplicable things happen the tape of the session is mysteriously erased Deacon s dog is killed he and Michael see a pterodactyl Michael s girlfriend is menaced by Men in Black and Deacon is forced to reconsider Could UFOs be symbols projected from the collective unconscious Are they messages from the biomatrix Does the mind have the ability to project tulpas objects and people which are physically real yet somehow illusory ***The Flies of Memory*** Ian Watson, 2011-09-29 Charles Spark is an expert on body language a bestselling author and a consultant or walking lie detector much in demand with industry and government So when the aliens arrive who better to join the team that will attempt to understand them But even though these insectoid aliens the Flies in their pyramid ship speak both English and Russian they seem unreadable We

have come to your planet to remember it they say and at first they seem indeed to be a bizarre group of intergalactic tourists When human beings start to interfere things begin disappearing The Dome of St Peter s in Rome is the first to go followed by downtown Prague old Mombasa M nich the heart of New Orleans In an effort to understand what has happened Spark and a strange group of pilgrims embark on a bizarre journey to Mars where the city of M nich has reappeared in a canyon And where time and memory have become manifest **Sunstroke: And Other Stories** Ian Watson,2011-09-29 This second collection of Watson s short stories further demonstrates his seemingly inexhaustible imagination In The Thousand Cuts the entire human race finds its consciousness blanked out for varying periods but life seems somehow to have gone on in the missing days and indeed previously intractable problems have moved towards a solution In Sunstroke a doctor blinded accidentally during the voyage to a seemingly benign new world becomes gradually aware of disturbing changes afflicting her sighted companions These stories and many others confirm Watson s place in the forefront of contemporary SF writers

The Embedding Ian Watson,2011-09-29 Ian Watson s brilliant debut novel was one of the most significant publications in British SF in the 1970s Intellectually bracing and grippingly written it is the story of three experiments in linguistics and is driven by a searching analysis of the nature of communication Deep in the Brazilian jungle an isolated tribe face eviction from their ancestral lands and the psychedelic fungus that makes their religious language possible In a British laboratory a brilliant linguist conducts cutting edge experiments but does his search for answers come at too high a cost And in the ultimate test of linguistics First Contact presents a challenge unlike any humanity has faced before Fiercely intelligent energetic and challenging The Embedding immediately established Watson as a writer of rare power and vision and is now recognized as a modern classic of SF **The Martian Inca** Ian Watson,2011-09-29 The Mars Probe has crashed A triumph of Soviet technology the first two way interplanetary probe performed brilliantly until the final stage of its return Then something went wrong rather than following its programmed course to a soft landing in its country of origin the probe crashed in the Peruvian Andes Now a weird infection beyond the understanding of medical science has wiped out an entire village except for one man who alone and undiscovered by medics survives He has awakened to find himself become his own ancestor and a god Suddenly the flames of an Indian revolution are spreading South America he is the Martian Inca
