The City Of Bath:

The City of Bath Official Guide Book. [With Photographs and Maps.], 1961 Architects, Angels, Activists and the City of Bath, 1765-1965 Cynthia Imogen Hammond, 2012 Approaching the past as both historian and artist Cynthia Imogen Hammond documents how women across classes shaped the built environment of one of England's most architecturally significant cities Architects Angels Activists and the City of Bath 1765 1965 Engaging with Women's Spatial Interventions in Buildings and Landscape documents Hammond's own creative spatial interventions in the city through which she brings the history of women to the foreground of Bath's urban image "Architects, Angels, Activists and the City of Bath, 1765-1965" Cynthia Imogen Hammond, 2017-07-05 A unique contribution to the architectural and social history of Bath Architects Angels Activists and the City of Bath 1765 1965 Engaging with Women's Spatial Interventions in Buildings and Landscape approaches the past with the methods of the architectural historian and the site specific interventions of the contemporary artist Looking beyond and behind Bath's strategic marshalling of its past Cynthia Imogen Hammond presents the ways in which women across classes shaped the built environment and designed landscapes of one of England's most architecturally significant cities This study argues that Bath's efforts to preserve itself as an idealized Georgian town reveal an aesthetics of exclusion Jane Austen may be well known but the role of historic women in the creation of this city has had minimal treatment within the city's collective public memory This book is an intervention into this memory the author uses site specific works of public art as strategic counterparts to her historical readings Through them she aims to transform as well as critique the urban image of Bath At once a performative literature an extensively researched history and an alternative guide to the city Architects Angels Activists engages with current struggles over urban signification in Bath and beyond

Peach John Britton, 1887 The Image of Georgian Bath 1700-2000 Peter Borsay, 2000-07-06 This interdisciplinary study explores the evolution structure and uses of the image of Georgian Bath from its genesis in the eighteenth century to its renaissance in the twentieth century In recent decades there has been both a popular resurgence of interest in heritage and tradition and a growing academic awareness of the power of imagery in shaping the lives of individuals and societies There is perhaps no city in Britain so saturated in history and layered with historic imagery as Bath It therefore provides an ideal case study to investigate the dynamic fusion and impact of the forces of past and representation The dominant perception of Bath today is that of a classical and particularly Georgian city In this stimulating and scholarly study Peter Borsay examines the

construction and development of this image Its principal components biography and architecture are explored together with the media through which it was constructed and transmitted as well as its commercial social political and psychological uses Dr Borsay concludes by relating the findings for Bath to current debates on towns heritage and the nature of history
