**The Coming Storm ... Called, Tribulation—Book One** Dr. Douglas M. Lane, 2012-05-11 Storm Clouds As darkness approached the young lady senior at the University of Alabama looked out at the ominous clouds forming across the horizon All evening news reports had warned of possible tornado activity As the clouds grew darker Chelsey and her friends found that safest place as some call the inner hallway in her apartment They told jokes to keep from showing their fear and they waited On campus and off students and townspeople waited and watched some even prayed As the storm bore down on the sleepy university town family groups and student groups alike found themselves huddled into whatever safest place could be found One group of students found themselves crowded into an inner hallway Laughing to cover their anxiety they even convinced a couple of friends to get into a small linen closet to make room for others in the hallway The lights flickered and went off In the small linen closet the darkness was exceeded only by the deafening noise and fierce violent shaking How can a few minutes last so long The friends in the closet finally managed to uncover their ears shaking themselves as they searched for the doorknob They could see nothing as their minds tried to process all that had just happened Their ark of safety had served them well They opened the door Indeed they had unknowingly been inside an ark of safety Their friends had crowded down next to the ark But next to the ark is not the same as being in the ark Stunned into disbelief they looked their friends were

**Ethics for the Coming Storm** Laurie Zoloth, 2023 How can we come to understand our existence on this earth surrounded by air and light and water while living in a place we deliberately and carelessly abuse where resources are becoming scarce and where the well being and basic health of our neighbors is threatened In Ethics for the Coming Storm Laurie Zoloth argues that our debates about environmental issues have largely been driven by the language of economics and political power and have become both deeply divisive and symbolic turning our differing truth claims and moral appeals into signs of identity This discourse has utterly failed to change the human behavior or political and economic structures necessary to face global warming head on So Zoloth turns to another language

found in the texts and traditions of Jewish thought the language of Scripture the Talmud and philosophy of Judaism which she contends offers a different kind of argument for such a change In fact Zoloth claims the traditions histories and texts of Jewish thought address precisely the sort of existential crisis that we now face and thus deepen and enrich our public discourse about what to do and who to be This book uses a careful attention to rabbinic and philosophical sources in Jewish thought to provide a novel framework through which we can reassess the choices we make that affect our climate our environment and our social structures

The Coming Storm Bob Reiss, 2021-07-26 The prescient book that first linked specific weather disasters with man made global warming now in its second edition The most readable and intelligent summary of global warming science and politics I have read a valiant effort to make people actually care about global warming Bill McKibben New York Observer What Bob Reiss did to elevate our awareness of the destruction of the rain forest in The Road to Extrema he has now done for global warming Reiss bypasses political rhetoric and engages us in storytelling showing us how the greenhouse effect is changing our lives person by person community by community nation by nation Terry Tempest Williams author of Leap and Refuge and winner of the John Muir Award and the Robert Marshall Award From massive waves in the Maldives to tornadoes over Tennessee from the halls of Congress to the hard disks of scientists Bob Reiss has taken climate change and made it personal The Coming Storm is the layman s guide to global warming fair urgent and deeply unsettling Ted Conover winner of the National Book Critics Circle Award for Newjack With a storyteller s gifts Bob Reiss shows how a series of freakish and colossally destructive weather events awakened scientists politicians and ordinary people to the momentous stakes of a changing climate a compelling narrative of the people and events that have shaped this ever more urgent debate Eugene Linden author of The Future in Plain Sight and The Parrot s Lament Free of unnecessary scientific jargon and filled with the human and political dimensions of this story this book reads like a mystery novel where you already know the terrifying outcome Adding a new preface by the author this edition brings back to life the compelling account of the link between climate and weather disasters

**Herman Melville's Malcolm Letter** Hennig Cohen, Donald Yannella, 1992 The Malcolm Letter was written by Melville in 1849 on the birth of his son This letter is one of thirty six to be retrieved since the publication of The Letters of Herman Melville 1960 and has earned a place in the New York Public Library s Gansevoort Lansing Collection Addressed to Melville s brother the letter entices critics to read it on several levels It reveals Melville s serious consideration of his own father s influence on his upbringing as he anticipates undertaking the role of father himself It is not a literary work but a deeply personal outpouring distinguished by dark underpinnings barely hidden by his light hearted tone In a bit of dramatic irony Melville reflects on the responsibility looming ahead of him as the reader notes the tragedy that Melville cannot possibly foresee his son Malcolm s suicide eighteen years later Cohen s and Yannella s careful study relives for the reader this and other events which shaped the clannish Melville family history They also show how the author s struggle with these pressures are manifested in his writing This volume is
