Hamilton, 2005-11-01 The present volume seeks

to identify the underlying code of meanings about the Israelite king operating in various ways in texts and other artifacts surviving from the culture The focus is upon the living body of the king its anatomical characteristics its constitution through ritual and the conventions concerning its proper self display by the king This study combines careful linguistic and historical critical analysis of the texts considered both biblical and ancient Near Eastern the latter used comparatively where appropriate with a critical use of contemporary approaches to the study of signs in language objects and movements semiotics in general and the study of the body in particular This book argues that the royal psalms contain a set of officially sanctioned notions about the royal body and its use The king was thought to have an outsized superhuman body owing to his being the son of the deity a status he attained upon his coronation Other texts often from circles outside the royal court significantly altered these notions The king's body was thus for ancient Israelites the locus of reflection on power gender religion and even international relations Through careful historical analysis it is possible to reconstruct the terms of an Iron Age intellectual inquiry that still influences our contemporary world On Art in the Ancient Near East Volume I Irene Winter, 2009-11-10 This volume of collected essays brings together for the first time the range of Winter's pioneering studies related to Neo Assyrian relief sculpture and seals Phoenician and Syrian ivory and bronze production and inter polity connections across the various cultures of first millennium B C E from the Aegean to Iran Consistent threads are an emphasis on the potential for art historical analysis to yield history in the broadest sense the importance of making the theoretical frame of interpretation explicit and the necessity of textual evidence being brought to bear upon elements of formal analysis and archaeological context These beautifully produced volumes bring together essays written over a 35 year period creating a whole that is much more than the sum of its parts No library should be without this impressive collection J C Exum
