Betty R. Scharf, 2024-02-29 First published in 1970 The Sociological Study of Religion distinguishes the sociological from the philosophical or theological approach to religion It reviews the major theories relating to religious practice to social structure and analyzes the social functions of religion The contributions of Durkheim Marx Freud Troeltsch and Weber are examined from this point of view also the contribution of social anthropology and the studies of religion in industrial societies This book is a must read for students of sociology and religion All My Life A. E. Smith, 1977 **Encyclopedia of Religion** Jones Lindsay, 2005 Social Theory and Christian Thought Werner Stark, 2014-08-07 Almost all the great religious thinkers of the past have developed a social as well as theological doctrine but their sociology was as a rule merely implicit in their work or at best half formulated so that careful study and analysis is needed to bring it out This is the task which Dr Stark has set himself in the present essays He has searched the writings of St Augustine Paschal Newman and Kierkegaard for the sociological ideas they contain and shows that their social philosophies were varied profound fascinating and surprisingly definite Dr Stark seeks the theological conceptions present in and basic to the teachings of some outstanding secular sociologists economists and philosophers such as Adam Smith Kant Hegel Marx the Darwinians Bergson Scheler and Meinecke and proves that their systems were built around a religious centre even though they themselves were at times unaware of it *Religion in Communist Dominated Areas*, 1979 Translations of articles from various publications The Defender Magazine, 1961 **Publications Relating to Various Aspects of Communism**, 1962 **World Marxist Review**, 1969
