Chinese Popular Culture and Ming Chantefables Anne McLaren, 2022-02-22 In 1967 a body of Chinese texts was discovered in a tomb outside Shanghai It contained a set of unique examples of an oral genre favoured by unlearned classes in the late imperial period 15th century best called chantefables appearing at the beginning of a profound historical shift which resulted in a broadening of the uses of writing and printing in China These texts are now generally seen to occupy an important place in the development of Chinese literature as a whole and of Chinese vernacular literature in particular In the first monographic treatment of all the chantefable corpus in English the author by examination from a more anthropological view points out that these oral traditional texts can only be appreciated in the festival ritual and performative context of their derivation and reception Topics dealt with in this important work include the popular interpretation of Confucian orthodoxies the literary recycling of the oral tradition and the influence of chantefables on the development of Chinese vernacular fiction The author offers interesting comparative perspective on the different social consequences of print technology in China and the West Illustrations of ten chantefable woodblocks are included
