**Places of Learning** Elizabeth Ellsworth,2005-02-01 This book takes a close look at places of learning located outside of schools yet deeply concerned with the experience of the learning self It explores what it might mean to think of pedagogy not in relation to knowledge as a thing made but to knowledge in the making **David Lynch**

**Swerves** Martha P. Nochimson,2013-04-15 Beginning with Lost Highway director David Lynch swerved in a new direction one in which very disorienting images of the physical world take center stage in his films Seeking to understand this unusual emphasis in his work noted Lynch scholar Martha Nochimson engaged Lynch in a long conversation of unprecedented openness during which he shared his vision of the physical world as an uncertain place that masks important universal realities He described how he derives this vision from the Holy Vedas of the Hindu religion as well as from his layman s fascination with modern physics With this deep insight Nochimson forges a startlingly original template for analyzing Lynch s later films the seemingly unlikely combination of the spiritual landscape envisioned in the Holy Vedas and the material landscape evoked by quantum mechanics and relativity In David Lynch Swerves Nochimson navigates the complexities of Lost Highway The Straight Story Mulholland Drive and Inland Empire with uncanny skill shedding light on the beauty of their organic compositions their thematic critiques of the immense dangers of modern materialism and their hopeful conceptions of human potential She concludes with excerpts from the wide ranging interview in which Lynch discussed his vision with her as well as an interview with Columbia University physicist David Albert who was one of Nochimson s principal tutors in the discipline of quantum physics **Society in the Self** Hubert J. M. Hermans,2018-03-09 Instead of considering society as a

social environment Society in the Self begins from the assumption that society works in the deepest regions of self and identity as expressed in phenomena like self sabotage self radicalization self cure self government self nationalization and self internationalization This leads to the central thesis that a democratic society can only function properly if it is populated by participants with a democratically organized self In this book an integrative model is presented that is inspired by three versions of democracy cosmopolitan deliberative and agonistic democracy with the latter focusing on the role of social power and emotions Drawing on these democratic views three levels of inclusiveness are distinguished in the self personal I as an individual social I as a member of a group and global I as a human being A democratic self requires the flexibility of moving up and down across these levels of inclusiveness and has to find its way in fields of tension between the self and the other and between dialogue and social power As author Hubert Hermans explains this theory has far reaching consequences for such divergent topics as leadership in the self cultural diversity in the self the relationship between reason and emotion self empathy cooperation and competition between self parts and the role of social power in prejudice enemy image construction and scapegoating The central message of this book is reflected in Mahatma Gandhi s dictum Be the change you want to see in the world **Google and the Culture of Search** Ken Hillis,Michael Petit,Kylie Jarrett,2013 Google and the Culture of

Search examines the role of search technologies in shaping the contemporary digital and informational landscape Ken Hillis and Michael Petit shed light on a culture of search in which our increasing reliance on search engines like Google Yahoo and Bing influences the way we navigate Web content and how we think about ourselves and the world around us online and off Even as it becomes the number one internet activity the very ubiquity of search technology naturalizes it as utilitarian and transparent an assumption that Hillis and Petit explode in this innovative study Commercial search engines supply an infrastructure that impacts the way we locate prioritize classify and archive information on the Web and as these search functionalities continue to make their way into our lives through mobile GPS based platforms and personalized results distinctions between the virtual and the real collapse Google a multibillion dollar global corporation holds the balance of power among search providers and the biases and individuating tendencies of its search algorithm undeniably shape our collective experience of the internet and our assumptions about the location and value of information Google and the Culture of Search explores what is at stake for an increasingly networked culture in which search technology is a site of knowledge and power This comprehensive study of search technology s broader implications for knowledge production and social relations is an indispensable resource for students and scholars of Internet and new media studies the digital humanities and information technology Provided by publisher Kafka: A Guide for the Perplexed Clayton Koelb,2010-08-19 Student guide to Franz Kafka focusing on giving guidance through the difficulties readers can encounter in studying his work *Franz Kafka, The Jewish Patient* Sander Gilman,2023-01-06 This is the first book about Kafka that uses the writer s medical records Gillman explores the relation of the body to cultural myths and brings a unique and fascinating perspective to Kafka s life and writings **Narratives of Low Countries History and Culture** Jane Fenoulhet,Lesley Gilbert,Ulrich Tiedau,2016-11-07 This edited collection explores the ways in which our understanding of the past in Dutch history and culture can be rethought to consider not only how it forms part of the present but how it can relate also to the future Divided into three parts The Uses of Myth and History The Past as Illumination of Cultural Context and Historiography in Focus this book seeks to demonstrate the importance of the past by investigating the transmission of culture and its transformations It reflects on the history of historiography and looks critically at the products of the historiographic process such as Dutch and Afrikaans literary history The chapters cover a range of disciplines and approaches some authors offer a broad view of a particular period such as Jonathan Israel s contribution on myth and history in the ideological politics of the Dutch Golden Age while others zoom in on specific genres texts or historical moments such as Benjamin Schmidt s study of the doolhof a word that today means labyrinth but once described a 17th century educational amusement park This volume enlightening and home to multiple paths of enquiry leading in different directions is an excellent example of what a past present doolhof might look like **The Dao of Being Jewish and Other Stories** Irene Shaland,2023-01-16 This book is a collection of Jewish survival stories and fascinating tales This is not a conventional travel guide this book will shine a light on the history of 10 Jewish communities in

Europe Asia and Africa Together with the author you will visit incredible places and meet the Jews of today GTA Books Two and a half millennia ago a small party of Jews explored new trading routes for King Solomon settled in the south of India and lived there peacefully until today Similarly during the ancient Roman period many Jewish merchants traveled to China over the Silk Route and some made it their permanent home Also before the Edict of Expulsion in 1492 Sicily was home to over 50 Jewish communities possibly numbering 50 000 people So how did the Diaspora bring these wandering Jews to so many places around the globe And why did Jews live happily in India and China for centuries and not experience antisemitism while the story of the Jews in Europe went from persecution and massacres to unspeakable horrors of the Holocaust Finally why do we see the rise of antisemitism and violence again in the 21st century You will find answers to these questions and much more in the current edition of Irene Shaland s artfully illustrated book *The Dao of Being Jewish and Other Stories* She collected these fascinating stories while visiting ten countries in Europe Asia and Africa and interviewing the locals in their homes synagogues and even cemeteries Now Irene Shaland s book replete with her husband s photos takes you on your own exciting journey of discovery from Austria and the Czech Republic to Scandinavia from India and China to Sicily and Sardinia and from East Africa to Stalinist Russia

*Prague Palimpsest* Alfred Thomas, 2010-10-15 A city of immense literary mystique Prague has inspired writers across the centuries with its beauty cosmopolitanism and tragic history Envisioning the ancient city in central Europe as a multilayered text or palimpsest that has been constantly revised and rewritten from the medieval and Renaissance chroniclers who legitimized the city s foundational origins to the modernists of the early twentieth century who established its reputation as the new capital of the avant garde Alfred Thomas argues that Prague has become a paradoxical site of inscription and effacement of memory and forgetting a utopian link to the prewar and pre Holocaust European past and a dystopia of totalitarian amnesia Considering a wide range of writers including the city s most famous son Franz Kafka *Prague Palimpsest* reassesses the work of poets and novelists such as Bohumil Hrabal Milan Kundera Gustav Meyrink Jan Neruda V t zslav Nezval and Rainer Maria Rilke and engages with other famous authors who wrote Prague including Guillaume Apollinaire Ingeborg Bachmann Albert Camus Paul Celan and W G Sebald The result is a comparative interdisciplinary study that helps to explain why Prague more than any other major European city has haunted the cultural and political imagination of the West

**Decades of Crisis** Ivan T. Berend, 2023-11-15 Only by understanding Central and Eastern Europe s turbulent history during the first half of the twentieth century can we hope to make sense of the conflicts and crises that have followed World War II and after that the collapse of Soviet controlled state socialism Ivan Berend looks closely at the fateful decades preceding World War II and at twelve countries whose absence from the roster of major players was enough in itself he says to precipitate much of the turmoil As waves of modernization swept over Europe the less developed countries on the periphery tried with little or no success to imitate Western capitalism and liberalism Instead they remained as Berend shows rural agrarian societies notable for the tenacious survival of feudal and aristocratic institutions In

that context of frustration and disappointment rebellion was inevitable Berend leads the reader skillfully through the maze of social cultural economic and political changes in Hungary Czechoslovakia Yugoslavia Poland Romania Bulgaria Albania Austria Latvia Lithuania Estonia and the Soviet Union showing how every path ended in dictatorship and despotism by the start of World War II Only by understanding Central and Eastern Europe s turbulent history during the first half of the twentieth century can we hope to make sense of the conflicts and crises that have followed World War II and after that the collapse of Soviet controlled st

**Dreamland** Howard M. Sachar, 2003-03-11 By the end of World War I in November 1918 Europe s old authoritarian empires had fallen and new and seemingly democratic governments were rising from the debris As successor states found their place on the map many hoped that a more liberal Europe would emerge But this post war idealism all too quickly collapsed under the political and economic pressures of the 1920s and 30s Howard M Sachar chronicles this visionary and tempestuous era by examining the fortunes of Europe s Jewish minority a group whose precarious status made them particularly sensitive to changes in the social order Writing with characteristic lucidity and verve Sachar spotlights an array of charismatic leaders from Hungarian Communist Bela Kun to Germany s Rosa Luxemburg France s Socialist Prime Minister Leon Blum and Austria s Sigmund Freud whose collective experience foretold significant democratic failures long before the Nazi rise to power In the richness of its human tapestry and the acuity of its social insights Dreamland masterfully expands our understanding of a watershed era in modern history
