The Canadian Federalist Experiment Frederick Vaughan, 2003 In *The Canadian Federalist Experiment* Frederick Vaughan details how the fathers of Confederation defiantly determined to perpetuate monarchical government despite Enlightenment philosophy that insisted that republicanism was the only legitimate form of government embraced the Hobbesian principles of the English constitution and embedded them in the new Canadian constitution in 1867 leading to concentration of power in the office of the prime minister He then argues that Trudeau's 1982 Charter quietly undermined the monarchic character of the constitution by introducing republican principles of government The result has been old institutional structures at odds with the republican ambitions leaving Canada clinging to the wreckage of the old aristocratic order while attempting to provide a new order founded on republican equality Vaughan shows how at the time of Confederation Edward Freeman a Cambridge historian who convinced John A Macdonald to experiment with what no one had ever heard of before a monarchic federation and Jean Louis DeLolme a popular French authority on the English constitution helped forge a new federal constitution with a strong central government and a chief executive armed with the powers necessary to govern Vaughan examines how these principles were undermined by the judicial activism of the Judicial Committee of the Privy Council which paved the way for the significant expansion of judicial power under the Charter since 1982

Land, Power, and Economics on the Frontier of Upper Canada John Clarke, 2001 *Land Power and Economics on the Frontier of Upper Canada* examines Ontario's formative years focusing on Essex County in Ontario from 1788 to 1850 Upper Canadian attitudes to land and society are shown to have been built on contemporary visions of the cosmos John Clarke examines the actions of individuals from the perspective of the political culture and its manifestations doing so within the constraints of geography and the cultural baggage of the settlers Placing human action in the context of economics and laissez faire capitalism Clarke shows how almost unbridled acquisitiveness and its concomitant land speculation could promote or hinder development

Land

Policies of Upper Canada Lillian F. Gates, 1968-12-15 From 1763 to 1867 the land system of Upper Canada was one of the most important questions in the development of the new country This detailed study of the subject examines Great Britain's plans for Canada after the conquest the problems created by the royal promise of land to the loyalists Lord Durham's Report and the failure of the land policies to reach their economic and political objectives In addition it covers the land problems in Canada after responsible government was achieved Clergy Reserves untenanted and abandoned land settlement duties speculation wild land tax and assessment and the activities of squatters Based on Colonial Office despatches legislative records the Crown Land Papers newspapers and various private collections of documents this work offers an accurate account of the social economic and political aspects related to land policy in nineteenth century Upper Canada *A History of Law in Canada, Volume One* Philip Girard, Jim Phillips, R. Blake Brown, 2018-12-21 A History of Law in Canada is an important three volume project Volume One begins at a time just prior to European contact and continues to the 1860s Volume Two covers the half century after Confederation and Volume Three covers the period from the beginning of the First World War to 1982 with a postscript taking the account to approximately 2000 The history of law includes substantive law legal institutions legal actors and legal culture The authors assume that since 1500 there have been three legal systems in Canada the Indigenous the French and the English At all times these systems have co existed and interacted with the relative power and influence of each being more or less dominant in different periods The history of law cannot be treated in isolation and this book examines law as a dynamic process shaped by and affecting other histories over the long term The law guided and was guided by economic developments was influenced and moulded by the nature and trajectory of political ideas and institutions and variously exacerbated or mediated intercultural exchange and conflict These themes are apparent in this examination and through most areas of law including land settlement and tenure and family commercial constitutional and criminal law *Popular Politics and Political Culture in Upper Canada, 1800-1850* Carol Wilton, 2000 In Popular Politics and Political Culture in Upper Canada 1800-1850 Carol Wilton shows us that ordinary Canadians were much more involved in the political process than previous accounts have led us to believe They demonstrated their interest in politics and their commitment to a particular viewpoint by active participation in the petitioning movements that were an important element of provincial political culture *The Irish in Ontario* Donald Harman Akenson, 1999 For most of the nineteenth century the Irish formed the largest non French ethnic group in central Canada and their presence was particularly significant in Ontario This study presents a general discussion of the Irish in Ontario during the nineteenth century and a close analysis of the process of settlement and adaptation by the Irish in Leeds and Lansdowne township Akenson argues that despite the popular conception of the Irish as a city people those who settled in Ontario were primarily rural and small town dwellers Though it is often claimed that the experience of the Irish in their homeland precluded their successful settlement on the frontier in North America Akenson's research proves that the Irish migrants to Ontario not only chose to live chiefly in the hinterlands but that

they did so with marked success Akenson also suggests that by using Ontario as an historical laboratory it is possible to make valid assessments of the real differences between Irish Protestants and Irish Catholics characteristics which he contends are much more precisely measurable in the neutral environment of central Canada than in the turbulent Irish homeland While Akenson is careful not to over generalise his findings he contends that the case of Ontario seriously calls into question conventional beliefs about the cultural limitations of the Irish Catholics not only in Canada but throughout North America Donald Harman Akenson is professor of history at Queen s University and the author of numerous books on Irish history including *If the Irish Ran the World* and the acclaimed *Conor A Biography of Conor Cruise O'Brien* His most recent book is the groundbreaking *Surpassing Wonder The Invention of the Bible and the Talmuds*

Interdisciplinary Approaches to Canadian Society Alan F.J. Artibise, 1990-08-01 Far more than a bibliographic account of the major works in Canadian Studies *Interdisciplinary Approaches to Canadian Society* provides a broad examination of the state of this growing field of study Each chapter stresses the importance of the interdisciplinary and multidisciplinary approaches which have come to characterize Canadian Studies Also in an unprecedented collaborative effort almost all the chapters are jointly authored by anglophone and francophone scholars The works on Quebec and the francophone community respect the distinct nature of this facet of Canada As stated in the introduction this work is a primer in the field and a guide to further pursuits Its users will welcome it as a friendly introduction to an exciting country

[Protestant Liberty](#) James M. Forbes, 2022-08-15 Tensions between Protestantism and Catholicism dominated politics in nineteenth century Canada occasionally erupting into violence While some liberal politicians and community leaders believed that equal treatment of Protestants and Catholics would defuse these ancient quarrels other Protestant liberals perceived a battle for the soul of the nation *Protestant Liberty* offers a new interpretation of nineteenth century liberalism by re examining the role of religion in Canadian politics While this era s liberal thought is often characterized as being neutral toward religion James Forbes argues that the origins of Canadian liberalism were firmly rooted in the British tradition of Protestantism and were based on the premise of guarding against the advance of supposedly illiberal faiths especially Catholicism After the union of Upper Canada with predominantly French Catholic Lower Canada in 1840 this Protestant ideal of liberty came into conflict with a more neutral alternative that sought to strip liberalism of its religious associations in order to appeal to Catholic voters and allies In a decisive break from their Protestant heritage these liberals redefined their ideology in secular materialist terms by emphasizing free trade and private property over faith and culture In tracing how the Confederation generation competed to establish a unifying vision for the nation *Protestant Liberty* reveals religion and religious differences at the centre of this story

Between Law and Custom Peter Karsten, 2002-03-18 When British authorities established settler colonies in North America and the Antipodes New Zealand Australia South Africa Fiji from the early seventeenth to the late nineteenth centuries they introduced law through parliamentary statutes and Colonial Office oversight and they dispatched governors and judges to the colonies These jurists

set aside some aspects of English Common Law to meet the special conditions of the settler societies but the Responsible Governments that were eventually created in the colonies and the British immigrants themselves set aside even more of the English law exercising informal law popular norms in its place Law and popular norms clashed over a range of issues including ready access to land the property rights of aboriginal people the taking of property for public purposes master servant relationships and crown corporate liability for negligent maintenance and operation of roads bridges and railways Drawing on extensive archival and library sources in England the United States Canada Australia and New Zealand Karsten explores these collisions and arrives at a number of conclusions that will surprise **After the Rebellion** Lilian F. Gates,1996-07-25 This comprehensive book on William Lyon Mackenzie s later life focuses first on the period 1838 1849 Mackenzie s years in exile in the United States It examines his contribution to the American political scene including his role in writing the constitution of the State of New York The book also chronicles Mackenzie s life from 1849 when he was granted amnesty and returned to Canada to his death in 1861 In this the only comprehensive look at Mackenzie s life Lillian Gates offers a meticulous account of one of Canada s liveliest nineteenth century politicians *The Last Forty Years* J.C. Dent,1972-01-01 *Idea of Popular Schooling in Upper Canada* Anthony Di Mascio,2012 A study of the popular movement and political agitation for educational reform in Upper Canada **The Ordinary People of Essex** John Clarke,2010 An overview of agricultural practices and land use in early Canada **Ghost Storeys** Cameron Macdonell,2017-07-04 Most studies of modern Gothic media assume that beyond the 1830s modern Gothic architecture and literature had very little in common The work of Ralph Adams Cram 1863 1942 America s most prolific Gothic Revival architect and an author of ghost stories challenges that assumption The first interdisciplinary study of Cram s aesthetics Cameron Macdonell s Ghost Storeys deconstructs the boundaries of Gothic architecture and literature through a microhistory of St Mary s Anglican Church in Walkerville Ontario Focusing on Cram and the church s main patron Edward Walker 1851 1915 Macdonell explores the intricate intersections of Gothic aesthetics architectural ethics literature theology cultural values and community construction in an Edwardian era company town When Walker commissioned the church he believed that its economy of salvation could save him from the syphilis that afflicted his body and stained his soul However while implementing that economy Cram whose architectural theory social commentary and ghost stories were pessimistic about reviving the Gothic in the modern world also created an architecture haunted by the sickness of humanity Painstakingly researched and lavishly illustrated Ghost Storeys redefines the allegorical relationship between a marginalized church and the Gothic Revival movement as a global interdisciplinary phenomenon
